Friday.—Breakfast—salt fish hash, white and brown bread, butter, coffee. Dinner—fish chowder, white and brown bread. Supper—rice and molasses, white and brown bread, butter, coffee.

Saturday.—Breakfast—corned beef, white and brown bread, butter, coffee. Dinner—roast beef, boiled potatoes, pickles, white and brown bread. Supper—mush and molasses, white and brown bread, butter, cheese, coffee.

The above bill of fare has been adopted by the Field Officers of the Regiment, as the standard regulations for meals.

THOMAS P. PIERCE,
Col. 2d Regt. N. H. V.

A LADY'S HEROISM.—One day last week, the lady of one of our Portsmouth physicians, having occasion to go into the front entry of her residence, observed a rough-looking stranger, hastening towards the door. Knowing that he was detected, he said he wished to see the Doctor. She replied that he was not at home, and again the man moved towards the door. But he was suddenly stopped by the surprised exclamation of the lady:—"Here, you've got the Doctor's coat on; take it off!" "So I have," was the reply of the innocent man, and he took it off. Again, the door seemed to present peculiar attractions to him. Once more he essayed to reach it, but again was he delayed by—"Here, you've got another. *Take it off!*" This also was quickly done; the man bolted himself, and the lady bolted the door.

☞ The patriotic persons, residing in the vicinity of Portsmouth Plains, (and that includes all residing there, we believe) have purchased a large and handsome American flag, eighteen feet in length, and on Thursday last it was flung to the breeze from the top of a tall staff which had previously been erected in the centre of the Plains.

☞ A correspondent at the Plains desires us to add the following particulars to an item published in the Chronicle a few days since, relative to an insolent beggar: There were three women in the house, and one of them—a visitor—seizing a cudgel, dealt it lustily about the fellow's head, knocking off his hat, and causing him to beat a hasty retreat.

☞ At the Navy Yard on Monday, the new test oath of allegiance to the United States, was taken by all the officers of the Yard, Naval and Civil.

To-day, Tuesday, is pay-day, and about $20,000 will be paid out.

Two ships, the Marion and Santee, are reported ready for service, i. e. for crews and stores, &c.,—the Marion on Monday, and the Santee on Wednesday.

They have been fitted with great dispatch, and very thoroughly — the men *working with a will*, as if they meant to give something more than their hired service.

☞ Not a few of our readers will be pleased with the announcement which our advertising columns contain, of a steamer to run on our river during the summer, for the benefit of pleasure parties and associations.

☞ At this date, May 20, the commencement of the pasturing season, we have rarely seen the grass greener, or better set, in Portsmouth and vicinity, say 20 miles to the west and north west.

The Bath, Maine, Times of May 20, says the prospects for a good grass crop in Maine are said to be cheering.

☞ Boatswain William Black, U. S. N., has been ordered to the U. S. Ship Santee, now fitting out at this Navy Yard.

☞ We notice the name of Mr. George A. A. Hill, formerly of Greenland, as one of the passengers in Steamer Pembroke, from Fort Monroe, arrived at Boston.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat run by Capt Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

L. LAIGHTON.

Morning Chronicle.

John Bell's speech in Nashville, as authorized by him, is now published,—as part of the history of the day. The speech is not very specific, and does not hit the times, either South or North. He yearns to act with Kentucky, and yet approves Tennessee's Military League with the Jeff. Davis Usurpation. He don't like the Confederate flag, but would work under the Tennessee flag. He did not like the President's call for seventy-five thousand men; but had not heard it was to save Lincoln's own neck from the threatened halter, and the White House from bombardment, as has been given out through high quarters in the South, *passim*. He seems to think the uprising in the North is to subjugate the South, instead of, to save the Capital, to honor the flag and to preserve the Republic. Europe, he thinks, will interfere, if the war goes on. Perhaps so,—but on which side? We can well imagine. Mr. Bell speaks with a muffled mouth in Nashville,—but in such cases, better not speak at all.—*Post.*

LARCENIES.—Within a short time about 1800 pounds of iron have been stolen from on board a vessel lying at Portland Pier, and the City Marshal has been keeping a watch to detect the rogues. Thursday night it was discovered that some hogsheads of molasses on the wharf had been tapped and about 150 gallons drawn therefrom. Two men, Robert E. Tyler and Abner Reed, against whom suspicion rested for stealing the iron, were arrested on a charge of stealing the molasses, and yesterday in the Municipal Court they pleaded guilty.—They not only rob the molasses, but also stole the barrels, into which it was drawn, from Central wharf. The rogues sold it in Boston.—*Portland Argus.*

There has been a religious war, almost, in Newfoundland. At the legislative election on the 2d inst., a liberal mob in Harbor Grace showed itself very illiberal towards Protestants, demolishing their property, destroying a newspaper, and driving the editor—a Yankee—to take refuge in the garrison. It was only when threatened with artillery practice that the rioters dispersed. In another town two men were killed and six wounded by a political mob; the election was forced, and regularly elected candidates retired under threats of violence. The trouble seems to have arisen from a difference of opinion between the Bishop and the people. From letters, etc., we gather that the Catholic element is in power, though the Protestants are in actual majority.—*Post.*

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading physicians of Boston, is one of the most delightful and efficient forms of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with rarest medical compounds, it cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.

One of the very best Physicians in Boston has said "*but is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

15 Greatest Medical Circular Ever Published! 15

Fifteen Cts large letter paper for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1854, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Volpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhœa, Syphillis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Dismal Evenings*, in short, every possible form and variety of Secular Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 cent stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*sent for Circular.*

Dr. Jackson's Female Pills, $1—*sent for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Volpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guaranties of honor, skill and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 426. Send for Circular, and state your case plainly and fully.—Address, as above, and you will receive the Circular and our written reply by return mail. BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic fire and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses, French, well known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the aged and those recovering from sickness or wasting diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best physicians in Boston has said *"but it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint and pint bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEFEBRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart so that he was at times prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) "I can cordially recommend them as of decided merit in all cases of fever and ague, dyspepsia and general debility."
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
Is prepared by Dr. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is universal favorite.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.13. Apply to or address

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, MAY 22, 1861.

FROM KEY WEST.—A letter from Key West Barracks, May 14, is before us, written by a citizen of Portsmouth. Key West is represented as a hot-bed of secession; it has nearly 4000 inhabitants. They had a paper of the rebel stripe there, which said, one Saturday, all the Stars and Stripes must come down.

They did not come down, however, but on the contrary, Maj. French, of the U. S. army, issued an order on the next Monday, to the mayor of the city to take down al the rebellious flags, of which there were a dozen or twenty. He enforced this order by commanding every house bearing such flag, to be battered down. The flags were all struck. He ordered the paper stopped, —and it was done. The military company of fifty rebels was crushed out, and martial law came in.

Since the blockade began, the civil and military forces at Key West have seized four vessels.—1. the famous yacht Wanderer. 2. a schooner from Charleston, with a mail. 3. a schooner [bringing a *secession judge*, for Key West, "who would now be glad to get away, but (adds the writer) I don't think he will." 4. the last and best seizure, the secession mail steamer from New Orleans, which came in without lights, and slily,—but was seized, with mails, etc. The troops are in the best of health and spirits. The fort mounts about 200 heavy guns, and is well garrisoned.

☞ Advices from Key West of the 14th state that Capt. Craven of the Crusader had seized the steamer Sumannee. He was about to arm the yacht Wanderer, which is to be sent to the Gulf under a Lieutenant of the U. S. Navy.

The city of Key West remains loyal.—All seditious persons are to be removed from the Island. Major French had appointed a magistrate who supersedes the Mayor, Justice, &c.

TORNADO IN SOUTH CAROLINA.—A terrible tornado passed over the district of Orangeburg, S. C., on Monday afternoon of last week, doing great damage to property, and several lives were lost. The gale extended a distance of 25 miles, and the width of the path of the whirlwind was about a quarter of a mile. The roar of the tempest was frightful. Its power was wonderful. It bore heavy fragments of Dr. Jenkins' houses more than two miles from their site. In traversing the woods it twisted up and prostrated the largest pine trees in every direction, and in one instance it tore up a stone wall entire, leaving it with its foundation highest.

AN EYE ON THE PORK.—The Richmond Examiner advises the secessionists to let Washington go, and direct their attention to Cincinnati, which it declares the most vulnerable place on the border. By occupying the Kentucky hills, opposite Cincinnati, the Examiner says the city could be laid in ashes. It advises the Southern troops to form their plans secretly, and improve this rich opportunity. A Cincinnati paper says:

"The seceders have their eye on the pork; but they may make up their minds that the Cincinnatians are fully able to 'save their bacon.'"

As the Examiner has been a strong advocate for an attack on Washington, this advice may be intended to deceive the government, yet will deceive neither Gen. Scott nor the holders of pork.

GETTING DESPERATE.—The Charleston Courier says that the motto of the Crescent City Guard, attached to the Second Louisiana Regiment, and which was to have left New Orleans on the 13th instant for Virginia, is "Washington or death." They number 83 men, rank and file. These gentlemen are either rather venturesome, or they do not read the papers.

SHINPLASTERS IN CHARLESTON.—The city of Charleston is suffering from a lack of small change. The Courier suggests that the City Council should issue notes of denominations from *ten to fifty cents*, redeemable in city bank notes. Besides affording accommodations in the way of change, it says that such a course "would be a source of profit to the city, as many of the notes would be destroyed by constant use, as well as find their way out of the city; besides, the city would have the free use of the money during the crisis."

☞ While the Niagara was absent from Charleston harbor, several vessels got in, and one of them got a good freight of cotton, at a very high rate.

THE WAR FEVER IN NEW YORK.

NEW YORK, May 18, '61.

New York is perfectly wild with the war excitement. Startled from the apparent apathy,—which was only the smothering of the flame in the vain hope of a peaceable settlement,—by the noise of actual conflict and the thrill of danger, we have become warlike and energetic, where before all was forbearance and reluctance.

You can fancy the martial appearance of the city. We have enlisted and equipped 35,000 men, of whom 9,000 have gone forward, and the remainder are an armed legion among us. As this is the depot for the movements of transports, we have frequent transits of the hardy Volunteers of New England and New York State, and hope soon to greet with hearty cheers the stalwart regiment from our own Granite Hills.

The popular excitement evinces itself in the mania for displaying flags. Broadway looks as if heaven had rained on us a shower of red, white and blue, and the glorious colors had caught wherever they fell, waving from tall staffs and church steeples at dizzy heights, reflecting the vernal sunlight, floating from horizontal lines, suspended from windows, festooned over stores and dwellings in graceful folds, flying from vehicles and horses, fastened in button holes, on hats and bonnets, on little dogs' tails and big dogs' ears, and piled in the arms of myriads of small boys who display the white flag of truce in the rear while they sell the star-spangled banner in front.

Everywhere above and around us is a waving, flashing sea of bunting, ribbon and tape. And as if we needed still further reminders, we are assailed twice in every rod of a walk, by pertinacious importunities to buy a variety of emblems and articles relevant to the absorbing subject, to catalogue which would occupy a column, comprising everything inventible, from a silk rosette to "the las' kick 'er Jeff Davis, onny a cent."

Business is like Southern remittances, rather slow. But the adaptableness of the New Yorker does not allow him to rest with his hands in his pockets,—which somebody says are the shells of his soul. We contrive to keep busy, like the Wisconsin editor, who, having been sold out three times by the sheriff, continues to publish his paper and says, "We came here to print, and intend to do it, if we have nothing but shoe pegs and a cheese-press!"

Yours, for the Union, now and forever, one and *invisible*, (just at present,)

ISLINGTON.

REBELLION RECORD.—G. P. Putnam, of New York, has commenced the publication of "the Rebellion Record, a Diary of American Events, 1860—61." It is carefully edited by Frank Moore, who is well known as the author of the "Diary of the American Revolution." The Record is divided into three parts, the first consisting of a diary of verified events, the second of poetry, anecdotes and incidents, and the third of documents, proclamations, speeches, &c. It is to be issued in weekly parts at 10 cents, and in monthly parts at 50 cents, illustrated with portraits and maps. Any person who desires a permanent digest for future reference will have such want well supplied by this publication, as it is reliable and of a convenient shape for binding.

☞ The Atlantic Monthly, for June, is decidedly a war number, containing an Army Hymn by Dr. Holmes, (which everybody will be singing in a few days); an article by Jas. Russell Lowell, entitled the Pickens-and-Stealin's Rebellion; another giving an account of the N. Y. 7th Regiment, written by a member; besides several others. A number of gentlemen of Boston have subscribed for ten thousand copies, as a gratuitous donation to the officers and soldiers of the army.

☞ Charles Adams, a colored man, was arrested in Newburyport on Saturday, for threatening to burn the city and kill Sheriff Smith—and was ordered to recognize in one thousand dollars to keep the peace and be of good behavior for six months. Not being able to give bail, he was sent to the County House to await trial at the October term of the Court. He is a native of Georgetown, D. C., and was born a slave.

☞ The Pennsylvania Fifth is quartered in Washington at Inauguration Hall, under the floor of which were found, the other day, several pools of stagnant water and a dead hog. One member, who was perfectly well at night, died next day without any apparent cause. His body was as blue as indigo an hour before he died. His name was George Shreck, from Schuylkill.

FAILURE OF CALEB CUSHING.—The Boston correspondent of the Springfield Republican says:

"I learn that Caleb Cushing has failed in business. Years ago he was concerned with Robert Rantoul, Jr., in extensive speculations at the West, and it is on account of these, as I understand, that he is obliged at last to succumb."

☞ Charles Lever, the novelist, died at Spezzia in the latter part of April.

SAM HOUSTON ALL RIGHT.—The charge that General Houston made a secession speech at Galveston, is all false.—He characterizes the secession of Texas as iniquitous and prejudicial in every way to her best interests. He said that though disunion might be in the ascendant now, that there was a terrible reaction to come, which would be heard, and that he stood in a waiting attitude for that time to come.

THE SPEAKERSHIP.—The Washington correspondent of the New York Tribune says that politicians are beginning to swarm there, and already, despite the importance of graver matters, the Speakership and its candidacy agitate their minds. But two names are prominently mentioned—Galusha A. Grow and Frank P. Blair, Jr.

A FICH STORY.—One of the companies connected with the Ohio regiment contains sixteen brothers by the name of Fisch, residents of Dayton, Ohio. They were born in Germany. The family numbers in all nineteen children, all the boys being with the regiment as stated above.

CUSTOM HOUSE APPOINTMENT.—George J. L. Colby, Esq., editor of the Newburyport Herald, has received his commission as Naval Officer in the Newburyport Custom House. Mr. Colby formerly held a similar position in the Custom House at Salem.

EUROPEAN ITEMS, via Liverpool May 9. It was reported in London that an American ship from Liverpool, en route for New Orleans, had been insured at 15 guineas. A ship from Shanghae for New York had been insured at 40s.

The French Chamber of Commerce has called attention of government to the necessity of taking measures for the protection of French vessels in American waters. The Minister of Commerce, in reply, promised, in concert with the Minister of Marine, to have a conference with the Emperor on the subject.

The harvest prospects of France are represented to be very bad, owing to the inclement weather. The first crop is lost, and the wheat crop is seriously damaged by the frost. There has been irreparable mischief to the brandy crop at Cognac.

It is stated that American agents had reached France to purchase arms and military equipments.

Affairs in Warsaw remain unchanged. Extraordinary sittings of the Council of State had taken place for several days at Warsaw, on account of some peasants having refused to perform the forced labor required of them.

WASHINGTON, May 20.—The Secretary of War in a letter to Acting Surgeon General Wood, alludes to the bad and unhealthy condition of the quarters provided for the troops, and says the citizen soldiery, who so promptly and patriotically responded to the call of the President for the defence of the constitution and laws, are entitled to the tenderest care and most assiduous attention of the government, and the Surgeon General is directed to cause immediately an inspection of the barracks by competent medical officers, and report such measures as may be necessary to promote the health and comfort of the citizen soldiers.

The steamtug Freeborn arrived this afternoon from Fortress Monroe, bringing dispatches to the government. On her way up she captured two small vessels and wharfed them at the Navy Yard.

A passenger by the Freeborn states that on Saturday two vessels from the fleet paid a visit to the vicinity of Sewall's Point, about four miles from Fortress Monroe, where the Virginians were erecting a battery, and threw shells at the works, materially spoiling their architectural arrangements. The shots were returned, but without effect on the vessels. It was not known whether anybody on shore was killed.

Commodore Pendergast sent a flag of truce to Norfolk with a view to make arrangements for the transportation from thence of certain persons to the North, and received assurances that in this respect he should be accommodated. A vessel was in waiting to take them to New York.

There was some excitement to-day caused by the report of a fight at the mouth of the Potomac, but the Navy Department is satisfied that there is no truth in the story.

The frigate Niagara has been withdrawn from the blockade of Charleston for more important service, and another vessel will immediately take her place.

NEW YORK, May 21.—The government yesterday seized the manuscript dispatches of twelve months, in every considerable telegraph office of the free States. The government can now trace the secret operations of the rebels and their abettors.

☞ Harper's Monthly for June is on hand, and for sale at J. H. Locke's. We are indebted to John H. Dyer & Co., Boston, for an early copy.

☞ A New Orleans paper expects soon to hear of forced loans at the North, and advises the merchants to look to their coffers.—In reply to this, the Boston Advertiser remarks:—

The merchant princes have done so already; they have not only looked to their coffers, but they have voluntarily drawn out handful after handful of gold, and given it freely for the support of the government.

TENNESSEE.—Gov. Harris of Tennessee has refused to lend United States arms to the Union men of the eastern portion of the State, probably from the belief that they might be used in defence of the National Government, and therefore against his Excellency. How long shall we see Andrew Johnson, and Nelson, and Etheridge withering under the despotism of traitors?—*Boston Post.*

HAGERSTOWN, MD., May 20.—The Confederate troops have not crossed the Potomac at Williamsport yet. They have no tents and very little if any provisions.

The commander says he has no intention of crossing the river. It is reported that 1500 men are expected to night with artillery.

FRANKFORT, KY., May 20.—Magoffin has issued a proclamation which asserts that the State will be kept in a condition of armed neutrality and will not allow the arms in the hands of the Home Guard to be used for or against the United States or the Confederate States.

PHILADELPHIA, May 21.—The ship Gen. Parkhill, of Liverpool, for Charleston, arrived to-day in charge of a prize crew from the Niagara. She was spoken off Cape Romain on the 12th, and ordered off, but was next day captured while attempting to run the blockade.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

GENTS:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

HEIMSTREET'S INIMITABLE HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance.* Two articles in one. A fine *Hair Dressing*, and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir:*—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. OUR FOURTH OF JULY.—*Messrs. Editors*:—Is it not nearly time to think about celebrating our National Anniversary—the 4th of July? In view of the present unhappy condition of our country, should we not use extra exertions to celebrate appropriately this Nation's Birth day?

Shall we not show to the thousands who are gathering on the battle fields, to vindicate their own rights and to retain the proud legacy of their fathers, that we, who remain at home, have not forgotten to cherish and commemorate our glorious Independence Day? Let every hamlet, town and city resound with the booming of cannon and the peal of bells. Let the Northern sky be illuminated by the bonfires of patriotism, and one grand liberty chorus from the lovers of our glorious country once more echo through every valley and from every hill-top, till it extends even to that portion of our land where base treachery's hand is raised to pluck the stars from out our country's flag. Let not our own city be backward in attesting, by a proper observance of this day, that we will not suffer domestic foes to erase forever from our country's calendar, the brightest day that ever dawned upon a great, a prosperous and a free people.

Shall we not have a meeting of our citizens called at an early day, and a programme arranged for the celebration of the coming anniversary of our National Independence? H.

Messrs. Editors: — We hear a great many *just* complaints in regard to the new uniforms just furnished to the volunteers. Already one of our tailors has altered over three hundred garments in order to make them fit the men. Now the question arises, is this as it should be? We have in this city tailors who are every way qualified to furnish any quantity of clothing to the volunteers, and at a price as low as the lowest. The tailors of Concord should have furnished the 1st Regiment, and the tailors of our own city the 2d Regiment. If such had been the case, the noble men who have volunteered to serve their country, would now have garments well made and well fitted, which is not the case at present. We ask in behalf of our citizens, why New Hampshire could not have furnished the garments? Was it because they could not have been made as soon as desired, or was it because—well, because what? JUSTICE.

☞The 1st Regiment, N. H. Volunteers, having received orders, will start for Washington next Saturday. They would go sooner, had not one or two members been attacked by measles. It is said the New York troops were all vaccinated before leaving that State.

THE FIGHT AT SEWALL'S POINT.—*The Rebels Routed—Their Battery Destroyed.* Steamer Freeborn reports that while in Hampton Roads, on Sunday, she heard heavy cannonading, which proved to be between the steamer Monticello and a battery of the rebels on Sewall's Point, at the mouth of the Elizabeth river. As the Monticello seemed likely to get the worst of it, the Freeborn was sent to her assistance, and drawing five feet less water, she got within 300 yards of the battery, and opened fire from a howitzer throwing shell, and from a 32-pounder. The effect was terrific; two columbiads on the battery were speedily disabled, while the men, some 50 in number, scattered in every direction. In a moment they rallied near the battery, when a shell was sent after them; it struck the ground some twenty feet in front, ricocheted and passed through the crowd, and they all took to their heels. A few more shots smashed the battery into atoms. The officers think no one was killed at the battery. When the steamers left, no one could be seen.

Gen. Butler has orders to proceed at once to make forward movements, and will directly remove obstructions in Norfolk harbor.

☞By the mail items of Tuesday evening, it appears that the home steamboat mails, which have now been stopped, cost the U. S. $600,000 per annum.

On Monday at Washington Secretary Chase submitted the oath of allegiance to the employees in his department. 16 refused, besides several others in the different bureaus, and all were discharged.

The adjourned Wheeling Convention of delegates east of the mountains will propose a policy of forming a Provisional Government for the whole State of Virginia, electing a Governor and State officers, the authorities at Richmond having abdicated their legitimate powers, and become rebels and traitors.

Great dissatisfaction is reported to exist at Harper's Ferry, among the troops, on account of their different views of public affairs.

NEW YORK, May 20.—A special dispatch to the Times from Frederick says 2000 Mississippians arrived at Harper's Ferry on Sunday, also two regiments from Alabama. A company of cavalry had left for Martinsburg to prevent Union men from voting there on the 22d.

The city of Frederick is guarded by armed Union men, who have arrested an incendiary.

He who "couldn't stand it any longer," has taken a seat, and now feels quite comfortable.

NEW YORK, May 20.—A special dispatch to the Herald from Chambersburg states that 700 men from Harper's Ferry had moved opposite Williamsport. There were 2000 barrels of flour in Williamstown belonging to secessionists, which is being rapidly removed to Hagerstown. Cherokee Indians were seen among the rebel troops. Small pox was prevalent among the troops at Harper's Ferry.

The people in Cumberland were much excited, fearing an invasion of foraging parties, thereby exhausting supplies. It is believed the rebel troops are being scattered over Berkley, Jefferson, London, Frederick and Clarke counties, to over-awe the Unionists at the election.

The New Orleans Picayune of Friday states that the privateer Calhoun captured on the 15th inst. the bark Ocean Eagle, from Rockland, Me., with 3100 casks of lime consigned to New Orleans parties.

NEW YORK, May 20.—The Post's Washington dispatch says the government has received advices from London which afford perfectly satisfactory indications of the line of policy which will be pursued by the British Government toward the seceded States. The Administration entertains a firm conviction that its course in crushing out the rebellion will be fully sustained in England.

Rev. Dr. Fuller of Baltimore has arrived from Savannah, where he uttered treasonable sentiments at a meeting of the State Baptist Convention. The government is watching him.

Judge Nelson writes from Tennessee that the Union men of the Eastern section of the State will give 20,000 majority against secession.

BALTIMORE, May 20.—This afternoon a detachment from Philadelphia encamped, and then marched to the District Attorney's office, and having delivered a document returned. There are various surmises, but it is supposed the object of the visit was relative to the possession of arms said to be secreted in the city.

Eight companies of recruits, which have been raised here within the past few days, left this afternoon for the Relay House.—It is understood they will occupy the post now held by the Massachusetts troops, who go to Fortress Monroe.

The Boston Artillery company have been ordered to Annapolis immediately. It is supposed they will be shipped from thence to Fortress Monroe.

NEW ORLEANS, May 20.—A passenger from Texas reports that Gen. Young was pursuing Montgomery and the federal troops, and had overtaken the baggage, supply and ammunition trains, which were seized, with some beeves and horses.

Montgomery had evacuated Fort Washita, and was waiting at Fort Arbuckle. Gen. Young was determined to take Forts Cobb and Arbuckle.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to be an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Are you sick, or ailing? Are you constipated? Are you a sufferer from Piles? Are your bowels deranged, your stomach out of order, your system constipated? Have you a cough, or cold? Are you afflicted with any of the various forms of sickness originating in a disordered state of the stomach? If so, a timely use of the right remedy. Take Ayer's Pills, and cleanse your system, purify your blood, and let the functions move on regularly and healthfully. They stimulate the functions of the body into healthy activity, gently overcoming those obstructions which make disease. A cold settles somewhere in the body, and stirs action in natural functions to throw it off. Cathartics react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. Whether this be true and so important in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cathartics by similar changes and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1859.

DR. AYER: Your Pills are the paragon of all that is great on earth. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: You need answer you what complaint I have cured with your Pills better than to my *old friend and preceptor*, the great physician, I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual in the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which combines the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1854.

DR: I have used your Pills in my general and best practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, occasionally they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease on obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them as cathartics as one of the best medicines I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their unsugarcoating makes them very accessible and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am acquainted with in distress. To regulate the organs of digestion and purify the blood, they are the best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARREN, Wyoming Co., N. Y., Oct. 24, 1857.

DEAR DOC: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the *fountains of the blood*.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppressions, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of constipation. If others of the faculty have had the success as attributed as I have, they should join me in publishing it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe you deserve to originate in the liver, but your Pills affect the organs and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural menses, when wholly or partially suppressed, and also very efficacious to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hoskins of the Methodist Episc. Church.

PITTSFIELD HOTEL, Sarasota, Co., Jan. 8, 1856.

HONORED SIR: I should be ungrateful for the result your skill has brought me if I did not report my case to you. A cold settled in my hip, which caused me to walk on crutches, enduring neuralgic pains, which ended in a fever and delirium. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SPRING CHAPEL, Baton Rouge, La., 5 Tr., 1855.

DR. AYER: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the doubtful chance of some that frequently follow its incautious use. Our pills contain no mercury or other injurious substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for family use and health, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable fairly, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and characteristics. Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

ATWOOD'S
QUININE TONIC
BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, producing healthy good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may confidently there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*Not it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

GARDINER'S

RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with *sores*, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 59 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—HON. J. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 25 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when some physicians attending him could do him no good. He says "For rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

Such News we are receiving Daily.

Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by Dr. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxurious hair. Supplied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a Box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct, securely packed, on receipt of price and postage, $1.18. Apply to or address

THURSDAY, MAY 23, 1861.

WASHINGTON CORRESPONDENCE

WASHINGTON, D. C., May 19.

Dear Chronicle:—As we were penning a few items of New York news for you we suddenly received orders to put ourself "in readiness for a visit to Washington in the shortest time possible." Now to dive into the hidden recesses of one's trunk and exhume therefrom a convenient travelling suit, to pack up all one's clean linen, and such portion as nearly approaches thereto, and, leaving the remainder in the middle of the room in one promiscuous heap, to rush to and secure a seat in the cars, perchance in co-partnership with some fair-proportioned Jersey market woman, of 200 avoirdupois, with an illimitable number of baskets, —all this performed in the short space of an hour, gets one "kinder flustered" as our grandmothers would express it—only a "little more so" if the wanderer be, as was our case, little versed in travelling accomplishments. 'Twas a relief to experience the stillness of night on the foreign shores of Jersey, broken only by the rattle of the wheels, the "puff, puff" of the engine, and the shrill voice of the conductor, announcing the different stations through which we passed.

At Philadelphia we changed cars, and again at Baltimore at 4 A. M., in the latter place passing over the spot where the Massachusetts Volunteers died; and as daylight dawned through the car windows we steamed into the Capital, with that feeling of reverence and awe so often experienced by strangers entering this place named for the noblest man the world ever saw, and sanctified by the memory of a host of American statesmen.

After transacting a few business matters, our first trip, as you will readily suppose, was toward the Government buildings, up Pennsylvania Avenue, with its broad path spotted with troops on horseback and afoot, —with the music of a band on one hand and the rumbling of artillery pieces on the other. To give you any description of the Capitol, standing so grandly on a gentle rise of ground, or to enlarge upon the beauties of the other government edifices, would be only a repetition of that with which your readers were long ago familiar. The appearance is slightly marred by the unfinished dome, which, seen from the depot by a stranger entering or departing from the city, brings to mind the not unreasonable inquiry of the old lady "if that was the gas works!"

The military here make the streets very lively:—every one wears a determined look, and is apparently full of business, and remarks on every side indicate that while all hope for the best, all are prepared for the worst.

The hotels are crowded with male guests; but few ladies are to be seen either in places of public entertainment or in the streets. The *tables d'hote* are amply furnished, and should that poet who sung, "Man wants but little here below"—dine once at "Willards'" he would change his idea of at least *his* wants speedily.

We to-day visited the camp of the N. Y. Fire Zouaves at the Insane Hospital (!) They appear the same as when, a month since, we saw them rushing up Broadway to a fire,—the careless bravado so common to their class still manifesting itself in a *quiet* way.

One of the many interesting spectacles we have witnessed was the review of a portion of the troops by Gen. Scott and the President, the commanding figures of each towering above the heads of a crowd of good-sized volunteers, and the sharp, eagle eye of Scott piercing the inmost souls of the soldiers, to find them true and loyal.

While the marks of age are perceptible about our general, he is far from being infirm. He still retains that martial carriage and firm step so peculiar to him, and his strategic mind is as clear as on the day when his youthful heroism shone forth at Lundy's Lane.

NEWINGTON.

☞ The Montgomery Advertiser of the 16th inst. says that the various accounts about hundreds of letters of marque having been granted by the War Department of the Southern Confederacy, and that thousands of applications are on file, is a gross error. Applications for that business are made to the Collectors of the different ports, and not to the department at Montgomery, where none have been received.—A number of applications have been made to the Collectors of New Orleans, Mobile, and other Southern ports.

PROBABLE CHANGES.—The difficulty of getting cotton to market, and the necessity of having an unwonted supply of provisions, breadstuffs and food for horses, in these warlike times, will very likely cause unusual attention to be paid to the latter articles, to the neglect of the former; and it will not be surprising if the cotton crop shall fall to one half of that produced last year. This event has been anticipated by the cotton consumers of Europe, and hence the herculean efforts which have been made to stimulate the production of cotton in other regions of the world. It will be a miracle if the cotton-planters are not ruined by their rebellion.

Every event seems to conspire to their destruction. There is imminent danger of the immediate and violent overthrow of slavery; and at any rate, there is a strong probability that the institution will be materially modified before the termination of the war. These are the direct consequences likely to flow from the rebellion, and to them will be added, in all human probability, the depreciation of the value of slaves by the destruction of the monopoly now enjoyed in the production of cotton. The opinion gains ground daily, that whatever else may happen, slavery will be destroyed or fatally wounded in the conflict of arms; and from present appearances, it encounters the greatest risks at the hands of its friends.

☞ The Boston Post of Wednesday contains a very able and searching review of Mr. Russell's letters to the London Times, which letters are shown to be full of erroneous estimates of our character and institutions. The statements of Mr. Russell have doubtless had more influence on the European mind, than they deserve;—and as the late intelligence here, contradicts all his *guesses*, it will show him up badly in Great Britain.

GOV. LETCHER'S MAP.—A Washington dispatch of May 20 says:—

A valuable parcel was seized here this morning in transit to Gov. Letcher.—Months ago Gov. Letcher caused surveys to be carefully made for a military map of Virginia. The memoranda and detached plans were sent to a German employed in the Coast Survey office, to be engraved. He recommended forwarding them to New York, which was done. A few maps were engraved and sent with the plate and original materials, towards Richmond, necessarily through Washington, where the Government took charge of them. They are very accurate, and will be of great use in the coming campaign.

☞ There is a cloud gathering in the direction of Fort Pickens. Gen. Bragg stated on the 10th inst. that he was ready to begin the attack. He is also reported to have said that the conflict will cost him 3000 men. Before Pickens, it is said, there are fifteen batteries erected, or in course of erection, and the soldiers were engaged in mounting mortars. Major Ben McCulloch, of Texas, is there, and will remain until after the fight. Gen. Bragg's command numbers 10,000 men.

☞ The Philadelphia Press gives the following and Buchanan's opinion of public affairs:—

A gentleman who saw ex-President Buchanan a few days ago represents that he is in a most feeble condition, greatly depressed at the situation of public affairs, and yet earnestly in favor of the course of the present Administration. He gives it as his unqualified opinion that no foreign government will recognize the Southern Confederacy, and declares with great emphasis that those in the lead of that movement should be put down if it led to a seven years' war and to the expenditure of hundreds of millions of dollars.

MAINE SOLDIERS.—The Bangor Whig says that during a drill, Capt. Burton's six-footers, at Oldtown, a few days ago, were marching upon a platform towards the river where the platform ended, and no order to halt being given, they kept on until ten had jumped into the river and commenced swimming. Had not the order been given, the whole company would have followed them, and probably kept on swimming to this day.

☞ "Nobody ever thought of attacking Washington," was the assertion of a northern sympathizer with the rebels. But *per contra*, read the following item from the New Orleans Picayune of May 4:

We heard but recently of an united North to defend and preserve the Union—now we hear of a united North to subjugate the South. The change is rapid. It shows the *increasing strength* of those whose permanent success would be destructive of *liberty*. These are the enemies the South has to combat. A Southern victory at *Washington* would not only strike terror into their ranks, but go far towards releasing the *good* and *estimable* people of the North from a thraldom which has become as terrible as it is degrading. We hope to have the pleasure, ere *many days*, of chronicling the glorious achievement.

☞ Washington continues full of patriotic citizens from all parts of the North, who have gone there to offer men, money and ships to the government. The leading hotels are crowded with distinguished visitors. Such a rush of business was hardly ever known to the Washington bonifaces at this season of the year.

ST. LOUIS, May 21.—Major General Price, commanding the Missouri militia, had an interview with Gen. Harney this morning, the result of which is that they mutually declare their common object to be to restore peace and good order to the State, subordination to the laws of the general and State governments, and they unite in recommending all persons to respect each other's rights and to make no attempt to exercise unauthorized powers, as it is the determination of the proper authorities to suppress all unlawful proceedings which can only disturb the public peace. General Price pledges the whole power of the State to maintain order, and General Harney declares that this object being assured he can have no occasion to make military movements which might otherwise create excitement. They therefore enjoin upon the people to attend to their civil business, and express the hope that the elements which threatened to disturb the peace will soon subside.

Private dispatches state that the southern confederacy have established a battery at Memphis, which prevents the passage of all upward bound boats.

The boilers of the steamer Kentucky exploded at Helena yesterday. Twenty lives were lost, including those of both clerks.

NEW YORK, May 21.—Steamship Persia, from Liverpool 11th, arrived this evening.

The reason of the Persia's refusing to take war freight was because it was thought that such a course would vitiate her insurance, and the agents of the line wished to keep strictly neutral.

The London Times says a regular campaign in the region of Maryland appears unavoidable, and the borders will perhaps witness horrors to be remembered for generations. All England can do is to keep aloof. Not only positive law, but the moral feeling of the community, will forbid any British subject to engage in the conflict.

Several American vessels are reported to have been sold in Liverpool at very low rates.

NEW YORK, May 21.—The Commercial learns from an authentic source in Washington, that the business for the extra session of Congress will be so compactly arranged that but a short session will be required for its despatch, according to present appearances. Almost perfect unanimity will prevail.

The same paper says positively that the French and English Ministers have heartily approved of the action of our government in the steps it has taken to re-assert its authority over the seceded states.

CHAMBERSBURG, PA., May 21.—Two reconnoissances were pushed southward from here yesterday. They report to day that they penetrated the lines of the confederate army and went deliberately through the camps. They saw three hundred troops ten miles from Harper's Ferry and seven hundred at Williamsport. There were no reinforcemnts at the latter place to day at 3 o'clock.

The troops here expect to move as soon as Gen. Williams returns.

PHILADELPHIA, May 21.—A gentleman arrived from Washington this evening says a couple of Col. Ellsworth's Zouaves crossed over to Alexandria last night, and eluding the vigilance of the sentries cut down a secession flag there and returned safely.

The recent rains have been very injurious to the health of Philadelphia troops encamped at Baltimore, and it is reported that they will be located soon on Federal Hill.

SENATOR DOUGLAS.—The Washington correspondent of the New York Tribune says that having seen it stated that Senator Douglas had received an appointment as Brigadier General, he asked the President if it was so. He said it was not; that neither Mr. Douglas nor his friends had applied for it, and he had not thought of tendering it to him. He also said that if Generals were to be appointed from civil life, he imagined there were many who would be inferior to Mr. Douglas in that position; that the Senator was the first one to tell him of anticipated trouble in Maryland, to point out the proper route via Perryville and Annapolis, and to suggest that Fortress Monroe and Old Point Comfort were the points that commanded the whole of that section of the country.

NEW YORK, May 21.—It is reported that there is great dissatisfaction among the troops at Harper's Ferry, in consequence of the existence of several parties, some of whom favor the annexation of Virginia to the Confederate States, and others her separate independence, and still others who are unconditional Unionists. Both of the last two classes refuse to take the oath of allegiance to the Confederate States.

The people of Sharpsburg, Md., tore off the top of a hack in which some secession soldiers were riding to-day, maltreated the driver, and swore that no more secession soldiers should pass through their town.

☞ As Mr. Enoch Holt of Hooksett, was rolling logs into the river at Hooksett village, Saturday last, he was thrown to the ground, and a large log rolling upon him, broke two of his ribs and injured him severely, but not fatally. Mr. H. fell into a bed of mud at the time of the accident;—otherwise probably he would have been instantly killed.

The Legislature of North Carolina propose to give five millions of dollars to carry on the war. This is precisely of the same piece of transparent dodge that the Legislature of Tennessee enacted when they voted five millions. There is not money enough in the treasury of either State to buy red shirts for one regiment of men, and the bonds of both are selling at the following figures:—North Carolina 6's, 53; Tennessee 6's, 41 1-2.—*Boston Courier.*

NEW YORK, May 21.—The sloop Time, laden with 150 kegs of powder, was seized on the North River this morning.

NEW YORK, May 21.—A special dispatch to the Post from Washington states that one thousand rebels left Harper's Ferry, yesterday, for Grafton, Va., in order to resist the passage of Federal troops from Wheeling.

INDIANAPOLIS, Ia., May 21.—The secession raid in Indiana turns out to be a hoax. A mob of 100 armed men yesterday arrested four citizens at Dover's Hill, which gave rise to the report.

WASHINGTON, May 21.—Surgeon Finley will be appointed Surgeon General of the Army.

Gen. Scott's health is good, maugre reports to the contrary. He is discharging the duties of his office daily and nightly.

LEG BROKEN.—Mr. James Preston, was thrown from a wagon, near the depot in Manchester, on Saturday evening, and broke his leg just above the ankle. His horse was frightened by the whistle of a locomotive.

BATTERIES ON THE MISSISSIPPI.—The Memphis Bulletin says:—

We are constantly receiving cannon.—Almost every steamboat and railroad train which arrives adds to the number. The batteries up the river are nearly finished, and are capable of sinking a fleet of one hundred iron steamers, should Old Abe send as many down this way.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease that "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their extraordinary virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 dawâm

Local.

☞ A large number of patriotic ladies have been actively occupied recently, at the Court Street Chapel, in making Havelocks for the volunteers. The "Havelock," as described by an exchange, is a style of head gear, so called after the late distinguished Christian soldier in India. It is a plain cap, high in the crown, made of thick white linen, having a cape which falls to the shoulders, covering the neck and ears, and a long visor, shading the greater part of the face. The value of this cap as a security against sunstroke was satisfactorily tested by the British troops during the Sepoy rebellion.

☞ Extensive alterations and improvements are being made in the Marine Barracks at the Charlestown Navy Yard. Mr. James Janvrin, of this city, is the Master Carpenter.

WAMBOLD & CO.'S DOUBLE SHOW, circus and menagerie, will visit this city on Tuesday, May 28th, and give two exhibitions. It is represented as well calculated to please all, combining the fascinations of the circus, and the instruction afforded by the menagerie. Their show bills promise a lavish amount of entertainment, and there will be no lack of patrons.

☞ The city of Dover has voted to pay each unmarried volunteer from that place the sum of $9 per month additional to his regular pay, and if a mother is dependent upon his exertions, the sum of $6 a month shall be allowed her during the son's period of service. To married men enlisting, the same additional sum is allowed, together with $6 to the wife and $2 to each child per month, until such volunteer be discharged.

WASHINGTON REPORTS, &c.—By Wednesday evening's papers, we have these items. On Tuesday evening Lt. Bartlett's Naval Brigade was accepted by the President.

A secessionist named Gates discharged a musket into a crowd of soldiers, hitting Thomas H. Quincy, a clerk in the Interior Department, in the ankle. Gates was arrested. The soldiers were with difficulty restrained from hanging him on the spot.

Albert Pike is raising a large force of Choctaw and Cherokee Indians for the Confederate States.

The rebels at Harper's Ferry have stopped all transit of flour and coal over the Chesapeake and Ohio Canal.

An attack on Fort Pickens is hourly expected—the rebels being reinforced, fortified, and furnished with heavy cannon.

It appears that the rebel troops, having little hope of taking or burning Washington, are intending to invade Pennsylvania, via Virginia.

Rebel troops are in motion from all their States, towards Virginia.

A letter from on board steamer Mount Vernon, May 20, confirms the report of the sea fight near the mouth of the Chesapeake, between the Baltimore, with 20 men, and a rebel vessel with 100. Three of the Baltimore's men were killed. She was aground when attacked. The Mount Vernon helped her off.

WASHINGTON, May 22. — The N. H. Regiment which has been ordered here is to take the place of one now here, which is to be ordered South.

The President raised the U. S. flag on the Post Office Department at noon to-day.

A vessel from Fort Monroe says there was no attempt by the rebels yesterday to rebuild the Sewall Point battery.

Gen. Lee, commander of the rebel forces in Virginia, is ordered to Norfolk—probably in anticipation of hot work there.

A new system of telegraph signals for the navy and the blockading fleet has been adopted.

☞ The common statement that the wife of Jefferson Davis is the daughter of General Zachary Taylor, is untrue. The first wife of Mr. Davis was General Taylor's daughter—a noble woman, who has been in her grave for many years. His present wife is the daughter of a prominent citizen in New Orleans, but originally from the North.

LOT'S WIFE.—Those who enlisted for three months and are called for to enlist during the war, had better think of the fate of Lot's wife, before refusing to enlist for the latter period. Their patriotism and bravery will ever after be doubted, if they should refuse, and it will constantly be thrown into their faces that they held out a larger banner than they could carry. If they should refuse now, after their heroism has been so much lauded, and after our people have labored so zealously in their behalf, they will often find themselves in positions before society when they will wish they were "*pillars of salt*."—*Mirror.*

☞ Jeff. Davis's Postmaster General gives notice that he will begin to carry the mails of the Southern States on the first of June. For practice he might begin now with the mail from Baltimore to Norfolk, which government has discontinued. The story that commissioners from Havana have visited Montgomery, is denied.

☞ The editor of the Manchester Union Democrat announces that Hon. Walter Harriman will hereafter be associated with him in the management of that paper.

ST. LOUIS is now environed by military posts, extending from the river below the arsenal around the western outskirts, to the river on the North. Their object is to prevent hostile troops and munitions of war from entering the city, to protect the public peace and give security to every orderly citizen. The encampments are under Cols. Blair, Boernstein and Sigel.—Twenty-seven have died of wounds received at Camp Jackson and eight from the Walnut street affray.

GENEROUS.—The South Boston Iron Company have notified the widow of Thomas Grady, who was killed by the discharge of a cannon at their flag raising, to call every week and receive his usual wages, until further notice.

☞ Charles H. Upton, a prominent citizen of Eastern Virginia, announces himself a candidate for the Federal Congress from the Seventh District. He calls upon the Union men to open the polls in spite of the acts of usurpation of the Richmond Convention.

☞ Maxim Guyon, for an attempt to commit highway robbery, has been sentenced at Manchester to the State Prison for nine years.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay. Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man makes a provision for those whom he loveth, against the liability to accident and death.

THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like that of *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST DYE IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered, and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms often give the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed. In health again, they stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opponents of the disease, to take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cases hopeless in similar distortions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR REID. AYER: I cannot answer you *what* complaints I have cured with your Pills better than to say *all that we cure treat with a purgative medicine.* I place great dependence on an efficacious cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1856.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, a comparatively very small quantity they are an admirable remedy for derangements of that organ. Indeed, I have seldom failed with a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Hines, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in Boston. For the purpose to regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the *foulest of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Pneumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they will join me in proclaiming it for the benefit of the multitudes who suffer from this complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe cutaneous originates in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sturat, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, with excellent productives of the natural sense tion when wholly or partially suppressed, and also very efficacious to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which resisted all ordinary remedies. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years.

VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous as a public pill, from the dreadful cases of Salivation that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

15 Greatest Medical Circular Ever Published! 15

☞ "Fifteen" on large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Propriators of the **National Dispensary,** No. 167 Sycamore street, Cincinnati, established Jan. 1, 1850, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity. Gonorrhœa, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions.* In short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement is required.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, three cent stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings, price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—send for Circular.

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 9 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guaranties of our ability and good faith promptly given when desired. Fees as reasonable as the very highest price of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 426. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for family use and invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy,"

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing six dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever.—Persons who require *Pure Liquors and Wines,* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Country orders by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

☞ The Missouri Republican, a "half-and-half" sheet, with proclivities heretofore toward secession, says there is no mistaking the purport of Gen. Harney's proclamation. It says:

"The State of Missouri is so enfiladed and controlled by the militia forces levied by the U. S. Government, that it would be worse than madness to think of opposing them with any expectation of success."

The Republican advises the people of the State to dismiss their fears, and in conclusion says:

"Let there be peace all over the State for a month or two, and it cannot be otherwise than that it will be perpetual."

SLAVES IN NORTH CAROLINA.—They have a singular way of testifying their confidence in slaves in North Carolina, as shown by the writer of a private letter, as follows:

"It may be supposed that we have a sharp eye on the black population at this time. So far, they appear to be orderly and loyal. In Wilkes, about a week since, one morning, a negro was found dead, suspended by the neck from a tree. Such is the report. Two or three nights since, a slave belonging to one of the celebrated Siamese Twins, who live in our neighboring county of Surry, being challenged by the patrol, showed signs of hostility, when he was immediately shot dead."

RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, taking the system throughout the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound. I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Merrimac St., Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 59 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles P. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEFEBRE writes from Navarre, Stark Co., Ohio: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite. It relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1861. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, "in section where fever and ague prevails, I feel in duty bound to bear testimony to the decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O., "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by Dr. C. F. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the one to use the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound; nothing as it by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and to prevent gray hair to its original color, leaving it soft, smooth and flexible. The ONGUENT is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

FRIDAY, MAY 24, 1861.

ANOTHER ABOLITIONIST.—This is no less than the editor of the Boston Post.—That paper says:

A *gentleman* at Baltimore has sent to us a copy of the "Exchange" newspaper, with the following dedication—"To the editor of the Boston Post, or any other smooth-faced, hypocritical, lying, ill-begotten abolitionist in Boston." As this is the first time we ever saw it intimated that we were an "abolitionist," we copy the charge as a novelty.

Truly, it is a novelty to any one who knows the editor of the Post. But then, it is very plain that the Slave Power is making war on the United States, to break up the Union, because it cannot rule it. The Slave Power seized forts, stole money, raised rebellion, and menaced the Capital and the Government.

At the call for aid to resist the invasion, quell the rebellion, sustain the Government and preserve the Union, the people of the free States quit their stores and shops and fields, arm themselves, and go out to fight!—but to fight what? Not the South—but the Slave Power. There is *no other power* that makes the war! Nobody fears any great defection or sees many traitors in any free State; and what there are, are well known as intensely *pro-slavery* men.

The Boston Post has sustained the defensive war movement, and held up the hands of the executive in its vigorous measures, with a zeal, ability and discretion, not excelled, as we think, by any paper in the country.

Its editors have neither avowed nor betrayed any change of views in regard to the right or wrong of slavery, so far as we have seen, nor to the political policy in relation to it.

But inasmuch as they do sustain the policy of *resistance* to the war made by the Slave Power—the minions of that power count them in among *Abolitionists*,—as they say every man who is not *for slavery*, and for their rebellion and King Cotton, which means slavery,—must be against it.

☞ The Manchester American states that on Sunday evening a young gentleman rushed into an apothecary shop, his eyes in awful frenzy rolling, and resolutely called for *Laudanum*. The clerk immediately saw visions of gasping men and frantic women, in the extreme moments of suicidal agony, and gave him—Tincture of Rhubarb! The purchaser took the vial and approached the door, when suddenly turning about he swallowed the draught, exclaiming, "tell my father I am a dead man." The American assigns no reason for the "sad act," but the young man will live long enough, probably, to explain it.

TROUT.—Three gentlemen, one day last week, caught in the vicinity of the White Mountains, two hundred and sixty pounds of brook trout—amounting in dry measure to two and a half bushels. The trout, varying from a biteable size to a pound and a half in weight, were caught with hook and line, and the operation is pronounced by those posted in such matters, to be one that never has been outdone and cannot be.

☞ Advices from San Francisco to the 11th inst. have been received. The idea of a Pacific Republic finds no favor with the loyal people of California and Oregon. They are almost unanimously in favor of aiding the Government to suppress rebellion and maintain the honor of the flag.

☞ The London Times, in an article discussing English mediation, observes that "the mediation of England might as well be offered to a hurricane in the Gulf of Mexico as to the States of America."

☞ Rev. S. H. Amsden, late pastor of the Baptist church in Danbury, received license to preach as a Congregationalist, from the Hopkinton Association at its regular meeting in Wilmot, last week.

☞ We learn from the Independent Democrat that Benj. F. Prescott, Esq., is to be associated with Amos Hadley, Esq., in the editorial management of that paper during the absence of Mr. Fogg.

☞ Morrison Harris lost the nomination in the Third Congressional District of Maryland, because he would not pledge himself to give his unqualified support to the Government. Mr. Seavy was nominated in his place. He is a strong Union man.

Dosticks (Mortimer Thompson) is an officer in the New York 7th Regiment, and it is said he expects to meet his old friend Dampbod in the secession army.—*Bath Times.*

WASHINGTON CORRESPONDENCE

WASHINGTON, D. C., May 19.

Let us all put faith in Gen. Scott, and God grant us, many years in the future, his counsels to guide and his actions to follow. Are we not all willing to risk the tactician, Scott, against such men as Gen. Beauregard (who is possibly dead,) and Jeff. Davis, Esq., (who soon will be)? True these men are both smart; none are better able to judge than those who have associated with them here in the past few years,—but even their friends would no sooner think of comparing them to our Commander-in-chief than we would the meadow streamlet to the mountain torrent rushing down the steepest declivity with irresistible impetuosity. Gen. Scott is each day overweighted with cares, and is evidently maturing plans which, like the web of the cunning spider round the giddy fly, will slowly environ his victim, till at last they close upon and smother him.

We made a short visit to the camp of the 71st Regt. N. Y. S. M., which has been assigned the "post of honor" at the Navy Yard. The men are quartered in the barracks, the lawn covered with stacks of arms, and sentinels posted at every accessible point. This place, from the immense amount of ammunition it contains, and its manufacturing department, is a very important one, and it is a great compliment to the 71st, that it was selected for its defence. This regiment is composed entirely of Americans, and the three hundred recruits enlisted in New York are now in excellent discipline.

While the New York 7th is still regarded as the crack regiment, the 71st is daily receiving many encomiums from strict military men for their soldierlike bearing and great powers of endurance.

The 7th is quartered on Georgetown Heights; the 12th in rough cabins on Franklin Square, and Gen. Dan. E. Sickles' brigade of 5000, all from New York, marched to the position assigned them yesterday.

The appearance which the Capital wears to-day is one without parallel in the history of the country;—New York is enthusiastic, excited, and resounds with the notes of preparation from dawn till midnight, but here all that is intensified, and every one is imbued with that deep, determined spirit which ever characterizes the patriot and the soldier in the hours of danger and expectancy.

From the top of Capitol Hill, the eye embraces the whole scene and receives the grandest impression of the military occupation. The broad Pennsylvania Avenue, from the square beneath us to the distant white pillars of the President's mansion, is filled with regiments in review, looking, from our high elevation, like automata in motion, and beyond the city, north, west and east, we can see the snow-white tents of the camps on the suburban hills, gleaming in beautiful contrast to the dark green of the cedar groves which embower them.

As we reflect on the horrid din of war which is to succeed the martial preparation, we feel almost prompted to repeat the words of "Lochiel's warning" with our face southward, that perchance the voice might be wafted by the breeze to the ears of those desperate rebels whose lines are but a few leagues behind yon rugged mountains.

It would be but an absurdity to attempt to draw the plans of the government. Military campaigns are not published in advance, and it is impossible to go beyond conjecture. Present appearances favor the probability that three advances will be made into Virginia—one on Harper's Ferry, another to cut off that post from the interior of the State, and a third, depending on the similar subsequent direction of the others, from Fort Monroe inland. But we must write "conclusion" on our sheet, or you'll consider this a *capital* offence upon your columns. Should opportunity offer we will write you again while here; if not, on our return to New York you'll hear more from NEWINGTON.

WASHINGTON, May 22.—A Raleigh (N. C.) dispatch, dated yesterday in the Richmond Enquirer, says:—The "Convention was duly organized to-day, and an ordinance of secession agreed to unanimously. The bells were rung and a salute of 100 guns was fired."

A dispatch in the same paper from Norfolk, states that about 3000 troops were concentrated at Sewall's Point on the night of the 19th, but the Yankee mercenaries did not return as was apprehended.

The steamer West Point, with a flag of truce, visited the Federal fleet for the purpose of carrying to them women and children desirous of joining their northern friends. Capt. Hunter, of the Virginia Navy, who accompanied them, reported that the Monticello suffered badly in her engagement with the battery off Sewall's Point. She was seriously damaged, and six men were killed on board and several wounded. This is *news* at Washington.

☞ Mr. H. P. Tuttle, of the Harvard Observatory, recently discovered the 66th Asteroid known to exist between the orbits of Mars and Jupiter. Mr. Tuttle, as the discoverer, is entitled to name it, limiting himself to the names of the divinities of the Grecian mythology; but he has invited the venerable Josiah Quincy, late President of the University, to select a name.

WASHINGTON, May 22.—Spain denies that the seizure of San Domingo was in consequence of orders from or with the knowledge of her Government, but wishes for time and further information before deciding what to do with it. It is not known what England, France or the United States will say on the subject.

The privateer question may be disposed of summarily. It is now understood that this Government several weeks ago assented to the treaty of Paris, abolishing privateering.

The attitude of the Government is known to be firm in all its foreign relations, insisting on all its rights, but is courteous and friendly towards all other powers. The Foreign Ministers here are satisfied with the imposing demonstrations of the loyalty of the people to the Union.

The new Minister from Chili presented his credentials to-day, and made a speech, assuring the government of the cordial sympathy & respect of the government of Chili, saying that any harm befalling the United States would be equally disastrous to Chili.

The Navy Department is about to invite proposals for building the steam machinery for a number of screw gunboats, to be of back horizontal engines.

Reliable information states that the tomb of Washington has not been desecrated.

NEW YORK, May 22.—Mr. Bailey, member of Congress from Massachusetts, has arrived from Florida, via Savannah, Nashville, and Louisville. His party numbered thirty, including six Northern schoolmistresses, several invalids and two army lieutenants. They were subject to many annoyances on the route, except Mr. Bailey, whose illness proected him.

Mr. Bailey reports that soldiers were in motion everywhere towards Virginia, well disciplined, armed and equipped. At Chattanooga there were two or three thousand men.

The Washington dispatch to the Express says there are now 32 strong regiments under arms in that city, including two of regulars. Gen. Scott wants 60,000 men along the banks of the Ohio and Mississippi, which precludes the idea that any very large force is coming to Harper's Ferry from the West at present. The Government does not seem to care much about that point. The 2d regiment of regulars in Minnesota; 10 companies of dragoons, artillery and infantry in Utah, the 5th and 7th regiments of infantry in New Mexico, and part of the 10th regiment also there, are all ordered to Washington. Minnesota will be guarded by the 1st regiment of Minnesota volunteers, and New Mexico by two regiments of volunteers raised by the Governor.

Seven boxes containing paper and baggage for Gen. Lee were seized to-day en route via this city from Texas to Virginia.

A quantity of contraband goods shipped by the New Haven Arms Company to O. F. Winchester, was also seized to-day.

Prize Commissioners will be appointde to morrow by the U. S. Circuit Court to dispose of all cases of seizure of vessels.

Capt. Miller, who came here with Col. Yosburg's remains, says the whole story about an attack on the steamer Baltimore is a fabrication. He left Lieut. Denice, one of those reported killed, at Washington, yesterday.

A special dispatch from Baltimore to the Herald states that fifteen steamers besides the Minnesota are off Fortress Monroe.

In the recent engagement off Sewall's Point five shots struck the Monticello, one penetrating below the water line. Several steamers were fired into from the Virginia batteries on Monday and Tuesday, but the fire was not returned.

☞ By Thursday evening's mails, we have these items from Washington:—

The President declared to prominent gentlemen to-day that there would be no invasion of rebel States before autumn.

Gen. Butler, before leaving Washington, remarked that he would be in Richmond within a few days.

There were 2000 rebel troops at Alexandria Thursday.

There are 4000 troops at Harper's Ferry, but are badly armed.

Northwestern Virginia will form a State embracing 60 counties, in which the Union feeling is nearly unanimous.

The government hourly expects the commencement of hostilities at Fort Pickens.

Washington dispatches state that the garrison at Alexandria yesterday voted for secession—133 against 2.

The majority of rebel troops within fifty miles of Washington have refused to take the oath of hostility to the United States. Many of the troops at Harper's Ferry have also refused to take the oath of hostility to the Federal Government.

☞ Advices from Europe inform us that Prussia and Austria have declared unequivocally in favor of the policy of the United States government. Warning has been given to Spain that if she ventures to accept the artful proffer of Dominica, she will do so at her peril.

☞ There is now a great want of medical officers in the U. S. Navy, there being no less than forty vacancies. To fill these, a Board of Examiners have been ordered to meet in New York on the 1st of June, to examine candidates for admission.

☞ We learn that the dwelling-house of Mr. W. E. Chesley, in Rye, was entered one night this week, and over $900 in money stolen from the desk. Some other money escaped the notice of the thief.

☞ Col. Fremont has tendered his services to the Government, and would leave Europe in the steamer of the 18th.

☞ Mr. Faulkner, late American Minister to France, has just emancipated a favorite negro slave.

MAN DROWNED.—Captain Jere Chase picked up a boat outside of our bar on Tuesday afternoon, which was taken from Patch's wharf by a person unknown, about 40 years old, who was last seen going into the north breaker.—*Newburyport Herald.*

CAMP CONSTITUTION.—A correspondent of the Milford Republican, communicates to that paper a little incident, which occurred at one of the guard posts the other night, worth relating. One of the guard, on being mounted and receiving the countersign, took up his beat with a soldierly tread, as though the welfare of the nation depended on the vigilant performance of his duty.

One of the boys, returning to camp from a little "bender," expecting he must run guard in order to get to his quarters, was challenged in the following manner by the invincible guard:—

Guard—"Halt! who comes there?"

Soldier—"Friend."

Guard—"Advance then and say "*Hamilton!*"

The soldier said "Hamilton."

He also states that "Lieut. Webber informed him that the notorious Jeff. Davis visited the fort last summer, and took accurate drawings of it, together with the harbor, Navy Yard, lights, and surroundings. He was also very intimate with the best pilot of the harbor during his stay here, and no one at the Navy Yard or fort could ascertain for what purpose he wanted such an accurate drawing of the harbor. About two weeks ago the pilot alluded to, mysteriously disappeared, and many fear he has gone out to repay Jeff.'s visit."

☞ The Rev. T. H. Miller is to preach at Nottingham on Sunday, June 2, being the *First* Sabbath in the month.

REAL ESTATE IN NEW CASTLE

FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c, are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord who can keep a hotel, a handsome remuneration for a very small outlay.

Apply to THOMAS L. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

STRONG TESTIMONY.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine *Hair Dressing*, and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it to be a merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which succeed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a medical agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great inability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 daw3m

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen' Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our Merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

STEAMER ... CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"In the midst of Life we are in Death."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issue

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually,* or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands have testified who have tried it and testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

ARMY HYMN.

BY OLIVER WENDELL HOLMES.

"Old Hundred."

O Lord of Hosts! Almighty King!
Behold the sacrifice we bring!
To every arm Thy strength impart!
Thy spirit shed through every heart!

Wake in our breasts the living fires,
The holy faith that warmed our sires;
Thy hand hath made our Nation free;
To die for her is serving Thee.

Be Thou a pillared flame to show
The midnight snare, the silent foe;
And when the battle thunders loud,
Still guide us in its moving cloud.

God of all Nations! Sovereign Lord!
In thy dread name we draw the sword,
We lift the starry flag on high,
That fills with light our stormy sky.

From treason's rent, from murder's stain,
Guard Thou its folds till Peace shall reign:
Till fort and field, till shore and sea
Join our loud anthem, PRAISE TO THEE!

☞ The somewhat noted Whitehouse' radiated for passing counterfeit money, escaped from the upper room of the Nashua City Hall—going out of the window and down the lightning rod or water spout, nobody knows in exactly what manner. He was in irons at the time, and must have exercised considerable ingenuity in the performance of the feat.

☞ One of the village sewing circles in Littleton, N. H., has appropriated $60 from their treasury to purchase books for the nucleus of a town library.

15 Greatest Medical Circular Ever Published! 15

☞ Fifteen ☜ large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the National Dispensary, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof. Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore Street, from 9 A. M. to 1 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 426. Send for Circular, and state your case ☞ plainly and fully;—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception, it is of *vital importance* to those requiring it for Family use and invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often recommended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable ratios, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pints and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and wine agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for Private Use; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever.—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen years, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 8 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum. His hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 39 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEFEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction to those them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Tenn., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLAHER, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."
Sold by all Druggists.
Sole Agents for the Sherry Wine Bitters.
Full Directions Accompany Each Bottle.
Sold by dealers in medicine generally.

DO YOU WANT WHISKERS
DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world renowned article.
THE STIMULATING ONGUENT
is prepared by Dr. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

SATURDAY, MAY 25, 1861.

CAVOUR NO MATCH FOR THE CHURCH. The Pilot contains a severe article on Count Cavour, as a Protestant and Calvinist, desirous to strip the Pope of all temporal power. The Pilot says:

Back the Calvinist as you will, he is no match, throughout the game, for the Eternal Church. The difference between them is that which is between God and man.—Unutterably contemptible is Cavour, the Calvinist, near the Church, everlasting. His day will soon close; but the Church grows young by age, and will never die.—The Church has two places for the vindication of its rights: this world and the next. The Calvinist may triumph against it *here*, but when death chokes and flings him naked into the ocean of eternity, he can't do much against the Church, which is the mistress of that *fearful deep*; and nothing is more certain than that it will not suffer him, a blasphemous, sacrilegious, incendiary heretic, to triumph long over truth and right, either in Rome or in Naples, or in Sardinia. All the Calvinists that ever lived are no match for the Church of the Catholics.

The Count might tremble, if he believed the Roman Church had dominion over the fearful deep!—but as a Calvinist, he probably does not believe a syllable of it; and if he can triumph *here*, he will take the risk of the other place.

☞ The Anti-Tobacco Journal for May and June, 1861, contains the following articles:—Dr. John C. Warren on the pernicious effects of Tobacco; The Discovery of Tobacco; Maize and Tobacco, by L. H. S., Hartford, Conn.; A Christian Triumph over Tobacco; Appeal to Wives, Mothers and Sisters; Rev. Dr. Justin Edwards on Tobacco and Strong Drink; Testimony of Professional Men; To Rev. Dominie Spittle; Touch of Humor from Father Aixley; Life Assurance Companies and Tobacco; How Ladies South and West take snuff; A Farmer's Testimony; The Street Smoker; The Pet Skunk; General Correspondence; Boys' Department.

THE WAR.—The Washington correspondent of the Tribune says:

There is no ground for supposing that there is to be an immediate aggressive movement. "Immediate" and "very soon" mean, in military phraseology, something slower than they do in common language. Those expecting forays on detached points, where success would amount to little, and failure be disastrous, are likely to be disappointed. Senators and others urging this policy would substitute a guerilla warfare for a decisive campaign. Gen. Scott boasted in Mexico that he never made a countermarch. He will move from several sides with a number of columns upon Virginia,—postponing aggressive operations until they can be made on such a scale as to render resistance hopeless.

Meantime, the troops in Washington are improving daily. Wagons and ambulances are preparing. Jeff. Davis may hasten the battle by moving towards Arlington Heights. His advance will be known early, and measures are complete to take possession of the Heights by the forces here at a moment's warning. Although the plan of the campaign is undoubtedly this, no movements threatening positions or obstructing routes will be permitted. Hence the attack on Sewell's Point battery.

SLAVE TRADERS RELEASED AT NORFOLK.—The four New Bedford sailors who started out on a whaling voyage, and took on a cargo of negroes from the coast of Africa, have been discharged by the Mayor of Norfolk. They call themselves by the following names: John Walker, Jerome Coleman, John Foy, and Geo. Fules. It was held that they had committed no offence against *Virginia*, and hence their discharge.

PARDONED.—Miss Letitia Blaisdell, who twelve years ago was sentenced to the N. H. State Prison for life, for poisoning a family in Goffstown, has been granted a pardon by the executive authority of the State, and has left the prison. Her deportment during the confinement has been unexceptionable, and as she left she manifested deep feeling.

☞ The Rhode Island boys are in clover. A letter from Washington mentions that Governor Sprague occasionally distributes several dollars to each of his men,—and it is said that $100,000 was set aside by his mother to supply any wants of the regiment.

☞ The publishers of the Concord Statesman, the Independent Democrat and Patriot, will issue daily papers during the session of the Legislature, as usual. Terms, 25 cents for the session.

☞ It is stated that another London Times' correspondent, Mr. Woods, is coming to assist Mr. Russell in his epistolary labors. The assistance is needed.

☞ The first New Hampshire Regiment of Volunteers leaves Concord this (Saturday) morning, at 8 o'clock, by a special train, and will proceed directly to New York by the way of Nashua and Worcester. Quite a number of prominent citizens of Concord and Manchester will accompany the troops as far as New York, and some will proceed as far as Washington.

The loyal citizens of Manchester propose to fire a salute on the passage of the regiment through that city, and it is suggested by the American that it would be proper and patriotic to make a still more public demonstration. The operatives in the mills will be at leisure, and it would be an easy matter to turn out a crowd of several thousand.

The regiment is in excellent order, and will make a grand display *en route* to its destination. It is not only well equipped, but its tents and teams are all that can well be desired. The baggage wagons are fifteen in number, exclusive of the hospital coach, and there are sixty-two horses, both valuable and well trained.

Every friend of every member of the 1st Regiment may rest assured that all is precisely right in the hospital department, as the very best medical and surgical talent is there, and careful men in all its departments. It is doubtful whether any regiment in the service of the country can boast of a better medical department than is the one furnished to our own regiment; and this fact, communicated to friends of those most interested in this matter, cannot be read with indifference.

MACHINERY AT CHARLESTOWN TAMPERED WITH.—The United States steam frigate Mississippi, which left Charlestown on Thursday, under sealed orders, had steamed only a few miles down the harbor, when one of the delivery pipes of the engine burst. An examination revealed the fact that a joint of *gun and canvas had been substituted in place of iron*, by some secession scoundrel to whom the repair of the machinery had been intrusted. The suspected individual is Mr. Michael Quinn, who had the superintendence of the repairs, and who lately upon receiving the appointment of chief engineer on board of one of the war frigates at Charlestown Navy Yard, refused to take the oath of allegiance, and left for Virginia, where his eminent traits will doubtless be appreciated if not rewarded.

The Mississippi was obliged to return to the Navy Yard. In weighing anchor near Nix's Mate, the chain parted, and a cathead anchor weighing 6000 lbs. was lost.

☞ Every American lover of Art will learn with sorrow of the death of Paul Akers, sculptor, whose "Pearl Diver" alone has rendered him famous. He was a native of Hollis, Maine; had twice visited Rome, in order that he might perfect himself in his chosen art by the study of the great master-pieces which draw all men of genius irresistibly towards them; and returned recently to this country on account of his failing health. For a few months past he has resided in Philadelphia, and the readers of the Atlantic Monthly have occasionally been favored with articles from his pen, upon "Our Artists in Italy." But his constitution had become undermined and in that city, on the 21st of May, he died.

ST. LOUIS, May 23.—Ex-Governor Black of Nebraska, reports considerable apprehension in that territory of Indian hostilities during the coming summer.

The Sioux and Cheyennes have joined to wage war against the Pawnees, which will involve the whites, as the latter are principally within the settlements.

HARRISBURG, Pa., May 23.—So far as ascertained, the Virginians at Williamsport have not yet attempted to cross to the Maryland side. They were reinforced last night by a company of cavalry and six pieces of artillery will positively arrive tonight.

The battery of flying artillery is to return to Chambersburg immediately.

☞ A probably truthful story of one of Ben Butler's shrewd professional freaks is told by a young factory girl, formerly employed in one of the Lowell mills. She had been discharged, and the corporation refusing to pay her, she sought legal redress, and retained Mr. Butler as her counsel. He listened to her case with much interest, and afterwards consulted the representative of the corporation, who still refused to pay the girl her wages. Butler then issued a writ, and attached the main water wheel of the establishment, and by bringing the whole manufactory to a stop, the corporation, rather than allow their mills to remain idle and await the law's delay, paid the girl her wages and resumed operations.

☞ The Portland Courier states that a "medical gentleman has expressed it as his opinion that the measles is not in the First Maine Regiment, after all the fuss; and that the eruptions which have been taken for that disease, are but the effects of a change of diet, and other physical habits induced by camp life."

NEW YORK, May 23.—Fifty-two thousand dollars worth of bank notes, for the Whitefield Bank, Dalton, Ga., were seized to-day.

Advices from Missouri state that the Legislature, before adjournment, provided for the payment of the interest on State bonds, due in June.

The ship John Jarvis of Boston was captured by a New Orleans privateer at Belize, a week since.

A Washington dispatch to the Post says it is rumored that the New York Fire Zouaves have received orders to occupy Arlington Heights. This movement is supposed to have some reference to operations on the Virginia rebels.

The Michigan regiment has been ordered to be ready to march at any moment, with two days' provisions.

A dispatch to the Tribune says that a prominent citizen from Petersburg, of northern birth, has arrived there, and states that probably there is but one man there who dare vote against the secession ordinance, viz., Frank R. Rivers, ex-member of Congress, who is determined to cast his vote for the Union, although it is probably the last vote he will ever cast there.

Our informant has no doubt that 700 votes would be cast for the Union if any protection could be afforded. The city is controlled by men with arms in their hands.

Three hundred North Carolina troops arrived there on Monday, and went to Richmond; seven hundred more were expected the next day. They complain bitterly of having to leave their own State, saying they enlisted to defend North Carolina only.

R. R. Coyley of Petersburg, aid to General Gwynn, was wounded in Sewall's Point engagement. Nobody was killed.

NEW YORK, May 23.—A slight fire occurred this morning in the office of the Surveyor of the Port. Probably accidental, but there are rumors that it was the work of an incendiary, with the design to destroy the documents there.

The Presidents of about twenty of our banks held a meeting to-day in reference to the government loans to be awarded on Saturday. About three millions or so will probably be made up at about 86. The ultimate disposition of the greater part of the loan will undoubtedly be in Treasury notes at par.

FRANKFORT, Ky., May 23.—The House concurred in the Senate bill reorganizing the militia and appropriating one million and sixty thousand dollars for arming the State. In the Senate, to-day, a resolution was offered that in order to advise the next Legislature of the popular will, the question of secession be acted upon by the people on the first Monday in August. Laid over until to-morrow.

The Legislature adjourns to-morrow.

☞ We learn from Havana that steamtug Wm. H. Webb, which was seized some time since by the rebel authorities while attempting to supply Fort Pickens, and has since been used no doubt for privateering purposes, was refused clearance by the United States Consul General of Cuba.—She was, however, immediately purchased by some British residents there, and sailed under the English flag.

CHAMBERSBURG, May 23.—Last night a party of Virginians attempted to capture a ferry boat on the Potomac, near Clear Spring, Md. Notice was given to the Union men three miles distant, who turned out to guard the boat during the night. The Virginians seized the boat, were fired into by the guard, and had to abandon it, and make their escape in a skiff. Two of the Virginians were shot. The ferry boat was returned to the Maryland shore. No reinforcements have reached Williamsport.

NORFOLK, May 23.—A dispatch of Tuesday, in the Petersburg Express, states that the tug-boat Yankee opened fire again that morning on the batteries at Sewall's Point. The fire was returned and the steamer retired. This afternoon she again returned and opened fire, and there was heavy cannonading for some time, when the steamer retired to the mouth of James River.

WHEELING, Va., May 23.—In this city to-day there were 2395 votes against the ordinance, and 89 for it. Nothing reliable has been heard to night from the western counties.

WASHINGTON, May 23.—The Charleston Courier of Tuesday says Lieut. Pelot of the steamer Lady Davis boarded ship A. B. Thompson ten miles from Port Royal, bound from Savannah to New York. She arrived at Savannah from Antwerp, clearing immediately for New York. Lieut. Pelot found her papers only vouched by the Deputy Clerk at Savannah, and took the ship into custody, detaining her at Port Royal.

A letter from New Orleans 16th to a mercantile house in Charleston says the Ocean Eagle, captured by the Calhoun, is of 600 tons burthen, built at Medford, Mass., and valued at $20,000.

☞ Hon. Benjamin Thomas was nominated at Dedham, Thursday, as a candidate for Congress to fill the vacancy created by the departure of Hon. Chas. Francis Adams for another post of public duty. The Convention was composed of members of all parties, and the nomination was unanimous.

☞ Four boys, who enlisted at Keene, and deserted after coming to Camp Constitution, have been arrested at Keene and examined on a charge of breaking and entering a gun-shop there, with intent to steal. They were ordered to give bonds in the sum of $300 each, to answer further at the Supreme Court in October, and in default thereof were committed to jail.

☞ A young child of W. W. Dow of Dover, while playing with a large watch-dog, was seized by him, and injured severely. The wounds are not fatal. The dog was immediately killed.

BALTIMORE, May 23.—Steamer Adelaide, from Old Point, reports that Gen. Butler and staff arrived at Fortress Monroe yesterday at 5 o'clock. They were received with the customary honors. In the evening there was a grand review of the troops, the line (four thousand men) stretching clear across the parade ground of the fortress. It was a magnificent spectacle. There is great enthusiasm among the men.

It was understood at the fortress that the Minnesota would attack Sewall's Point Battery to-day, whilst an efficient land force was to be sent in small tugs from the fortress, who were to effect a landing, and capture at all hazards the large number of vessels and prizes detained at Old Point, so many that a captain of a Norfolk Line says that he finds great difficulty now in effecting a landing.

The British ship Albion, bound for Baltimore, with 800 tons of railroad iron, has gone ashore near Cape Henry. She will be a total loss, except 40 tons of iron. The Virginians having removed the Cape Henry Light, and built a fire on the beach some half a mile away, deceived the captain, thus causing the disaster.

☞ John M. Brackett, Esq., has been appointed Postmaster at Wolfboro', vice E. D. Barker.

EDWARD B. GOODALL,

DENTIST,

NO. 60 CONGRESS STREET, PORTSMOUTH.

DR. GOODALL, having purchased the extensive Dental Establishment of DR. FRANK FULLER, announces to the citizens of Portsmouth and vicinity, that he is confident that he can give perfect satisfaction in all operations in Dentistry. Having become thoroughly acquainted with Dr. Fuller's method of practice, and having operated for a large number of Dr. Fuller's patrons, he respectfully solicits their further patronage.

He refers the public to the following testimonial from Dr. Fuller:

"I take pleasure in recommending Dr. E. B. Goodall as my successor in business, and can cheerfully recommend him to the public as a skillful operator and an honorable man, whose gentlemanly bearing cannot fail to surround him with friends, and whose professional qualifications will ensure him success.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I make in time of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They also relieve the Cough and other symptoms, and entirely remove that unmerciful irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb23 dawSm

Local.

☞ It would be well for our citizens generally to keep the front doors of their houses securely fastened at all times, as a large number of stragglers are in town at the present time; many houses have been entered recently, and, in some cases, clothing has been stolen. The presence of the Volunteers has called hither many of those land sharks whose souls are too small to prompt them to any more patriotic deeds than preying upon their country's defenders; and as the Volunteer companies are composed of men too sensible to fall an easy prey, these fellows are compelled to become sneak thieves and petty pilferers.

THE ROBBERY AT RYE.—As our readers will see, by referring to our advertising columns, the Messrs. Chesley, of Rye, have offered the liberal reward of four hundred dollars for the recovery of the money stolen from them last week, and the detection and conviction of the thief. We mentioned briefly, in the Chronicle of Friday morning, the fact of the robbery; we have since learned that the money had been placed in a large leather wallet, which for safe keeping had been deposited in their private desk. Some one, by making use of a false key, opened this desk and carried off the money, leaving another wallet containing notes, &c., payable to Messrs. Chesley, which was lying very near it. The whole amount taken was nine hundred and thirty-seven dollars,—two hundred and fifty of this sum being in fifty dollar bills. It is not known definitely on what night the money was taken, as the owners have had no occasion to use it for a week past, and had not the slightest suspicion that it would or could be stolen. It appears quite probable that the robbery was committed by some one who was well acquainted with the premises and knew of the fact that the money was in their possession, and where it was placed. We trust the offender will soon be detected and brought to punishment.

☞ The ladies of this city are making Havelocks for the entire Second Regiment. They are actively at work, and one hundred and fifty were made on Thursday.

☞ The Dover Daily Union says the 3d Company of Dover Volunteers will leave that city for Portsmouth this morning.

ALEXANDRIA TAKEN.

COL. ELLSWORTH MURDERED.

WASHINGTON, May 24.—A movement of U. S. troops on Alexandria was fully arranged yesterday, five regiments receiving orders for a movement toward that city, simultaneously with Ellsworth's Zouaves crossing the river in boats, while the New York 69th made a detour by land.

The city was quietly taken possession of, the stars and siripes raised, and the secession flags pulled down.

While Col. Ellsworth had the secession flag belonging to the Marshal House wrapped around him, he was shot by the proprietor, named Jackson, who was instantly killed by a private Zouave.

This was the only fatality that attended the capture of the city.

Col. Ellsworth is laid out in this city, this morning, and general gloom prevails through the town.

A terrible spirit of revenge pervades the Zouaves, and it is thought that the whole city of Alexandria will be laid in ashes as soon as the women and children can be got out.

Advices from Fort Monroe state that an attack on Sewell's Point battery will take place to-day, by land and water, simultaneously.

Gen. Butler was to land a force of 5000 men at Lynn Haven. Frigates Cumberland and Minnesota were to open on the battery; the troops landing under cover of the fire. The conflict it is believed will be a determined one.

The Michigan regiment captured a comrebel cavalry, outside of Alexandria, this morning.

The people of Alexandria are greatly frightened to-day, in view of the excitement among the Zouaves and other troops at the death of Col. Ellsworth.

When the U. S. troops reached Alexandria, the Virginia troops fired at them and fled.

A body of U. S. troops has advanced to Fairfax Court House, to take possession of the Orange and Alexandria and Manassas Gap Railroad, with the view of intercepting the advance of the Virginia troops toward Alexandria from Richmond and other points.

It is rumored that the Secretary of State to-day received dispatches to the effect that it is no longer in the power of the British government to recognize the code of the Paris Congress of 1856, denouncing privateering as piracy.

There are now a quarter of a million of men under arms who are in the pay of the United States. They will be all equipped by Saturday night.

Fighting may be expected now, all along the Virginia line.

From Boston Traveller Extra.

It appears that Col. Ellsworth had taken possession of Alexandria, and had gone into a hotel to get quarters for his men, when a rebel presented a rifle and shot him thro' the heart.

His men actually cut the assassin to pieces.

☞ There is much complaint in the newspapers in regard to the clothing and provisions of the Pennsylvania troops.

☞ The Keene Light Guard, under command of Capt. Barker, were paid off on Friday afternoon. They are attached to the Second N. H. Regiment, and, having leave of absence for a few days, they will start for home, this (Saturday) morning, going by the way of Boston. They number ninety men, and our friends in Boston may safely regard them as fair specimens of the stuff that N. H. soldiers are made of.

NEW YORK, May 23.—The steamer Keystone State has arrived from Fortress Monroe 22d, and reports that the British barque Heawallia, for Liverpool, with a cargo of tobacco, while attempting to run the blockade was seized, and a prize crew placed aboard her from the Minnesota. The Keystone State has nearly a hundred women and children, refugees from the South, besides transferring a large number to Baltimore on the steamer Georgiana.

WASHINGTON, May 23.—A letter from Virginia states that between fifty and sixty thousand men are under arms in that State, chiefly posted at Richmond, Norfolk and Harper's Ferry.

Private advices confirm the report of large arrivals of arms at the South from abroad, which were shipped from Europe early in April, consisting of over 200,000 muskets and rifles, and ample supplies of gunpowder, percussion caps and machinery to make the latter.

ST. LOUIS, May 23.—Steamer J. C. Swan was seized yesterday at Harlow's Landing, 30 miles below this city, and brought to the arsenal by order of General Lyon. This is the steamer that brought the arms from Baton Rouge, which were captured by General Lyon at Camp Jackson.

About 5000 pounds of lead, en route for the South, were seized yesterday at Oronton, on the Iron Mountain Railroad, by order of Gen. Lyon. Some resistance was offered by a party of citizens, and several shots fired on both sides, but nobody was hurt.

☞ New Orleans advices of May 17 and 18 mention three prizes sent in there by two privateers. All the privateers there are steamers.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen' Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our Merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine *Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.) for several weeks. My hair was in time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it is a merit that the Proprietors do not claim for it in their circulars. Respectfully yours,

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper river can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can *easily* provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 6 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was very thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the last three or four years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1820, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine sources which accomplish all they promise, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Bo'ton Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all who hate to be falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no the slightest attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '59.

WOOD:—*Dear Sir:*—I have hesitated more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has noticed it, leaving with me a few gray hairs to remain, in order to have my appearance comport with my age. My head is now free from trouble, and I do keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence as chemist, whose attention has been turned to inventing a hair tonic, has ever been searched. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached threescore, and he believed that the hair could be re-vitalized. He tried his own case—most bald and wholly gray at 37—he restored his own hair, and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for use with great care, it can be used on as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit and strengthen*; while age has lent to it a peculiar medicinal charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

(Established 1778.)

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.**, and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years been special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to address their orders to us direct, as we employ no travelling or other agents whatever.—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention; and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

THE U. S. STEAM FRIGATE MINNESOTA.—The following is an extract of a letter written by a seaman on board of the U. S. steam frigate Minnesota at Hampton Roads, May 15th:—

"We are going to Norfolk by the 4th of June, where we expect terrible slaughter. Our Commander says he will retake the Gosport Navy Yard if he has to sacrifice all of his men. There are fifteen ships of war here, and we expect fifteen more. We have taken twenty-five prizes, all loaded with powder and arms. The rebels have erected batteries for a distance of seven miles along the shore to the Navy Yard, and say if we attempt to go up the river they will blow us to pieces. Perhaps they will, but we are going to send 25,000 men ashore to attack them by land, while the vessels will attack them by sea, and, I tell you, we shall butcher them like hogs. It is awful hot here, but we are all in good health and spirits. We are working every night in raising sunken vessels, and it is hard work. At Norfolk flour is selling at $30 a barrel, and beef at 30 cents per pound. The people there are in a starving condition."

☞ A correspondent of the Boston Journal states that Manchester has furnished the following companies:

Abbott Guard, 78 men; Recruits, 135; Mechanics' Phalanx, 78—291. In addition to these, the Amoskeag Veterans have tendered their services, and a company of Kilfemens will leave this week, making the total number from Manchester to be about 475, or one to every 41 of the population.

Other companies are also forming, and if it were necessary, double that number would quickly be in readiness.

☞ Capt. Lee, of the U. S. navy, in command of the Vandalia, ordered to the East Indies, learning at the Cape of Good Hope that a rebel war had broken out, promptly decided to return home with his ship, where her services are wanted.—The Vandalia is at the Brooklyn navy yard, ready for work.

☞ In consequence of the position of affairs at Harper's Ferry, the Secretary of the Treasury has issued an order for provisions, freight, &c., to come over the Pennsylvania Central and Northern Central Railroads to Baltimore, and thence to Washington, instead of by the Baltimore and Ohio Railroad.

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—W. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 39 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief; I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1859.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPERRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountsville, Henry Co., Ind., writes us a long letter under date of May 3, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, in a section where fever and ague prevails, that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. R. CALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by Dr. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY HAIR, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

MONDAY, MAY 27, 1861.

WARS MOVING SLOWLY.

Some readers are very impatient because the press and the telegraph do not bring a daily supply of great fights, bloody battles, glorious victories, or decisive defeats and failures.—And some others wonder what government and the army and navy are doing, that every post is not occupied at once, and a campaign's work done up in a day.

But the fact is, the movement of a force of even ten thousand men over a short distance into the territory of an enemy, must be accompanied with a vast amount of preparation. To concentrate the active volunteer militia of a State, whose internal communication is more perfect and systematic than that of any other State in the Union, into a peaceful camp, with provisions and equipments for only three days' living and drill service, is attended with a preparation of weeks. How much longer must that preparation be when the military force is immensely greater, the service real, and the surroundings worse than nothing at all?

Whatever the American government undertakes, must be *thoroughly* undertaken. The hurry of the yankee character must give way to prudence and necessity, and men must learn to know that efficient and sure military movements, above everything else, require time and deliberate preparation.

"In the last war of any magnitude which has fixed the attention of the world" the N. Y. World reminds us, "nearly six months intervened between its inception and full preparation for vigorous hostilities, although France is the most military nation in Europe, with a large standing army in the highest state of efficiency. When Louis Napoleon snubbed Baron Hubner, at the New Year's reception at the Tuileries, he had no doubt determined on a war with Austria; and yet the fighting did not take place till May and June, the battle of Solferino having been fought at the end of the latter month.

France had never disarmed since the Crimean war; she commanded half a million of soldiers; her territory was contiguous to the seat of war; railroads could bring troops to the frontiers from all parts of the kingdom; and Genoa was within a short sail of Marseilles. And yet about the middle of May the London Times remarked, 'It is plain that the French, though Europe gave them credit for four months of preparation, are by no means well prepared.'

It was in March, 1854, that Great Britain and France declared war against Russia, as allies of Turkey; but not till six months afterward, namely, on the 14th, 15th, 16th of September, did the allies land their first army in the Crimea, consisting of 25,000 each of English and French troops; that is to say, two-thirds of the number called for in President Lincoln's first proclamation were furnished by the two most powerful nations of Europe after six months' preparation.

Our own Mexican war was declared May 12, 1846, in a bill which authorized the calling out of 50,000 volunteers; but the battle of Monterey, in which 4,700 Americans fought against 10,000 Mexicans, did not take place till the latter part of September, and Gen. Scott did not land at Vera Cruz till the last of March, 1847, his first engagement with the Mexicans at Cerro Gordo being on the 18th of April, with 8,500 Americans against 12,000 Mexicans.

We have recalled these facts to show the people the unreasonableness of expecting greater celerity than military operations admit of."

The war between the United States and Great Britain, was proclaimed by President Madison, June 19, 1812. Gen. Hull surrendered Detroit and all Michigan, August 16, having crossed into Canada, and recrossed into Michigan. No impression of any consequence was made on Canada that year, —but Michigan was held by the British.

In 1813,—Perry's victory on Lake Erie, and the battle of the Thames, where Tecumseh was killed, enabled the United States to get Michigan back into our hands again.

But though invasions of Canada were planned this year, nothing was done,—and the grumbling was immensely indignant.

In 1814, the battles of Chippewa and Bridgewater, enabled the United States to hold Fort Erie, in Canada.

On the 23d of August, 1814, Washington city was burnt by the British,—but their forces were repulsed at Baltimore Sept. 12. And almost at the same time occurred the battle of Plattsburg and McDonough's victory on Lake Champlain, which actions, with Gen. Jackson's defence of New Orleans, Jan. 8, 1815, closed the *great events* of the war, on the land and on the lakes.

Only these few battles, with more skirmishes, occupied two years and a half; while a series of naval actions, a dozen or more, excited the interest of the public, and added reputation to the U. S. Navy and its officers, their most valuable result.

The treaty of peace was signed Dec. 24, 1814, and ratified in Washington Feb. 17, 1815, leaving the territory of each combatant power exactly as it was before the war began.

All these examples show that it is easier to move armies and gain victories on paper, or in imagination, than to do the deeds in reality.

THE AFFRAY AT ALEXANDRIA.—*New York, May 24.*—A special dispatch to the Tribune gives the following additional particulars of the affair at Alexandria:

Col. Ellsworth was shot dead while descending the stairs of the Marshall House with a secession flag in his hands which he had torn down from the staff on the roof. The murderer was instantly dispatched by Francis E. Brownell of Troy, a private in Company A of Col. Ellsworth's regiment. The Colonel was shot between the 3d and 5th ribs, shattering the 4th rib, the slugs entering the left auricle of the heart, and destroying all the integuments with which they came in contact. The other charge of the gun, a double-barrelled one, entered the wainscoting near him.

The Colonel fell on his face, only exclaiming, "My God!" The blood gushed from his wound in such profusion as to drench the entire passage. A few seconds afterwards he uttered a low moan, but his eyes were instantly fixed and he ceased to breathe. He was laid upon a bed in a room near at hand, with the rebel flag stained with his blood, a trophy to his glory, about his feet.

The man who killed him was James W. Jackson, keeper of the Marshall House.—He must have died as suddenly, as he was shot through the head, and afterwards run through the body by the sabre bayonet of some private. His wife presently discovered the fatality, and approaching his body uttered the most agonizing cries, and although treated with the utmost consideration that could be offered to her in her misery, she remained a long time in the wildest state of frenzy.

The house was in the utmost confusion. The lodgers darted from their rooms, but were held in control by 4 or 5 Zouaves, who accompanied the Colonel, and at once established and maintained order. It was a long time before reinforcement arrived, and it was almost thought that we might be hemmed in by the number of persons in the house, which was considerable; but the trepidation was too great for any organization, and nothing of the sort was attempted, although I think the Zouaves, mad with grief at the loss of their leader, would have been little disappointed if there had been.

WASHINGTON, May 25.—The remains of Col. Ellsworth were taken to the White House this morning, where the funeral took place.

The National Intelligencer thinks that the policy of invading Virginia by Federal troops, can never restore the Union.

All the stores in Alexandria are closed. The loyal citizens regard Ellsworth's death as murder. Jackson was begged the night before to make no resistance, but he swore he would die in defence of his flag.

The State Department have received no dispatches whatever from our Legation abroad, and the assertion that Great Britain has refused to accept our recognition of the resolution of the Paris Congress respecting privateering, is a pure fiction.

BALTIMORE, May 25.—The Harriet Lane has gone to Charleston.

The blockading squadron off Fort Monroe consists of the Minnesota, Cumberland, Yankee, Star, Quaker City, and other small craft.

In the action last Sunday, at Sewall's Point, at least six men were killed, and 3 or 4 guns dismounted.

FROM HAYTI.—Port au Prince dates of the 7th state that the Island is highly excited at the occupation of the eastern portion by Spain. Haytian Ambassadors have been sent to France and England.

Bartholomew, a captured conspirator, has been shot.

Barque William, of New Orleans, Capt. Peltire, has been seized, and the captain imprisoned on a charge of attempting to kidnap a cargo of negroes. He will probably be shot.

MISSOURI STATE TROOPS TO DISBAND. *St. Louis, May 4.*—The State troops at Jefferson City, numbering about 4000, were ordered to disband yesterday by General Price. At first they refused, but it is believed they will quietly disperse and return to their homes.

A ten inch howitzer, an eight and a half inch mortar, three hundred rounds of cartridges, ball, shell, canister and shot were shipped from the arsenal yesterday for Cairo.

FRANKFORT, KY., May 24.—The Senate has passed a resolution that Kentucky will not sever her connection with the federal government nor take up arms against either section, but arm herself for the preservation of peace within her borders, and tender her mediation.

☞ Steps have been taken in New York for the organization of a regiment to be exclusively composed of the sons of New England resident in the city.

☞ The troops at Washington have orders to sleep on their guns, and be ready to march at a moment's notice.

☞ Benj. F. Hutchins, of Concord, has received a commission as second lieutenant in the regular army.

☞ It is impossible to state with accuracy, the number of rebel troops in Virginia. Some estimates are 70,000, others 23,000. The lowest is a formidable number.

☞ Missouri, in disbanding her State troops, so called, gives up secession, as a bad bargain.

☞ Col. Ellsworth, the fine officer murdered at Alexandria, was only 27 years old.

STATE ITEMS.—Hon. Joel Eastman pays every soldier who is an inhabitant of Conway, and goes to the war, $10.

Thomas P. Waite of Peterborough was recently killed while at work in a mill, putting in a water wheel. He fell to the bottom of the pit, fracturing his skull. He lived only an hour. His age was 34. He leaves a wife and three children.

Lieut. Murphy, of the Keene volunteers, is a Crimean soldier, and was in service at the battles of Alma and Inkermann, and at the storming of the Redan.

Col. Thomas P. Pierce, of the Second Regiment, has sent his resignation to the Governor. He assigns as a reason that at the time of his acceptance it was presumed the Regiment would be wanted but three months; since it is to be in service three years, he must decline the command, as his private affairs would not admit of so long neglect. His successor is not yet designated.

The Goodwin Riflemen of Concord now number 56 men. They are drilled three times a day, about two hours at each meeting, and are already very proficient in their peculiar evolutions. They are practicing as skirmishers, the movements being governed by the bugle call. The Statesman is inclined to think they will astonish the infantry now at Portsmouth, when they shall reach that rendezvous, whither they expect to proceed next week. Aside from their soldierly character, they are gentlemen in deportment. The arms for this company (Sharp's rifles) will be completed by the 30th of this month.

A man from Deering has enlisted in the Goodwin Rifles, of Concord, who is almost too long to lie down in the District of Columbia, being six feet six and one half inches in his stockings.

The New York ladies, who are preparing Havelocks for the army, have sent samples to Portsmouth, Dover, Keene and Manchester, but by some mistake none to Concord. The ladies of this city, we doubt not, will cheerfully furnish a sample for their Concord friends, as soon as they learn their need of one.

WASHINGTON ITEMS, May 24.—It is reported that the steamer Mount Vernon narrowly escaped sinking before landing at Alexandria in consequence of injuries inflicted upon her hull, probably by secessionists at the Navy Yard.

Government has succeeded in securing all the product of the arms manufactories and cannon foundries in Great Britain which are permitted to make arms for foreign States, for three months to come.

Government is in possession of information from Baltimore, leaving no doubt that the pretended Union sentiment in that city, so far as certain prominent men are concerned, is hypocritical, and that the presence of U. S. troops alone has kept in check the enemies of the government.

The Times Washington dispatch says that about 3000 troops are on Arlington Heights with a battery. There is a battery at each end of the long and chain bridges, and one at Alexandria. By a peremptory order of Gen. Scott, no civilians are allowed to pass either way.

A special dispatch from Washington says, Major General Sanford of New York has gone to Virginia to take command of the advancing forces. He will establish his headquarters on Arlington Heights. There are altogether at least 13,000 men in the advancing army.

FIRE AT WHITE RIVER, VT.—On Friday, a fire caught in a peg factory at White River Junction, Vt., at 11:30 A. M., burning that building, Latham's large machine shop, the Passumpsic Railroad shed containing 500 cords of wood, the passenger depot in which were the telegraph and Post offices, the freight depot, and ice house. The fire then crossed White River, and burned a wool store house on the north side. The Passumpsic bridge was on fire several times, but was extinguished. The wind blew very hard from the South.

☞ The New York naval brigade has been accepted by the government, and is to consist of two battalions of twelve companies of 100 men each. The brigade is to be armed with twenty-four of James's rifled cannon; and James's and Sawyer's explosive projectiles, fitted for ships, for boats and for field service; and with Sharpe's long-range breech-loading rifles with the sabre bayonets.

☞ The steam frigate Mississippi, which went into commission Wednesday, is officered by Northern men, the first case of the kind in the American Navy.

☞ The wife and family of Jefferson Davis, and the wife of Gen. Beauregard, are said to be visiting in Lynn, Mass.

NEW YORK, May 24.—A number of boxes containing bowie knives and powder flasks, addressed to S. T. Albright, St. Louis, were seized at a house in Fulton street to-day.

The wife of Wm. McDonald of Brooklyn has arrived with five children, totally destitute, having been driven out of Norfolk. Her husband expressed Union sentiments, and is supposed to have been murdered.

Ship North Carolina, from Havre, for Norfolk, arrived here to-day, a prize to the Minnesota. Schooners Tropic Bird, under British colors, and Pioneer, owned in Richmond, are captured and en route here.

☞ A letter from Boscawen says snow may yet be seen on the Kearsage mountain.

THE WESTERN ARMY.—Judge Arny has tendered the President three regiments from Kansas, to co-operate with the Iowa regiments at Keokuk, and the Illinois regiments at Quincy, to protect Union men in south-western Missouri, and secure a transit for stores over the St. Joseph and Hannibal Railroad to the West.

Orders have been issued to Capt. Renoof at Fort Leavenworth to supply the Kansas Regiment with arms and equipments for cavalry. This arrangement furnishes at once 10,000 men, who will remain in camp ready to take possession of the Hannibal and St. Joseph Railroad between these points.

Judge Arny reports the crops in Kansas very flourishing.

The State militia is organized into eleven regiments, and they will be equipped for home defence. A supply of clothing for the Kansas militia has been granted by the President.

☞ A letter from New Orleans, of May 17, states that the volunteers there, for the war, are more than are wanted. Weather very fine, fruits and flowers abundant.—Many printers have gone to the wars.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston,

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James F Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thing, and Wm. B Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that extreme irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb25 dawSm

CHRONICLE EXTRA.

SUNDAY AFTERNOON, MAY 26.

LATEST NEWS!

BY TELEGRAPH TO THE CHRONICLE.

From the Agent of the Associated Press.

BOSTON, Sunday Evening, May 26.—We have no confirmation yet of fighting in any direction. Reinforcements, including the Massachusetts 6th Regiment, are pouring into Virginia.

The reported capture of Sewall's Point battery by Gen. Butler, with serious loss of life, is not confirmed, and is probably incorrect.

THE GULF FREE TO SLAVERS.—The Cuban slave trade, since the withdrawal of the U. S. squadron from the coast of Cuba, is said to be carried on with redoubled vigor. Six cargoes have been landed on the "ever faithful isle" since the 24th of March. The British Admiral, Milne, is said to have relaxed his vigilance, and does not hesitate to say to American merchants that he is not going to do double duty, slave-hunting, as he has been compelled to do since the withdrawal of the Yankees.

☞ The New Orleans Picayune advocates the levy of a sufficient tax on "lands, slaves and capital," to pay the interest on a loan of one hundred millions; but owns that "the dread the men in power at Montgomery have of direct and heavy monetary burdens, will probably prevail" against such energetic measures. The Boston Post remarks:

"This dread is not without reason. In Mississippi, two months ago, armed bands resisted the collection of the war tax levied by the rebellious Governor of that State, and in Northern Alabama resistance was also made to the collection of an extraordinary tax."

☞ A dispatch to the World says that George W. Down, a well known resident of Washington, has arrived in that city from Memphis, and reports the supplies almost cut off from Western Tennessee, and that fear of starvation prevails. There were about three thousand troops at Memphis, furnished with altered flint lock muskets from the Baton Rouge Arsenal. Many of the troops are Northern men, impressed into service; half the soldiers there refuse to leave the city, and the Governor has issued a proclamation ordering all the companies to disband who did not enter into the service of the South unconditionally. Ammunition was very scarce, and business entirely prostrated. Two companies in Memphis are composed of chain-gang convicts.

THE INEVITABLE WIGFALL.—Prentice says of Wigfall's fixing the 15th of June as the latest day to which he can be induced to postpone the capture of Washington:—"If the Southern troops don't take it by that time, he will no doubt take it himself. He can. He seldom walks through a street without taking the whole of it."

THE MAILS CUT OFF.—*Washington, May* 24.—The Postmaster General has prepared an order discontinuing the mails in Virginia and other seceded States, and annulling all contracts for the same. Tennessee is excepted for the reason that she has not yet formally seceded. The mails for the South from Washington were stopped at the crossing place by federal troops and returned here to-day.

BALTIMORE, May 24.—There is a great variety of reports circulating here relative to an attack upon Harper's Ferry to-day. The coal trains are detained there, none having arrived to-day.

☞ The army surgeons request that ladies stop sending dressing gowns and slippers to the men, and furnish Havelock caps, bed-ticks and pillow-cases, of which they are in want.

A Paris correspondent says that a large number of French officers, who complain of the slow promotion in their own army, have written to the American Minister at Paris, asking for service in either of the two armies of America.

CONCERT,

For the Benefit of the Families of the VOLUNTEERS.

THE ORATORIO OF ESTHER

Will be performed at the

STONE CHURCH,

ON THURSDAY EVENING, MAY 30,

BY A SELECT CHOIR.

THE entire receipts will be given for the above specified object.

To enhance the interest on this occasion, the National Song, "Star Spangled Banner," and an Ode, "Our Flag," will be sung by 33 young Misses, in costume—each of them bearing the Stars and Stripes.

TICKETS may be obtained of W. R. Preston, 3 Congress Block; J. W. Slavers, 19 Market street; J. Warren P. Carter, 15 Daniel street; J. H. Foster, 5 Market street.

Admission 25 cents. Concert, at 8 o'clock, precisely. May 25.

SECOND REGIMENT.—About two-thirds of this Regiment, which was originally enlisted for three months, have re-enlisted for three years. Between fifty and sixty men were discharged, as they were not sufficiently adapted, from physical causes, for active participation in the duties of a military campaign.

Enough men, however, are enlisted already, in the State, to fill the regiment to its maximum allowance, which is 1046 men. The plan of organization, as adopted and promulgated by the War Department, provides that the *minimum* strength of each company shall be 83 in the aggregate, as follows: 1 Captain, 1 First Lieutenant, 1 Second Lieutenant, 1 First Sergeant, 4 Sergeants, 8 Corporals, 2 musicians, 1 wagoner, and 64 privates. The *maximum* strength of each company will be the same commissioned and non-commissioned officers with 82 privates, making an aggregate of 101. The field officers of each Regiment, and the commissioned officers in each company, will be appointed by the Governor of the State furnishing the Regiment.

Those companies in the State, which are not as yet attached to any regiment, will be ordered to Camp Constitution. Capt. Carr's company, of Manchester, has been ordered here, and is expected to arrive to-day. The Goodwin Riflemen, of Concord, also are expected here some time this week.

On Saturday morning two companies arrived at camp. One of these was from Dover,—a fine-looking set of men, numbering one hundred and one. The other was from Hampton,—fifty men.

The Concord train brought, Saturday evening, Capt. Charles H. Bell's company from Exeter—mustering fifty men, and apparently inferior to the Dover company only in point of numbers. They were accompanied by the Exeter Band.

Messrs. Editors:—Permit me through your columns to ask a few questions that seem to me to be of some considerable importance to some of our citizens. We have here a very fine Cornet Band, composed of some of our most respectable young men, who have labored hard to keep together and practice their music, so as to be ready for any occasion. Now should they not be encouraged? I cannot see why they are not competent to have the job which is now given the Manchester Band. It must certainly be cheaper for the State, these men boarding at home instead of at the Rockingham House, and very pleasing to them after having, (as I understand,) been promised a fair chance with others. We have been much pleased for a week past with the Manchester Band. Now why not change the programme, and let us hear the Portsmouth Band one week; then, perhaps, some other. I think that all that were within hearing of them last evening, will fully agree with me, that they well deserve all the encouragement that can be bestowed on them these hard times. MUSICUS.

We have supposed that the *job* of playing was given to musicians who *have enlisted* either for three months or three years.

☞ The U. S. sloop-of-war Dale was taken out of the Dry Dock at this Navy Yard, on Saturday afternoon. A shorter time was employed in raising the dock, after the vessel was removed, than has ever been the case previously.

About sixty men—mostly carpenters or laborers,—were discharged from the Navy Yard on Saturday afternoon, there being no further call for their services.

☞ Among the recent promotions to the rank of surgeons in the U. S. Navy, we notice the name of Dr. S. F. Coues, of this city.

A CARD.

The PORTSMOUTH CORNET BAND take this method of acknowledging the receipt of a fine dish of Oysters, served up in Tibbetts' first rate style, from a young gentleman of this city—may his shadow never be less—who is alive to the benefits of a resident Band among us. The event of receiving such a token of remembrance being so unusual, we could do nothing less than give it public notice through the columns of the paper that has so often given its voice in support of a local Band.

As for the report that, pending a new leader, we will not be able to play for three months,—the truth is, we—like the tailors of Portsmouth—have not had the chance offered us. We stand ready to furnish music, either Street or Hall, at an hour's notice. For order of the Band,

1t SAM'L H. KINGSBURY, Clerk.

GOVERNOR'S HORSE GUARDS.

A Meeting of COMPANY C, of G. H. G., will be held at the Armory, (Rechab Hall,)

On MONDAY Evening, May 27th,

at half past 7 o'clock—for business and drill. The prompt attendance of every member is requested.

J. E. RIDER, Clerk.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and affords ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

Portsmouth, N. H., May 18, 1861.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man makes provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A NATIONAL HYMN.—A committee in New York, of which Gullian C. Verplanck, George Willam Curtis, John A. Dix, and M. H. Grennell are members, have offered a prize of five hundred dollars for an original National hymn, set to music. All communications to be addressed to M. B. Fields, Secretary of the Committee, by the 20th of June. The following are some of the conditions:

1 The Hymn is to be purely patriotic, adapted to the whole country—not a war song, or only appropriate to the present moment.

2 It must not consist of less than sixteen lines, and is not to exceed forty, exclusive of a chorus or burthen, which is essential.

3 It should be of the simplest form and most marked rythm; the words easy to be retained by the popular memory, and the melody and harmony such as may be readily sung by ordinary voices.

4 For the words and music (whether the latter be original or selected and adapted) from the same hand, which the committee would prefer. FIVE HUNDRED DOLLARS, or a gold medal of that value, will be awarded.

For the Hymn alone, or for the music alone, (if original), TWO HUNDRED AND FIFTY DOLLARS, or a gold medal of that value.

NARROW ESCAPE OF GEN. HOUSTAN.—We understand that a sail-boat in which Gen. Houstan and Col. Morgan were proceeding from the residence of the latter in San Jacinto last Monday, capsized in thirty feet of water, and both those gentlemen were in danger of drowning. Gen. Houstan has very imperfect use of an arm and a leg, and Col. Morgan is totally blind. Mr. Ross Morgan happened to be just behind them in another boat at the time of the accident, and when he came over the spot both were under water. Gen. Houstan rose near the boat, and was seized by the crippled arm with so much earnestness that he asked to be let go. Col. Morgan's first expression on getting his head above water was that they could not drown him any way, they could fix it. He was once before capsized, and though old and blind held on to the bottom of the boat, while two other persons were washed out and drowned.—*Galveston Civilian.*

INDIA RUBBER.—If that convenient article which was "a cap by night, a stocking all the day," was not made of India Rubber, there are certainly some other articles equally convenient made from it. The Boston Com. Bulletin says—"The war has converted into new uses fabrics which, for a long time, have been a drug in the market. Of these the most important is that of Rubber Work, which ingenuity has converted into Knapsacks, Haversacks, and nearly every conceivable article for military use, one of which we mention in particular, got up by the Beverly Company,—the "Combination Camp Blanket," which can be used as a knapsack, a blanket, or a cloak, and four of them together form a water-proof tent of the army regulation size.

CONCERT.—It will be seen by an advertisement that preparations are making for a rich treat to the lovers of music, at the Stone Church, next Thursday evening. The ability of those who take part, should be an inducement to fill the house, aside from the commendable object to which the proceeds are to be devoted.

MOLASSES CHEAP.—By the last accounts from the West-Indies, Molasses is quoted at 5 gallons for 12½ cents, or 2½ cents per gallon! If it did not cost $5 for a hundred gallon hogshead to put it in, it might be brought here at a very low rate. As it is, good Molasses sells at wholesale in Boston for a shilling a gallon.

ENCOURAGING PROSPECTS FOR BUSINESS.—The following cheering view is given by one of the most reliable business papers in the country—the Commercial Bulletin.

Some people, in business circles, think that the existing war is to injure, if not impoverish, the North. But we believe that the great mass of the business community consider, and correctly, that the very reverse of this will prove to be the fact.

The demands of war are great; and these demands extend through nearly every branch of industrial interest. While the credit of the Northern States stands as well as it does to-day, all the locked-up capital at home, and an abundance more from abroad, will be put in circulation. Let it be remembered that the uses of this capital are to be employed at home,—the farmer, mechanic, manufacturer, and merchant will equally share in its expenditure.

At the call of the State or the Governor, the banks and private capitalists will set their vast accumulations of money in circulation, certain that it will return to them again with its natural increase. This money then flows back again into the legitimate channels of trade, although by a different course. What the people most need to do at the present time is to encourage confidence. The great masses of the people are actually to be benefitted by the war,—as it increased consumption. It has indeed increase the amount of productive labor, but, at the same time, it employs vast numbers that have been out of employment, as is generally the case with multitudes in times of peace. The middling and laboring classes draw directly from the capitalist. It is impossible, at such a time as this, for any one to be benefitted without a corresponding and proportionate benefit accruing to others. We know that it is a peculiarity of the masses in this country that money does not remain unemployed; an increase of profits, or an increase of wages, brings with it a corresponding increase of wants, which are generally gratified in proportion to the means pursued.

We see no reason, therefore, why, in a short time, the whole machinery of trade and commerce and manufactures will not be put in motion with increased power,—especially here at the North, where we are so far distant from the seat of war, and the peaceful pursuit of trade cannot be interfered with. It is true we have lost the Southern trade, but if the privateers of Jeff. Davis do not capture and destroy all our Northern ships, we can open up new channels elsewhere that will in time, more than compensate for what we have lost. Let us now act upon the principle we have always got forth, that Northern industry and energy are equal to any emergency, and convince the South that if the almighty dollar is the sole object of our worship, as they thoughtlessly say, we can erect temples for that worship where we choose.

"Freedom shrieked when Kosciusco fell."

POLISH REGIMENT.—The Washington Evening Star of Monday says—"A delegation, headed by Col. JULIAN ALLEN and Maj. H. K. KALESOWSKI, of Pulaski's legion, at New York, who come to office a Polish regiment from the States at large, was to-day very kindly received by the President, and there is a great probability that we shall soon see marching through our streets the brave sons of Kosciusco land."

Col. Allen is well known here. A better man to command a regiment could not be found.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaint, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

"THE HAMMOND LINIMENT"

IS A SAFE, SURE and SPEEDY REMEDY.

THE HAMMOND LINIMENT

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, SORE THROAT, CHILBLAINS, HEADACHE, SORES, BRUISES, PAIN IN BACK, SIDE, LIMBS & CHEST.

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT" has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to be what the proprietors claim.

Morning Chronicle.

☞ The following, from the Mobile Advertiser, is a specimen of the lies circulated at the South to increase the feeling against the North:

"In Massachusetts petitions to Congress are diligently circulating to abolish slavery in all the States."

Rather a poor story, we should say, to publish where slaves can read it, or hear it read; it may do for the poor whites.

FRIGHTENED CLERGYMEN.—According to a statement in the Philadelphia Press, one of the members of the Presbyterian Assembly, who comes from the South, declares that the absence of many of the Southern members was on account of the journals in that section of the country stating that they would be attacked by Northern mobs, and perhaps lose their lives. This was the general feeling South, and had kept many away from the Assembly.

☞ Capt. Montgomery of Kansas, whom the excited citizens of Texas believe to be coming down in their rear with an army of 3000 men, was at Kansas City on the 9th inst., engaged in peaceable avocations, and it is not probable that he has got up an invading force since that time. "The wicked fleeth when no man pursueth."

☞ The last received London American gives the rumor that a large number of privateers are already being fitted out in the ports of England, and it is the boast of men calling themselves Americans in London, that a thousand craft will leave England under false pretences on this piratical expedition.

THE "HAVELOCKS."—A soldier, writing from Washington, says:

"The weather now is very hot, and I have heard of two or three cases of death from sun-stroke. Many of the regiments are now wearing "Havelocks," so beneficial to the British in India. They are very simple and cheap, but are worth ten dollars to any man who is obliged to perform his duty in the melting rays of the sun."

☞ The New York papers say that there was quite a flutter there, and several parties suddenly disappeared when the government seized the telegraphic correspondence.

☞ A battery of Whitworth guns, twelve pounders, with ammunition and cartridges complete, has arrived in New York from England, as a present to the government from patriotic Americans abroad.

GERRIT SMITH.—It is reported that this distinguished philanthropist has given $10,000 for the benefit of the families of volunteers in the U. S. army.

☞ Francis Jackson has resigned the Treasurership of the American Anti-Slavery Society, a post which he has held for the past seventeen years.

VOLUNTEERS WANTED!

In pursuance of a proclamation by the President of the United States, and by order of the Governor of New Hampshire, ONE REGIMENT OF INFANTRY within the State of New Hampshire, will be enlisted for three years, unless sooner discharged by proper authority, to be held in readiness for service whenever called for.
In accordance with the above, and acting under the orders of the Governor of the State, I have opened a
Recruiting Office at Union Hall,
Corner Market & Hanover Sts., Portsmouth,
for the enlistment for three years, of able-bodied men. None will be received who are under the age of eighteen, or over the age of forty-five.
Volunteers who shall be accepted will be uniformed, armed and equipped at the expense of the State, and their pay will be the same as that of the corresponding rank in the Army of the United States. GEO. W. TOWLE,

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Ongunent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world renowned article.
THE STIMULATING ONGUENT
is prepared by Dr. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, and harmless yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or SHOW hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article to every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct, securely packed, on receipt of price and postage, $1.13. Apply to or address,

FORTRESS MONROE.

Advices from Fortress Monroe, Saturday afternoon at 5 o'clock, are as follows:

Col. Duryea's Zouaves arrived this afternoon by the Alabama, and are encamped this side of Hampton Bridge, with the Vermont and Troy regiments. The Pembroke has also arrived with two companies of Massachusetts troops. There are now about 6000 men within and under the walls of the Fortress.

The Quaker City came up with a rich prize this morning, the bark Winfred, of Richmond, from Rio Janerio, laden with coffee.

The Minnesota sails southward to-day. Commodore Stringham, it is said, will visit the Gulf Squadron.

Gen. Butler, accompanied by acting Adjutant General Talmadge and aids, made a dashing reconnoissance between the James and York Rivers. The picket guard of the rebels fled on their approach.

Three fugitive slaves, the property of Col. Mallory, commander of the rebel forces near Hampton, were brought in by our picket guard yesterday. They represented that they were about to be sent South, and hence sought protection. Major Corry came with a flag of truce, and claimed their rendition under the Fugitive Slave law, but was informed by General Butler that under the peculiar circumstances he considered the fugitives contraband of war, and had set them to work inside the Fortress, and Col. Mallory was politely informed that so soon as he should visit the Fortress and take a solemn oath to obey the laws of the United States his property would promptly be restored. Another party came in this morning with a flag of truce, but with no better success. On their return it is supposed they set fire to Hampton bridge, an immense volume of smoke being now visible in that direction.

Col. Mallory not being able to take that oath, will hardly get his slaves. The coolness of *his* demanding them under the fugitive slave law of the United States, must have been refreshing to Gen. Butler, who understands law as well as Col. Mallory.

FROM FORT PICKENS.

The blockade of Pensacola appears to be complete. And the public will rejoice to hear that Lt. Slemmer has been relieved, and arrived in New York in the steamship Philadelphia, from Port Pickens 14th, via Tortugas and Key West. She brought Lieut. Slemmer and his command, 12 women and children, and 12 mechanics.

Everything was quiet at Fort Pickens.—The fleet was ready to co operate with Col. Brown, the commander of the Fort, and are interrupting all inward bound vessels. The fleet consisted of the Sabine, Brooklyn, Powhattan and Water Witch, while the Mohawk was at the east end of Santa Rosa Island to prevent vessels of light draft from entering by the eastern channel.

Lieut. Slemmer's company are much worn, and several have the scurvy, whilst others are suffering from attacks induced by over-exertion and want of proper food. It is evident that a change of locality was necessary to restore the health of all.—Lieut. Gilman was also a passenger.

The Philadelphia on her outward trip landed a large amount of subsistence stores at Fort Jefferson, Tortugas, and on her arrival at Fort Pickens landed mules and beef cattle in safety. Most of the balance of her cargo was lying for three days within range of the guns of Forts McRea and Barancas, which showed no disposition to attack her.

☞ The Herald's Washington dispatch gives the following narrative of the events which gave rise to the report of a battle: About 11 o'clock this (Saturday) forenoon the picket guard of the 12th N. Y. regiment, half a mile beyond Arlington heights, was attacked by 750 of the rebel infantry who fired a few shots. The guard returned the fire and hastened to the main body. The 12th and 7th regiments were soon in line of battle when the rebels fled.

☞ The Richmond Dispatch—the paper having the largest circulation in Virginia—says in closing one of its last week's leaders:—

This very moment ought to see our long range cannon planted on the heights of Arlington, and the bayonets of our legions on the Long Bridge. Not another week should pass over our heads without witnessing the capture of Scott and Lincoln, and leading them in triumph through the streets of Richmond."

☞ There is to be no standing back in New Orleans. Officers have been appointed to go from house to house, and bring out every man and boy who is capable of carrying a musket. Should any proprietor of a house refuse to have his house searched for men, the officer is to report the premises as "under suspicion."

☞ We regret to learn that Rev. Dr. Ballou, the highly esteemed President of Tufts College, lies dangerously ill at his residence, and that there is but little hope of his recovery.

LETTER FROM KANSAS.

FORT RILEY, Kansas, May 16.

Kansas is now clothed in living green.—The eyes of the cattle stand out with fatness. Garden vegetables are beginning to be offered in market. Copious rains have fallen within the last month. The wheat and oats are already out of danger. It is to be earnestly hoped that Kansas will hereafter be let alone to work out her destiny, without furnishing any more sensation topics, and that the small army who have heretofore subsisted on the story of her wrongs and misfortunes, will disband by mutual consent.

It is a fact patent to every reader of history, that times of tumult breed a class of men who, becoming tired of the monotony of honest, painful labor, cling to their character of marauders and mose troopers long after the occasion for their original action has passed away. Heavy, therefore, is the responsibility of those who, as Reverdy Johnson recently said, being "actuated by an unholy thirst for official positions," force the law-loving people to arms for the preservation of their rights.

Jefferson Davis has undoubtedly believed that his Prætorian cohorts could easily take the Capital, overawe the timid population of the North, and if he saw fit, dictate the re-construction of the Government. Where did he learn such folly? From a base class, unfortunately too numerous, who have thought it was very fine to denationalize and degrade themselves, currying favor with the chivalrous Southrons by enlarging upon the essential inferiority of the Northern people, their cowardly nature, etc. I have heard such men thus traitorously slander their own section, till I wondered at the depth of meanness they had reached.—The rebel Davis has had his ears filled with such trash, and we see the deplorable results. I have no doubt the New Hampshire troops will put an effectual quietus on such vile slanders, if they are brought into action.

The federal forces who have responded to the President's call, are styled "hirelings" by the more fastidious and haughty among the rebels. What epithet will they think proper for those Southern men who are in entire and open sympathy with the rebellion, are natives of seceded States, denounce the United States government, say they will never fight against the traitors, but will sooner resign, and yet are continuing in the nominal service of the government they will not fight for, if called on, and quietly, serenely, tenaciously and shamelessly drawing pay as officers in the U. S. Army, while their hearts are with those who have attempted the republic's overthrow! These are not "hirelings," perhaps.

The towns in our vicinity have organized companies. The Ogden company have a name for which they acknowledge their indebtedness to Senator Hammond. They call themselves the "Ogden Mudsills." This post is still garrisoned by one company of U. S. troops, under Maj. Wessells, a gentleman, a soldier and a patriot. Yours,

PORTSMOUTH ABROAD.

STATE ITEMS.—The friends of Richard N. Batchelder, of Manchester, Quartermaster of the First N. H. Regiment, presented him with a beautiful horse, of the Black Hawk family. It was purchased in Waterbury, Vt., for two hundred and fifty dollars. Its weight is about 1150 lbs., and its color is black. It makes a splendid appearance on the field.

For the eight months previous to the middle of April, the Manchester mills paid out more money for labor than at any previous time—the pay roll amounting to $110,000 a month. But the war, of course, has a damaging effect upon their business. The Print Works, having been stopped a week or two as usual at this season, for repairs, will start up again about the 1st of June. The mills will run two-thirds time, at least for a year to come, even if the war should continue as long, most of them having cotton enough to last eighteen months. Their pay-roll will amount to about $74,000 per month.

In Thornton, Grafton county, George W. Avery, a laborer about 30 years old, was shot dead, Friday morning, by Barnard Page. The two had had some difficulty, on previous occasions, and at this time engaged in a violent controversy, when Page stepped into his house, seized his gun and deliberately shot his opponent, who immediately expired. The only justification offered by the friends of Page is that Avery used insulting language and provoked him to the act.

Sam Sharpley's Minstrels performed in Manchester, on Wednesday evening, and the next morning started for Nashua. But when the cars were seven miles below Manchester, Sharpley's wife discovered that she had left her money (quite a large amount in gold and bills,) at her room in the City Hotel. As she insisted upon returning, the cars were stopped, and Mrs. Sharpley returned, "afoot and alone," and found her money all right.

☞ Capt. Core, who has just been reconnoitering in Virginia, confirms the report of the capture of Hampton with 300 rebel troops.

DEPARTURE OF THE 1ST REGIMENT, N. H. V.—The first N. H. Regiment on Saturday morning left Camp Union, Concord, at 8 o'clock, and under an escort of a company of Horse Guards, marched, in a pouring rain, to the depot.

Only 24 out of the whole regiment were on the sick list and left behind. The train consisted of about 40 cars and two locomotives, carrying 90 horses and all the baggage and equipments of the regiment, and went directly to New York, via Worcester, without delay on the route. Thirty females, (wives of the officers, and nurses,) accompanied the Regiment.

In passing through Manchester, the departing volunteers were greeted with cheers from the crowd of 3000 people that gathered along the track from one end of the city to the other. The Rifle Rangers were drawn up near the depot, the Flying Artillery fired a salute of 34 guns, and notwithstanding the continued rain the excitement was intense.

At Oakdale station, where the train halted for a few moments, a deputation of ladies presented to Col. Tappan a beautiful boquet, which was gratefully acknowledged. One of the most imposing military demonstrations ever witnessed in Worcester, says the Spy, took place when the N. H. Regiment arrived there. Major Gen. Morse and staff, and four military companies, with two bands, escorted the regiment from the depot to Mechanics' Hall, where they were received by the Mayor, in behalf of the city, and welcomed to a bountiful collation. Two bald headed eagles hovered high over the Hall, while they filed in. After patriotic and eloquent speeches by the Mayor and Col. Tappan the regiment was escorted to the depot.—The Spy adds:—

"They were tanned brown, the result of their three weeks of camp life, and were a fine, tough looking body of young men—men who will never soil the fame of New England, in their country's service.

"Quite a touching episode occurred as the regiment was marching up Maine street.—A young lady started from the crowd into the midst of the marching troops, and with exclamations of joy, flung her arms about the neck of one of the young soldiers.—It was her brother whom she had not seen for four years, and whom she feared she should never have a better opportunity of seeing again. The officer in command allowed the patriotic brother to step aside from the ranks."

At Norwich, they were invited to a supper by the municipal authorities; and sailed thence, by the steamboats Connecticut and Commodore, to New York. The steamboats arrived at New York at half past nine o'clock Sunday morning, and the Regiment was received by the patriotic Sons of the Granite State, who provided for them during their stay in the city. Chas. L. Frost, Esq., who is ever foremost in the performance of those good deeds which true patriotism prompts, presented to the Regiment in behalf of the Sons, a splendid American flag. Thrilling and inspiring speeches were made by many others of the Sons. The regiment dined at the arsenal, and some of the hotels, and late in the afternoon marched down Broadway and Courtland street to the Jersey City Ferry, and crossing over took the cars for Washington. Their reception was most enthusiastic and extremely gratifying to themselves. The complete camp equipage of the regiment excited unbounded admiration.

Our readers may see from the above summary of events, that the 1st Regiment N. H. V. has taken everything by storm in its passage to the Capital. May the same good fortune attend them when they enter upon other engagements!

Saturday morning, while the people of Manchester were awaiting the arrival of the military train of cars from Concord, two boys were playing with a pistol. Through the carelessness of one of the lads, the pistol was discharged in the direction of the crowd, a ball passing through the umbrellas held by two ladies, and striking Miss Mary Jane Bullis in the back of the head. The ball penetrated the skull and glanced off, leaving a severe though not a dangerous wound.

☞ A correspondent says that there is no truth in the report that the government has secured the products of the arms manufactories in England.

The Times Washington dispatch says it is settled that Ex Governor Banks will be appointed a Major General.

☞ The committee on military expenditure, of Maine, have demanded, and obtained such a reduction on the bill for clothing purchased in Boston for the 1st Regiment, as to make the whole purchase of a character (as regards price) to satisfy all.

☞ The flags in Boston, Newburyport, Portland, and other prominent cities in New England, were all hung at half mast on Saturday, for the death of Col. Ellsworth.

☞ Saturday morning, Mr. Benjamin Lewis, of Berwick, committed suicide. He left nothing to indicate his reasons for the act, but it is supposed that pecuniary embarrassments had unsettled his mind.

"THERE'S NOTHING LIKE LEATHER." Being in Concord, a few days since, we happened to spend an hour very pleasantly, in looking over the immense Harness Manufactory of Mr. James R. Hill, on Main Street—which, (like the enterprising proprietor,) though by no means pretentious in appearance, is one of the most extensive manufactories of the sort in New England.

As an instance of the skill and capacity of the establishment—we were informed that they had just completed there, an order from the State of New Hampshire, for 1,600 (sixteen hundred) full sets of leather equipments for the N. H. Volunteers—consisting, we believe, of gun-belts, cartridge-boxes, cap-boxes, knapsack-straps, bayonet-scabbards, &c., in the very short space of eighteen days! besides 75 baggage wagon harnesses, and much other usual work. That these articles were of the best quality, the reputation of the maker, at home and all over the world, is ample guaranty,—fully borne out by examination. We trust no more leather or other work for the N. H. Volunteers, will be made out of this State.

From 75 to 100 men are usually employed by Mr. Hill—about 30 in making the collars, which are used from California to Australia. With this force, fifty harnesses can be finished per day; or that number doubled, by working two sets of hands.

Among other objects of interest in the well-filled rooms of the building, was an immense collar, seven feet high,—through which a man can ride on horseback—which is to be hung out as a "sign"—and will be in every way appropriate.

Our examination proved to us, what we already well knew—that nothing but the best stock is used at Mr. Hill's manufactory; and that by none but the best workmen. Besides all sorts of horse gear, a large variety of trunks and such articles are manufactured here—and all on a scale which astonished us. Mr. Hill has the most ample facilities for filling the largest orders, for leather work for private or State use, in the best manner; and we commend his establishment as eminently worthy of patronage.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, Mass., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

WHAT'S THE NEWS?

The Newburyport Herald of Monday, publishes the long telegraph humbug report of the battle of Sewall's Point, &c., in good faith; and elsewhere says:—

Sunday was a day of intense excitement. At eleven o'clock news of the battle of Sewall's Point was received and placed upon the bulletin board. After that the streets were full of people, waiting—waiting—waiting. At seven o'clock the Sunday Express was received in town by horse, but it had nothing later. We were prepared to issue an Extra as soon as additional news could be had. It was promised at five o'clock, but didn't come. It was then promised at seven, but didn't come.

At nine, operators in Boston informed us that the Associated Press had put on an embargo, and no further news could be had. The only consolation was that Salem, Portsmouth, and all other places east of Boston, except Portland, were in the same condition. They imagined that the publication in advance of them would injure the sale of their papers.

The Chronicle and its readers fared a little better. *Our* dispatch of Sunday evening came *from* the Associated Press bureau, and was reliable. But though our Extra shew at once the falsity of the bloody rumors—some were dissatisfied with it; their voice being "for war," and for war only. We publish the above to show the difficulty of getting "the news" at all, or of depending upon it when received.

SUNDAY SERVICES.—Sunday morning, at 9 o'clock, Rev. Mr. Humphriss, of the State street Methodist Church, preached an eloquent sermon to the N. H. Volunteers of the 2d Regiment, at their parade ground. His text was taken from Psalm 137—5th and 6th verses: "If I forget thee, O Jerusalem, let my right hand forget her cunning. If I do not remember thee, let my tongue cleave to the roof of my mouth, if I prefer not Jerusalem to my chief joy."

In the afternoon, the same reverend gentleman delivered a fervent discourse to the Companies stationed at Fort Constitution.

At the Middle st. Baptist Church, the services were of more than usual interest, in view of the fact that the former pastor, Rev. Dr. Lamson, of Brookline, preached to the congregation for the first time since his departure from them. His sermons were well adapted to the times and the occasion, showing that those who remained steadfast in the true faith, knowing God and his laws above all earthly things, shall be considered loyal and be delivered from evil.

At the Unitarian Church, the "Army Hymn," by Dr. Oliver Wendell Holmes, was sung by the choir. In these days, patriotic hymns seem to be generally sought after by choirs, and public opinion endorses their action.

☞ On Sunday evening we had the pleasure of attending a rehearsal of the *Oratorio of Esther*, which is to be performed at the Stone Church, in this city, on Thursday evening next, for the benefit of the families of Volunteers. The rehearsal was highly creditable to all concerned—especially to the lady organist, who we are informed has had the chief direction of the matter.

The Concert will be an attractive entertainment, and quite a novelty to our music-loving citizens, and we are pleased that there are a sufficient number of public-spirited ladies and gentlemen in the city to undertake and carry through successfully a performance requiring so much time and labor in its preparation. Portsmouth does not have half her share of good musical entertainments. We trust our citizens will appreciate the efforts of these ladies and gentlemen, and compliment them by a crowded house. There is another reason why they should fill the church, which the advertisement explains.

☞ Wambold & Co.'s Great Double Show is to visit Portsmouth to-day. Of course there will be a great rush. A circus or a menagerie is always well attended here, and our citizens may naturally be expected to desire to see double shows, which combine the advantages and pleasures of both. Wambold & Co. are highly spoken of by those who have witnessed their exhibition, and any one visiting them to-day will doubtless be fully repaid.

☞ We are indebted to Mr. Langley—who was a conductor on the military train which carried the 1st Regiment to Norwich—for New York and Worcester papers in advance of the mail.

FOR THE WAR.—Several companies of the 2d N. H. Regiment, from Portsmouth, passed through Newburyport on Saturday, on their way to Washington.—*Herald.*

We guess not.

☞ The report of fighting at Alexandria, was caused by the firing of minute guns in honor of Col. Ellsworth, and by the camp fires of our forces in that neighborhood. The reported capture of Sewall's Point was a hoax. It appeared in an extra edition of the National Republican at Washington, and was too readily believed by the newspaper correspondents.

☞ Queen Victoria has issued a proclamation, declaring the neutrality of England in the United States' war.

NEW YORK, May 27.—All the encampments on the Virginia side will be connected with Gen. Scott's headquarters by telegraph.

No further advance will be made into Virginia until the present fortifications are completed.

The Herald has information that Sewall's Point battery has been taken. 85 of Butler's force and 385 Virginians were killed, when the battery surrendered, with 13 cannon and 600 prisoners. This needs confirmation.

The inhabitants of Alexandria are sullen and disaffected, and the only smiling faces are those of the darkies.

Twenty thousand more volunteers are to be ordered to Washington.

No doubt is entertained here of the capture of Sewall's Point.

Information has been received that Ben McCulloch is within 15 miles of Washington with a body of troops.

The only occupant of the Alexandria slave pen was an old negro, who was told that he could find his master, but he did not see the necessity, and attached himself as cook to the Michigan regiment.

The Alexandria Union would not print Col. Wilcox's proclamation, when a squad of types was sent, who took the office and printed it.

WASHINGTON, May 27.—The Treasury Department, immediately after opening the proposals on Saturday, commenced informing the successful bidders of the result. All the bonds placed at 85 and upward, are accepted and awarded; the remainder to bidders for Treasury notes at or above par.—The amount of bonds awarded is $6,753,000, and of Treasury notes, $2,241,000.

The railroad bridges for twenty miles out of Alexandria have been destroyed, thus preventing the advance of rebel troops.

It is thought the rebels will not advance on Alexandria, but will be retained to defend Richmond.

FROM WESTERN VIRGINIA.—*Marietta, May 26.*—We have the following election returns from Virginia:—Union majorities—Berkley county, 700; Harrison, 1000; Wood, 1696; Morgan, 300; Ritchi, 378; London, 1000; Jackson, 400; Wirt 300; Pleasant, 158; Dodridge, 550; Barbour, 350; Taylor, 700; Marion, 390; Wetsel, 100; Mason, 1700; Cabell, 650; Kanawha, 1200; Wayne, 800; Preston 500.

The office of the Parkersburg (Va.) News, a secession paper, was completely demolished on Friday night by a crowd of Union men who considered it their duty to stop its issue.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

Portsmouth, N. H., May 18, 1861.

STRONG TESTIMONY.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one, the "*Hair Dressing*" and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it is a merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

G. W. WALLACE,

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Steamer, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, using but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Morning Chronicle.

A PARALLEL TO OUR OWN REBELLION. In 1687, England entered upon a crisis in many points like our own of to-day. Macaulay, describing the condition of the State at the beginning of that great and last English revolution, speaks of "the avowed hostility of non-jurors, and the more dangerous hostility of traitors, who were ready to take any oath, and whom no oath could bind." He says:

"Her secret enemies commanded her fleets and armies, were in charge of her arsenals, ministered at her altars, taught in her universities, swarmed in her public offices, sat in her Parliament, bowed and fawned in the bed-chamber of her king."

☞ A Kentucky correspondent of the Cincinnati Gazette says that 50,000 percussion Minie rifle caps passed over the Kentucky Central road the other day, for the rebel army, marked garden seeds. Such seeds will undoubtedly shoot.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OXFORD, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Tumors on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore. My scalp was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was recommended to try the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I feel it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Legs, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Erysipelas, which threatened to terminate fatally, by the powerful use of our Sarsaparilla, and he has also cured a Malignant Erysipelas by large doses of the same; says he cures the common Erysipelas by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from ever two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. R. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of leucorrhoea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newberry, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, and I believed the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and of course without some disfiguration in his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 25th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and resisted all else in spite of all the remedies I could find, until I tried your Sarsaparilla. It has cured me in two weeks, and restored my general health so much that I am better and stronger than before I was attacked. I think it a wonderful medicine. THEAR.

JOHN Y. GETCHELL, of St. Louis, writes: "I have been afflicted with an *affection of the Liver*, which destroyed my health. I tried every thing that promised to relieve me; and I have been a broken-down man for years, from no other cause than derangement of the Liver. My health gradually failed, till I was reduced to my your Sarsaparilla, because he said he knew you, and knew you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best thing he did for me was to cure me of my liver, and I hope he did the same for you. I feel young again. The best thing he did for you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulcerations, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where use of these formidable complaints have resulted from the use of this remedy, but space forbids our publishing them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this compound, which invigorates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the physicians of this people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few households, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the deceitful fidelity of these disorders, and as they know, too, the effects of this remedy, we need no more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and particularly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a cordial it has a tendency to *recreate* and *strengthen*, while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

A CARD TO MAJOR ANDERSON.—The New Orleans Delta has the following card to Major Anderson:—

NEW ORLEANS, May 16, 1861.

Maj. Robert Anderson, late of Fort Sumter.

SIR: You hold my three notes for $4500 each, with about $1000 accumulated interest, all due in the month of March, 1861. As I consider *fair play a Jewel*, I take this method to notify you that I will not pay those notes; but, as I neither seek nor wish an advantage, I desire that you return me the notes and the money paid you, and the negroes, which you will find much improved by kind treatment since they came into my possession, shall be subject to your order.

I feel justified in giving you, and the public this notice, as I do not consider it *fair play* that I should be held to pay for the very property you so opportunely dispossessed yourself of, and now seek to destroy both their value and usefulness to me. I ask no more than to cancel the sale, restore to you your property, and let each assume his original position; then your present effort may be considered less selfish, because at your own expense not mine.

JOHN C. COCKS.

☞ Mr. George C. Ward, who has been in the stable-keeping business in Boston for twenty years or more, was killed on Friday afternoon. He was walking along in rear of the horse stalls and to avoid a post, stepped directly behind a fractious mare called "Victoria." The beast had probably been made more vicious than usually by recent driving, and a slight slap from Mr. Ward's hand caused her to kick.—Her feet struck him in the region of the stomach, and he survived only a few minutes.

VOLUNTEERS WANTED!

In pursuance of a proclamation by the President of the United States, and by order of the Governor of New Hampshire, ONE REGIMENT OF INFANTRY within the State of New Hampshire will be enlisted for three years, unless sooner discharged by proper authority, to be held in readiness for service whenever called for.

In accordance with the above, and acting under the orders of the Governor of the State, I have opened a

Recruiting Office at Union Hall,
Corner Market & Hanover Sts., Portsmouth,

for the enlistment for three years, of able-bodied men. None will be received who are under the age of eighteen, or over the age of forty-five.

Volunteers who shall be accepted will be uniformed, armed and equipped at the expense of the State, and their pay will be the same as that of the corresponding rank in the Army of the United States. GEO. W. TOWLE,
Recruiting Officer.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY.
For Its Superior Medicinal Qualities,
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*Not it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

WEDNESDAY, MAY 29, 1861.

CALHOUN'S VIEWS.

Every reader who has believed that the present rebellion was caused by a sudden gush of feeling, or was the result of anything else but an old treacherous plot, may undeceive himself by reading the following extracts from a letter written by the venerable Commodore Stewart, in which he gives a very interesting account of a conversation which he held with the late John C. Calhoun, at Washington, in December, 1812. Com. Stewart had cultivated very friendly relations with the South Carolina Representative, and frequently discussed political matters with him. On one occasion the conversation turned upon points of unusual importance, and is thus described in the letter:—

One evening, I struck on the divided views of our sectional interests, of the war —stated to him that the opposite feelings on this subject had puzzled me exceedingly, and asked him how it was that the Planting States were so strongly and decidedly in favor of the war, while the Commercial States were so much opposed to it. With this latter section of our country it seemed to me that the punishment of England, through the medium of war, ought to meet their highest approbation, and call for their greatest efforts, as they were the greatest sufferers through her instrumentality and power over our commercial affairs, since 1792, which were so arrogantly urged by plunder and impressment on the highway of nations, while the Southern portion of the Union had felt but little in comparison. I observed, with great simplicity, "You in the South and Southwest are decidedly the aristocratic portion of this Union; you are so in holding persons in perpetuity in slavery; you are so in every domestic quality; so in every habit of your lives and actions; so in habits, customs, intercourse and manners; you neither work with your hands, head nor any machinery, but live and have your living, not in accordance with the will of your Creator, but by the sweat of Slavery, and yet you assume all the attributes, professions and advantages of Democracy."

Mr. Calhoun replied: "I see you speak through the head of a young statesman, and from the heart of a patriot, but you lose sight of the politician, and the sectional policy of the people. I admit your conclusions in respect to us Southrons. That we are essentially aristocratic, I cannot deny, but we can and do yield much to Democracy. This is our sectional policy; we are from necessity thrown upon and solemnly wedded to that party, however it may occasionally clash with our feelings, for the conservation of our interests. It is through our affiliation with that party in the Middle and Western States that we hold power; but when we cease thus to control this nation through a disjointed Democracy, or any material obstacle in that party which shall tend to throw us out of that rule and control, we shall then resort to the dissolution of the Union. The compromises in the Constitution, under the circumstances, were sufficient for our fathers; but under the altered condition of our country from that period, leave to the South no resource but dissolution; for no amendments to the Constitution could be reached through a convention of the people under their three-fourths rule."

I laughed incredulously, and said, "Well, Mr. Calhoun, cre such can take place, you and I will have been so long *non est*, that we can now laugh at its possibility, and leave it with complacency to our children's children, who will then have the watch on deck."

Alas! how entirely were the views of that "young-headed statesman" circumscribed by the patriotic feelings of his heart. What he then thought an impossibility, for human hands to effect for ages to come, he now sees verified to the letter, as predicted by that far-seeing statesman, John C. Calhoun.

DEATH OF DR. BALLOU.—Died, at Somerville, Mass., on Monday, May 27, Rev. Hosea Ballou, 2d, D. D., President of Tufts College, aged 64 years, 7 months, 9 days. Funeral services on Thursday, at 2 P. M., in the Chapel of Tufts College.

The deceased was a nephew of the Hosea Ballou who was formerly pastor of the Universalist Society in Portsmouth; and he resided here a short time with his uncle, assisting him in his school.

He was settled in Roxbury, over the Universalist Society there; afterwards in Medford; and was selected by general consent, as the first president of Tufts College. He was a man of sound learning, kind heart, and gentle manners; winning the respect of all who saw him, the love of all who knew him.

His degree of D. D. was conferred by Harvard College, of which he was some time a trustee or visitor.

An advertisement of G. P. Putnam's valuable Record of the Rebellion, which we noticed a few days ago, will be found in another column. We have seen Nos. 1 and 4, but have failed to receive Nos. 2 and 3.

STATE ITEMS.—Mr. Augustus Howard of Nelson fell from his team on Sunday evening last, when within about a mile of his home. He so injured his spine that he could not get up, and was obliged to remain upon the ground over night, with his team standing in the road. He died on Wednesday morning from the injuries he received. He was about 50 years of age.

The publisher of the Democratic Standard, at Concord, the secession paper, has been notified to quit the premises by the owner of the same, who very naturally regards his property in danger. The publisher, however, refuses to go. It is supposed that he will find his "traps" in the street at the expiration of the time specified in the quit notice.

The prominent names mentioned in connection with the Speakership of the next House, are James W. Emery, Esq., of this city, and Edward A. Rollins, Esq., of Somersworth. Mr. Emery is too well known in this vicinity to require any statements concerning his eminent fitness for the situation. Mr. Rollins was a member of the House last year, and was upon the Judiciary Committee, where he rendered valuable service.—He is about 32 years of age, a member of the legal profession, prompt and accurate, and of good abilities and education. Judge Woodman has declined to be a candidate.

After a cold and wet spring, greatly delaying the planting season, summer seems to be dawning, and farmers are driving work rapidly to catch up. The cherry trees seem to be killed outright, or blighted for the season, by the spring frost; and few or no peaches are left to tell the melancholy tale of their past glory and present decay. The pear and apple trees in some sections are in bloom, but the results are problematical.

☞ The following pleasant mention of a pleasant event, by the Boston Correspondent of the New York Spirit of the Times, we should have published a fortnight ago, had it not been mislaid:—

"I was present last week at the marriage of a daughter of that venerable old lady, "Mrs. Partington" (B. P. Shillaber, of the "Saturday Evening Gazette" of this city.) The bride—a bright-eyed and interesting girl of twenty-one summers—was positively charming in white brocade and orange blossoms, and with her gracefully-veiled bridesmaid, would have furnished a beautiful picture for the stereoscope. Of course, the bridegroom (always a non-entity upon such occasions) smiled as complacently as possible upon the gay scene around him, altho' fully conscious of being an inferior star in the firmament of beauty. The Captain, however, like most young sailors, is a whole-souled, warm hearted fellow, who will not only take good care of the ship entrusted to his charge, but of his fair wife also. God grant them a pleasant voyage over the sea of life!"

☞ The popular Aquarial and Zoological Gardens, Boston, afford a very pleasant and profitable entertainment to one who has an hour or two to spare. There has been collected there, a large number of fish and animals; among them two living crocodiles, and a handsome Moose. The last addition to the collection was a live white *whale* about twelve feet long. It was caught in a wier in the St. Lawrence, without injury, and carried by railroad from Quebec, in a tank of salt water well lined with sea-weed.

☞ It is reported that the Cheshire Light Guard of Keene, is composed mostly of farmers, and their average weight is 162 pounds. The Salem Register says they are "remarkably athletic, orderly, temperate, good looking, and well equipped."

☞ The funeral obsequies of Col. Elmer E. Ellsworth, in Washington on Saturday, and at New York Sunday, were very imposing. His remains were forwarded to Mechanicsville, near Troy, N. Y., the home of his afflicted parents, for burial.

☞ Last Sunday, at the Universalist Church in Malden, Mass., there was a presentation of a Standard to the Malden Volunteers, which is the gift of the ladies in that society. Rev. Mr. Greenwood preached an appropriate sermon.

☞ At the meeting of the American Peace Society, in Boston, on Monday, most of the speeches approved of putting down the rebellion, as a peace measure; and the president hoped the contest would be vigorous but short.

THE NEW PLANET.—The planet recently discovered by Mr. Tuttle has received the name Maia. Maia was the mother of Hermes, and the eldest and the most beautiful of the seven sisters known as the Pleiades, the daughters of Atlas and Pleione.

☞ A man named Wm. A. Harris, of Newtonville, who is held to bail on a charge of starving a herd of cattle, has been made to ride a rail, by a mob of his neighbors. Near the house of Mr. Wm. O. Coolidge, he fell off; Mr. C. picked him up, and got him away from the mob.

☞ Rev. H. Q. Butterfield was installed pastor of the First Congregational Church in Great Falls, on Thursday evening last. The charge to the People was delivered by Rev. W. L. Gage, of this city.

N. H. 1ST REGIMENT IN NEW YORK.

NEW YORK, Sunday, May 26.

Dear Chronicle:—A telegram having been received in this city that the N. H. Volunteers would arrive en route for Washington on Sunday, an informal meeting of New Hampshire men was held at the Brandreth House; at which place, Saturday morning, about two hundred collected, among whom were Messrs. Frost, Peterson, Peabody, Bonney, Ladd, Johnson, Cutter, Chase, Walker, and many others; from whom committees, both executive and financial, were selected, and officers appointed, to officiate at the intended reception. A subscription was also taken up for the purchase of a flag, and the meeting then adjourned till this morning at 7 o'clock, at which time between four and five hundred New Hampshire ites assembled, and having affixed their badges—"Sons of New Hampshire, 1861"—to their coat lappels, they marched to the pier, foot of Vestry street, where the boats were to arrive. Drawn up in line under marshals, Sidney Webster, Charles L. Frost, and Ralph C. Cutter, the meeting was organized, and A. Archibald Peterson, Esq., chosen chairman, who, on mounting a suspicious looking cask for a rostrum, remarked that "this ought to be a *spirited* meeting,"—which was regarded by the company as a joke!

The "Sons" then sang "My Country, 'tis of thee," "The Star Spangled Banner," "Old Hundred," and other patriotic songs, and the echo of the voices was wafted across the river, with the shrill whistle of steamers, and the clatter of the drums,—strange echoes for a Sabbath morn. Appropriate addresses were made by Doctor Chamberlain, C. L. Frost, Judge Peabody, and H. H. Perkins, and thus the delay incident to all occurrences of this kind, passed unheeded by, and in the midst of the festivities the steamers hauled into the dock, and the troops filed on the pier, in the midst of deafening and prolonged cheers, which increased as Col. Tappan and staff were introduced to the assembled crowd.

The regiment was then drawn up in line on the pier, and gave the salute to the "Sons," who, countermarching, took the head of the procession, which, in platoon lines of sixteen, moved up Vestry and Canal streets to Broadway, where a halt was ordered, and the donors forming a circlet around the troops, the beautiful silken flag, with its golden fringe, and stars flashing in the "noon-tide sun," was presented by Judge Bonney. The Colonel accepted it as a testimonial of the good wishes and kind feelings of his fellow-citizens of the Old Granite State, and promised that "so far as was in their power, his men would maintain the government, and its glorious flag in all its integrity, and bring back this beautiful present shrouded with glory or die in its defence." The banner was then carried along the line, and greeted with the wildest cheers, after which the regiment was escorted to the armory, where a bountiful collation had been prepared for them, which was welcome indeed, after their abstinence of twenty hours!

As the hundreds flocked around the table they presented a scene almost beyond description. Soldiers with fiercest appetites, eagerly replenishing the inner man, and the "Sons" performing *their* part gallantly, one furnishing coffee to a man in need, another water, while others were serving soup and eatables to different tables, and the rapidity with which the provisions disappeared foretells what grand results the regiment will hereafter achieve as a foraging party. The appetites of the first three or four hundred being satiated, the tables were replenished and the busy scene repeated till all were satisfied, when the men were granted a respite of two hours. At 5 o'clock the line was again formed, and the troops escorted down Broadway, through double lines of the New York firemen and several military regiments who had just before participated in the funeral of the brave Ellsworth, and as the soldiers of New Hampshire marched through, the words rang out from the four thousand firemen, "Remember Ellsworth!" Surely not only the New Hampshire men, but those all over the North will remember and avenge him.

They entered the Jersey Ferry depot amid another shower of cheers, and thus ended the reception, which, we learned from several of the men, with whom we conversed at dinner, was highly gratifying to the troops; but not more pleased could they be, than we were, to receive so good a corps of soldiers, so completely equipped and well prepared for the war campaign.

The long train of baggage wagons was a novel thing for Gotham; as new to the New Yorkers as was the hard pavement of Broadway to the Granite State horses.

Compliments were given on all sides, and it was universally conceded to be the best prepared regiment of the many which have passed through the metropolis.

Yours, as a Son of N. H.,

NEWINGTON.

☞ A Boston brig, the Elisha Doane, was captured near Sailila river, Georgia, by eight Georgia pirates, in a small vessel, without any commission; she was detained eight days, and then released.

WASHINGTON, May 27.—The Minnesota was expected to leave Fortress Monroe for blockade service off Charleston bar, to be followed by two or three other vessels.

A passenger who left Richmond yesterday, reports that the train brought 1000 South Carolina troops to the gap, and, that the entire number of Confederate troops there was estimated at 5000, tolerably well armed and equipped. They were throwing up entrenchments in anticipation of an attack.

To-day a small guard of men was ordered from Alexandria towards Fairfax Court House on a reconnoitering expedition. Some miles out they discovered a company of secession cavalry drawn up in a line.—Satisfied with the view, they retraced their steps, capturing on their way two of the enemy's picket guard, who were brought to Washington. One of them confirms the report that on Saturday afternoon there were about 700 rebel troops a few miles only from Arlington, but they prudently retired when they discovered the hurrying of troops from Washington. The War Department is satisfied of these facts from reliable quarters.

The State Department is cautious in granting passports to citizens of seceding States. Where there is reason to believe the applicants design going abroad on business connected with secession purposes, passports are refused, as has been the case in two or three instances lately.

BALTIMORE, May 27.—The writ of habeas corpus issued by Judge Taney, in the case of John Merriman was returnable this morning at the District Court. Gen. Cadwallader declined surrendering the prisoner until he heard from Washington. An attachment has been issued for Gen. Cadwallader, returnable to-morrow. Mr. Merriman is still in Fort McHenry.

Reports from Alaxandria this morning, state that the town is nearly deserted, those remaining being under apprehension that something terrible is about to happen. The troops are rapidly erecting fortifications commanding all approaches to the city.

The western trains are still detained by the rebels at Harper's Ferry.

NEWS ITEMS.—*New York, May* 28.—The greatest activity prevails in military matters in Richmond. The sentiment there prevailing is that the Federal troops at Alexandria must be dislodged.

Five thousand rebel troops were met last night on their way to Harper's Ferry, mostly only armed with revolvers, tied around their waists with cord.

There is great consternation among the Southern mail contractors, owing to the abrupt discontinuance of the southern mails.

The Wheeling Convention will be held June 11th.

Troops are arriving in Richmond at the rate of 500 daily.

Flour is selling at $15 at Richmond.

The cavalry captured at Alexandria now wish to join the rebel army.

The N. H. Regiment reached Washington at midnight of Monday.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Much research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, Mass., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that unpleasant irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

SECOND REGIMENT, N. H. V.—There are nearly enough men at Camp Constitution at the present time to fill the Second Regiment to its maximum capacity. On Monday evening, the Goodwin Rifles, of Concord, Carr's Rifle Rangers, a hundred strong, of Manchester, a company from Canaan, and another from Contoocookville, arrived at the camp. They were accompanied by a Band, and made a fine appearance as they marched through our streets on their way from the C. & P. Depot to the Barracks. A company from Nashua, under command of Capt. J. H. Rhoades, is expected soon.

On Tuesday morning Dignam's Band, of Manchester, which has furnished music for the Regiment during the past week, was discharged. The Portsmouth Cornet Band have been engaged to succeed them, and entered upon their duties Tuesday afternoon.

The names of seventy members of Capt. William O. Siles' Company appear on the muster roll of the Second Regiment. On Monday the Captains, who have acted in the capacity of recruiting officers, were ordered to cease enlisting, and the several recruiting offices in the State were closed. This order was given because a sufficient number of men had been enlisted in the State to fill the Regiment.

Those members of Capt. Sides' company, who have not re-enlisted, have been discharged. Those of other companies, who have not re-enlisted, will remain at Fort Constitution for the present. The ultimate disposition of these is not yet fully determined upon, but it is probable that they will be discharged within a short time. We presume that no one would question the propriety of such a course, as the expense to the State of retaining such men in camp would amount to no inconsiderable sum, and there could be little benefit to any one accruing from their longer detention.

TO MILITARY MEN.—As there are several drill clubs forming in this city, we would recommend to any in want of a Drill Master, to Mr. J. B. Remick, who is well qualified to teach any who may wish to shoulder the musket. He may be found at the Franklin House.

☞ Major Eastman, who has charge of the recruiting in this State, and has been engaged recently in filling our first regiment, is to come to Camp Constitution immediately, to attend to the mustering into service of the Second.

☞ Capt. Towle's company of volunteers were out on drill in the city, on Tuesday afternoon; over 50 men. They would soon have been 100, but for the order to stop recruiting.

SLEEP FOR CHILDREN.—Let the little ones get all the sleep that nature allows them. Nature will do that in a kind, gentle way. If they do not arise in season, send them to bed earlier and earlier every night, till they can be dressed in season for breakfast without losing any sleep. If you do not want your children to have the brain fever, or water on the brain, do not let them study in the evening. Do not lecture or scold them before retiring.

☞ The last accounts respecting the earthquake at Mendoza are even worse than those previously received, as it has been ascertained that upwards of eleven thousand people perished in this dreadful catastrophe. The details of the sufferings of the survivors are very sad, but throughout Chili everything was being done to relieve the distress.

☞ According to the latest intelligence from Liberia, the Republic is in a prosperous condition. Sugar-making is on the increase; also the culture of coffee, cotton, and other tropical productions. The multiplication of interior settlements is now under consideration.

☞ The Cape Ann Advertiser informs us that the fishing season thus far has not proved as successful as usual, owing to scarcity of fish and the small prices obtained for those which have been caught.

Two farmers have just had a novel law suit at Granger, N. Y. They had steers so much alike that neither knew "tother from which." Recently, both animals were in the road, and one was killed; which, had to be determined by the law suit.

☞ The St. Louis, Alton and Chicago Railroad was sold on Thursday last to the bondholders, under mortgages for $6,000,000, the sale being for $500,000.

☞ A fire in Portland, early Saturday morning, destroyed ten buildings, and turned a number of Irish families into the street, from their beds.

BALTIMORE, May 27.—The New Hampshire Regiment passed through here to-day, en route for Washington.

☞ Forty children in one school at Rockland, Me., were sick with the measles last week. The school was discontinued.

Who is a very unpopular officer with some ladies? General Housework.

Which is the best way of retaining a young woman's affections? By not returning them.

If you marry a scolding wife, your children will be hot-house plants.

For the Chronicle.

OUR FLAG.

Our flag is the flag of the free,
Its broad stripes cover the sea.
Our flag is our pride and our glory;
Hurrah for the flag of the free!

Our flag floats over the main;
Its stars shall ne'er know a stain;
Our flag is the flag of liberty—
Three cheers for the flag of the free!

O, the flag of the free is the flag for me,
Its stars and stripes I love to see;
The star-spangled banner's our watchword and cry,
And under its folds we'll conquer or die.

Our flag is insulted and torn,
Its protection and honor they scorn;
The rattlesnake's hideous folds they claim,
But the rattlesnake flag is the flag of shame.

We'll trail the rattlesnake flag in the dust,
And its venomous head by our heel be crushed;
No more shall its folds float out on the sea,
For that flag must bow low to the flag of the free.

No stunted Palmetto shall o'ershadow the free—
Its shade is the shade of the Upas tree;
We'll uproot the deadly poisonous thing,
And low in the dust its branches fling.

O, the stars and stripes nought can sever,
Its glory unsullied shall be;
Three cheers for the Union forever!
Hurrah for the flag of the free!

The flag of our grandsires hoary,
The type of the good and the true;
We'll crown it with blood bought glory;
Hurrah for the red, white and blue!

S. A. W.

NEW YORK, May 27.—Capt. Miller, of barque Sarah, was arrested to-day, charged with fitting out that vessel for the slave trade.

The Colonel of one of our Zouave regiments has not been heard from for ten days, and $24,000 raised for his regiment is missing.

A merchant was arrested to-day by Superintendent Kennedy, for using seditious language.

The Commercial's Washington dispatch says that the Zouave sentenced to be shot was pardoned to-day.

The Post's Washington dispatch says that another military movement is on foot, but the government keeps it strictly secret. Harper's Ferry advices state that the rebels there are greatly alarmed at the government movements and expect momentarily an attack.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen' Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our Merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable table Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 60, 65 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Office of Ayer & Co., Lowell, Mass., June, 1850.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and threatened me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Dunstable and got it, and used it till it cured me. I took it, as you advise, in small doses at a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel well when I am saying when I tell you, that I hold you to be one of the benefactors of the age, and remain ever gratefully. Yours,

ALFRED E. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1850, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the powerving use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous tumor became on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your *Extract of Sarsaparilla*. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1850.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disease would soon reach his brain and kill him, but it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfigurement to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great Remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Independence, Preston Co., Va., 6th July, 1850.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful rheumatism for a long time, which defied the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and has kept me free and healthy so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAS.

John T. Gatchell, of St. Louis, writes: "I have been afflicted for years with an affection of the *Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the *Liver*. My beloved pastor, the Rev. Mr. Hepp, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to leave me sound of me. I feel young again. The best that can be said of you is so not too strong to express my gratitude."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them are published in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical men of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its wonderful efficacy for coughs and colds, and its truly astonishing cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some sad tragedy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won it so strongly upon the confidence of mankind.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD Bourbon as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and *strengthen*; while age having contributed its genial charm and enriched it with a delicious flavor and an oily body, it affords a pleasant beverage conducive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out salt entirely—eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief. I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever took.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for **Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.**

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEFEBVRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by Dr. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or ROWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers, or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address,

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MAY 30, 1861.

STATE ITEMS.—W. H. D. Cochrane, head clerk in the Quartermaster's department of the First Regiment N. H. V., and formerly student in the law office of Wm. C. & S. G. Clarke, was presented with an elegant dress sword by the members of the bar in Manchester. It was a handsome testimonial, well bestowed.

On Saturday a resident of Newton, named Gilbert Carleton, made himself very obnoxious in one of the grocery stores, by using strong secession language, and the most abusive threats towards Company G. and Union men generally. He was remonstrated with, but upon persisting in his outrageous tirade, was compelled to leave the town, amidst a heavy fire of rotten eggs.

Dr. H. B. Ayer, a native of Manchester, reports to the Rochester Democrat that he has just escaped from Houston, Texas, where he was saved from the fury of the mob by a brother of Col. Anderson. His offense was that he avowed himself to be a Union man.

At the annual meeting of the Boston, Concord and Montreal Railroad, held at Gilford, Tuesday, John E. Lyon, Holmes Hinkley, Alexander H. Tilton, John L. Dix, Joseph P. Pitman, John A. Parks and Jos. W. Lang, were elected directors for the ensuing year.

Some sacrilegious wag raired an inscription on a mound of clay that has obstructed the southerly sidewalk on Washington st., Dover, for the last four days, with "Sacred to the memory of Daniel Ham." Such manifestations of disapproval of the right of one citizen to obstruct the travel of a hundred, is manifestly improper, and should be frowned upon.

Arrangements for the ceremonies of Election Day (Thursday of next week) are being made, which will be participated in by the Governor's Horse Guards, the Amoskeag Veterans, the Home Guards of Concord and the Home Guards of Fisherville.

There has yet been but little real summer weather, and farmers are late about their work. Grass, however, looks well, and this should be encouraging, for Helper says "*Hay* is King," instead of Cotton. Besides the latest spring is not necessarily followed by the lightest harvest. More breadth of land is sowed and planted this year than usual, and it is probable that more will be produced by farmers than perhaps ever before.

☞ A singular libel suit has just been tried in Boston,—"George, the Count Johannes vs. the Bee Printing Company."—In the Bee's account of the Prince of Wales' Ball at the Boston Academy, this expression occurred:

"There stands also a soi disant Count, with his decoration, given by the Grand Duke of Pumpanickel, or, bought from some similar august personage."

The declaration in the writ is in nine counts, seven of which are, substantially, iterations; one charges inuendoes that were capable of a bad construction.

The plaintiff being put upon the stand, testified that "the title was bestowed upon him by the Imperial Count Palatine Sartori, in consideration of his literary and historical works and intellectual ability." The result was, $10,000.00 claimed—$00,000.01 awarded.

There has never been an instance in history, in which a nation, in so short a time, displayed such vast power as that put forth by the United States within the last thirty days. From a condition of profound peace, more than 200,000 men, thoroughly armed, equipped and provisioned,—all drawn from avocations they were quietly pursuing,—have been put in the field. The number might have been increased to 220,000 or 300,000, had the call embraced so many.—Within three months, the number might be raised to 400,000 men, all eager to enroll themselves, who appreciate thoroughly the nature of the contest, and who are prepared not only to fight, but to die for it. This immense host is only the advance guard of 20,000,000 people, who freely proffer themselves and their whole means for the contest. Such a power is irresistible.—*Boston Post.*

NEW COUNTERFEITS.—Counterfeit Threes on the Continental Bank, Boston, are in circulation. The paper on which they are printed is of a darker color than the genuine bill, and is thus easily detected. Counterfeit bills of the denomination of Fives on the Howard Banking Co., (now Howard Bank) are in circulation in Boston. For security, refuse all Fives of that plate.

☞ The Dover Union states that Aaron Young, Esq., of that city, has received an appointment as inspector in the Portsmouth Custom House.

RELIEF FUNDS.—The Dover Union says that complaints are made in that city, that there is a want of efficiency in the arrangements made to supply the wants of the wives and children and others, dependent upon those who have gone from this State to fight *our* battles. One of the Dover men in the 1st Regiment said that when he enlisted, profuse offers of assistance were made,—his wife should lack nothing. But no one has called, nor has she been aided in any particular. This is an isolated case, but measures should be taken to supply the wants of all such, throughout the State. The pride of many will prevent their applying for assistance; they should be sought out and supplied, nor should their names be published in the City Accounts afterwards. If this thing is done handsomely, kindly and considerately, the soldier, sleeping on the cold ground, or deprived at times of food, will endure it better when he recollects that his own at home are amply provided for.

Probably enough money has been subscribed already to carry through properly all necessary measures of relief. The only thing now requisite is *system*: a few energetic men in each town,—who should be private citizens of undoubted integrity,—will be better than large committees of relief. But every patriotic citizen has a duty to perform, and that is to see to it that such men are selected, and empowered to receive the funds and distribute them in such a manner as will be most advantageous to those who require assistance. We have not a doubt that the people of New Hampshire will be faithful to their trust.

☞ The Portland Advertiser states that "O. L. Towle, Esq., the gentlemanly conductor on the P. S. & P. R. R., was called on last Saturday evening by Messrs. Witherell and Akerman, who, in behalf of the employees of the road, presented him with a beautiful Gold Badge, as a token of their respect and esteem. Mr. Towle is one of the most efficient and obliging conductors we have ever met, and while he is faithful to the interests of his employers, he attends carefully to the wants of those who ride with him. The P. S. & P. R. R. Co. are fortunate in retaining so long in their employ a *man* who is so justly a favorite with the travelling public."

☞ Corporal Tyler, of the Massachusetts 6th Regiment, was one of the wounded at Baltimore. In describing his experience he says he saw a man with three stones under his arm and one in his hand, pelting away at the troops; he fired at him, and to use Tyler's language,—"*the man dropped the bricks and laid down.*" There is a deal of Yankee in this roundabout phrase.

☞ Another copper mine has been discovered in the township of Cleveland, Canada, about three and a half miles from the Richmond station on the Grand Trunk Railway. The bed which contains the ore is in one place twenty feet thick, as seen on the surface, and shows in several places the green carbonate of copper. One of the specimens assayed at Boston produced 57 per cent. of pure copper.

☞ There is at present a snow bank in Buckland, Me., near Silas Bigelow's residence, eight or ten feet deep, and covering nearly a quarter of an acre. It is on the east side of a hill, and is well exposed to the rays of the sun, when there is no cloud between. Hezekiah Ward got snow from the same place on the 13th of June, 1857.

☞ Mr. G. L. Bailey, an ingenious mechanic of Portland, has invented a machine for folding newspapers, which is a most simple and complete contrivance. It takes the papers from the table of the press as fast as printed, and delivers them, altogether of its own motion, more neatly and evenly folded than is usually done by hand.

☞ Mr. Hassaurek, our new Teutonic Minister to Ecuador, is a funny man. It is said that he "thanked the President for having appointed him to the highest place in his gift."—that is, 9500 feet above the ocean, the altitude of Quito, the capital.

☞ Lieut. Amazeen, is to have command of the revenue cutter Caleb Cushing, now lying at East Boston, where she is having a complete overhauling of her masts, rigging, sails, &c. She will sail in about ten days for the Chesapeake Bay.

THE NEW HAMPSHIRE FIRST REGIMENT.—The New York Commercial Advertiser says the New Hampshire First Regiment is more completely equipped than any regiment that has left that city or passed through it.

FRANKFORT, KY., May 28.—The Border State Convention to-day, adopted Mr. Crittenden's original amendment proposed in the Senate of the United States, with such amendments as will secure the slave States just and equal rights under the constitution.

Governor Magoffin was present and invited to take a seat in the convention. John Caldwell appeared for McMunn and Sevier counties, Tennessee, as advisory and consulting friend.

UNDER THE WASHINGTON ELM,

Cambridge April 27, 1861.

BY OLIVER WENDELL HOLMES.

Eighty years have passed, and more,
Since under the brave old tree
Our fathers gathered in arms and swore
They would follow the sign their banners
And fight till the land was free. [bore.

Half of their work was done,
Half is left to do,—
Cambridge, and Concord, and Lexington!
When the battle is fought and won,
What shall be told of you?

Hark!—'tis the south wind moans,—
Who are the martyrs down?—
Ah, the marrow was true in your children's bones
That sprinkled with blood the cursed stones
Of the murder-haunted town!

What if the storm-clouds blow?
What if the green leaves fall?
Better the crashing tempest's throe
Than the army of worms tha gnawed below;
Trample them one and all!

Then, when the battle is won,
And the land from traitors free,
Our children shall tell of the strife begun
When Liberty's second April sun
Was bright on our brave old tree!

BALTIMORE, May 28.—The Virginia camp opposite Williamsport was reinforced by two cannon and two additional companies, on Sunday.

Mysterious movements have been going on in the camp. The ferryman was warned to permit nothing except the mail to pass after 11 o'clock to-day. The camp is guarded with great care, and neither friend nor foe is permitted to visit it. Only two companies have been on parade Friday.

All this may be a mask to cover a retreat, or it may be that the troops are preparing to cross the river into Williamsport. The camp is in the toe of a horseshoe, where its provisions and all possibility of a retreat might be easily cut off. Manifestly this is what Col Allen fears.

On Sunday night a deserter swam the Potomac and escaped into Pennsylvania.

WASHINGTON, May 28.—Five transports with 2500 troops, convoyed by the Harriet Lane, went up Hampton Roads towards James River and took possession of New Point and entrenched themselves. The position is important as it commands the mouth of the James River, about six miles from Hampton.

The Yankee brought to Washington to-day three prizes, one at least loaded with tobacco.

Information has been received that over 2000 Ohio troops from Camp Dennison took possession of the Northwestern Virginia Railroad from Parkersburg to Grafton, distance 80 miles, and proceeded in the latter direction. A large number of Ohio troops crossed the Ohio river three miles from Wheeling for the same destination. This is indicative of events at Harper's Ferry.

GUNBOATS TO BE BUILT.—*Washington, May 27.*—Proposals will be issued to-morrow by the Navy Department for the building of between 30 or 40 steam propellor gunboats for the use of the Navy. The boats will be about five hundred tons burthen. It is the purpose of the government to distribute them among all the principal shipbuilding establishments north of Washington, in order to complete them with the utmost dispatch. The proposals for the machinery for these and the other ships to be built will be issued at the same time.

Secretary Welles will recommend the immediate building of from two to five large iron war steamers, which are much needed in the Navy, or the purchase of them from some foreign country.

☞ The Richmond Examiner is some what alarmed at the extent of the government's preparation. It says:

To prevent the imminent wretchedness, the indescribable calamity that hangs over us, there is but one thing to do, and that is, to hurry up the troops to the rendezvous, and to concentrate the armies that must save us if saved we can be. Virginia alone is perfectly able to turn the current of invasion; and she will do it perfectly well if her force is handled with decision and intelligence. She can meet and beat an army of fifty thousand volunteers with absolute certainty; and that is more than the North can raise before the crisis of the danger is passed. But if our rulers are imbeciles or traitors—if our generals are timid or incompetent, then, be sure of it, we are a lost people.

FROM NORFOLK.—*New York, May. 28.* A special dispatch from Baltimore to the Herald says that according to the statement of a gentleman from Norfolk, a reinforcement of 20,000 troops, arrived on Friday, Saturday and Sunday. No apprehensions are felt that the place will be taken.—Twenty-eight car loads of troops passed through Petersburg on Saturday. He thinks there were 15,000 troops at Richmond. Measures are being taken to defend the later place. Batteries have been erected on York River.

☞ An Alabama paper gives notice that U. S. postage stamps will not hereafter be received in payment of debts due it. The Concord, N. H., Patriot, publishes the fact, and adds:—

We beg leave to remind the editor of that paper, and ask him to publish it, that U. S. postage stamps will be gladly received by us in payment of seven or eight little bills, amounting in the aggregate to about $50, due from certain citizens of that State, some of whom have informed us that they will not pay them! As postage stamps are regarded as "worthless" in that latitude, these very *honest* and *honorable* gentlemen can pay these debts very cheaply.

ST. LOUIS, May 28.—The Pensacola correspondent of the Mobile Advertiser says that Lord Lyons has written to the British Consul at Pensacola recognizing the blockade in the name of the British government, and warning English vessels of its effect.

A constable pursued a thief, who took refuge on a stump in a swamp, and pulled the rail after him, on which he went in.—The constable made the following return: "Sightable—conversable—non est comatable—in swampum—up stumpum—railu."

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

Dr. JAMES L. LEFFERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its virtue."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, Mass., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

SECOND REGIMENT, N. H. V.—The exact number of those members of the Volunteer Companies, who enlisted under the provisions of the three months' call and have since re-enlisted for three years, is 496. These formed the nucleus of the Second Regiment, and to them have been added the following companies, all the members of which were originally enlisted for three years, viz.—Exeter, 61 men: Hampton, 41; Dover, 101; Manchester, 100; Contoocook, 72; Concord, 92; Canaan, 14; Peterborough, 60. Total, 541. Of this number but twenty-one were discharged on examination by the Surgeon of the Regiment,—every member of the Peterborough Company, sixty men, being accepted.

At Fort Constitution there are 303 men who enlisted for three months. The difficulty the State Government now has, is not to find recruits but to find a place for them. The 1016 volunteers at present at Camp Constitution more than fill the 2d Regiment, and it is understood that a Nashua Company of 100 men, which had been ordered here, was stopped on Tuesday evening at Concord, and stationed at Camp Union.

Hon. Gilman Marston of Exeter has been appointed Colonel of the 2d Regiment N. H. Volunteers, in case Col. Pierce resigns.

ABOUT THAT UMBRELLA.—*Messrs. Editors*:—Pardon my intrusion, but I have a word as to that umbrella of which you speak in a late number of the Chronicle—the one purchased by Mr. Wiggin, and held by him at Wibird's Hill over the head of Lafayette, when he visited Portsmouth. I have no doubt about the umbrella, and none of Mr. Wiggin's connection with it, as stated in your paper. My question is, Who held the umbrella over the head of the old hero, as he passed down Wibird's hill into the town? Memory has always told me, very distinctly, that this courteous act was performed by William Ham, Esq., a member of the Board of Selectmen—perhaps chairman. I was a boy then, and saw the venerable Marquis for the first time just as he reached Wibird's Hill.—This may be a very small question, but there can be no harm in asking it, since that umbrella has been announced, which I hope may be preserved a thousand years.

A PORTSMOUTH BOY ABROAD.

☞ We trust all of our readers will remember that the *Oratorio of Esther* is to be performed at the Stone Church this evening; and that they will not only remember, but also attend it. Seven ladies and six gentlemen, who are some of the best vocalists in our city, have been making the arrangements recently, and have attended frequent rehearsals, to enable them to offer one of the most brilliant musical entertainments ever afforded our citizens. The Concert will open with the National Song "Star Spangled Banner," to be performed by 33 young Misses, each waving the Stars and Stripes; and, during the intermission between the parts, they will sing an ode,—"Our Flag."

The proceeds are to be devoted to the benefit of the families of the volunteers from this city, and thus patriotism and a desire to enjoy good music will combine to fill the beautiful church to its utmost capacity.

☞ The exhibitions of Wambold & Co.'s Double Show were largely attended,—so much so, in fact, that it became necessary in the evening to erect a large number of extra seats for the accommodation of the crowd. The performances were all of a high order, and the audience remarkably quiet and orderly, except once or twice when allusion was made to Jeff. Davis and the rebels. *Then* a hoarse shout arose, from volunteers and citizens alike, and for a moment the mass swayed to and fro with the torrent of feeling.

☞ The Cheshire Light Guard of Keene returned to this city Wednesday evening, and were duly received with military escort and Band.

☞ Late advices from California, state that the Union feeling is so prominent that there will probably be no disturbance of the peace in California.

The Republican State Central Commitee have issued a call for a convention of Union men, irrespective of party, to meet on the 18th of June. The Republicans do not design to give up their organization but to adopt a Union test without reference to other issues.

☞ By the Traveller Extra, of Wednesday evening, we learn that on Monday morning, the 1st Virginia regiment of U. S. troops moved from Wheeling toward Grafton, — and two Ohio regiments crossed into Virginia, to support them. Gen. McClellan publishes a friendly proclamation to the loyal citizens of the U.S. in Virginia. Pennsylvania troops are moving down towards Harper's Ferry.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

WASHINGTON NEWS, MAY 29.—Government is officially informed that in fifteen days the blockade will be effective on both the Atlantic and Gulf coasts.

Travel was resumed to-day with Alexandria, by ferry.

Col. Butler, brother of the General, had an interview with the Cabinet this morning. He brings information that over 100 slaves have taken refuge within the U. S. lines at Fortress Monroe. His mission is to obtain instructions in regard to the disposal of them. It is understood that Gen. Butler's course will be endorsed. [Gen. B. holds them as contraband, and gives them work. This is right.]

300 of the 2d N. Y. Regiment refused to be sworn in to-day, and were stripped of their uniform. Disaffection was undoubtedly caused by the bad commissary management.

All quiet at Fortress Monroe. Gen. Butler has 10,000 men there, but will not move till he has 10,000 more.

Gen. Butler on Tuesday ordered five vessels and 2500 men to Newport Point, where fortifications were immediately commenced.

Details of a new levy of 100,000 men will soon be made.

The New Hampshire Regiment was received by the President to-day.

A dispatch to the N. Y. Times says it is undoubtedly the intention of Judge Taney to bring on a collision between the judicial and military departments, and if possible to throw the weight of the judiciary in favor of the rebels. He was heard to say that he wished the Virginians would wade to their waists in Northern blood.

The President said to-day that all full regiments must be forwarded in a few days.

A slave insurrection has broken out near Baton Rouge, La. On one plantation all the whites were murdered and the house burnt down.

[We have no room to record the various movements of troops.]

DULL TIMES are the very best for advertisers. What little is going on, they get; while others are grumbling, they pay their way; and with the newspaper for a life preserver, swim on the top of the water, while others around are sinking.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen' Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our Merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal.

STEAMER CLIPPER.
This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.
Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the distinct and comfort of steam passage on the river, and the safety of sailing vessels outside.
There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.
The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.
Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.
"IN THE MIDST OF LIFE WE ARE IN DEATH."
The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.
THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,
THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.
The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OXLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was recalled to mind in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation, that any thing you made must be good. I went to Greenwood and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas*, which threatened to terminate fatally by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures more common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by alteration of the uterus. The abscess itself was soon cured. Nothing within my knowledge equals it for those female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks all symptoms of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, but of course without some disfigurement to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pains in her limbs and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this preparation from your laboratory must be a great remedy; consequently, those truly remarkable cures with it have not surprised me.

Yours, fraternally yours, G. V. LARIMER, M. D.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stubbornly resisted all of the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am a fleshy man. My wife and all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am a fleshy man. My wife and all the family are much improved by it.

Yours, respectfully, JOHN S. BARNES.

RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 50 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1859.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

HUTCHINS' HAIR DYE,
THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.
The great superiority of this Dye consists in its easy application, having but one preparation It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it, it adds the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said: "*As it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by Dr. C. F. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in Paris, causing a Parisian to be in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address,

FRIDAY, MAY 31, 1861.

SUNDAY CHRONICLE.—For the accommodation of our subscribers, and the over-anxious public generally,—and *not* for our own pleasure or profit—we shall hereafter publish an Extra Chronicle on Sunday Evening, about 6 o'clock—whenever there is any news of interest or importance received in Boston on Sunday. The price will be 3 cents per copy—at which rate we may perhaps get back half of our expenses of publication—so those who wish to contribute to the fund which is to be raised to secure the receipt of telegraphic dispatches whenever there is anything worth sending from Boston, from the war—can do so at our counting-room. The cost to us, above receipts, for what Extras we have issued, has been say $40 or so. Who says "2 cents is too much for half a paper?"

WEEKLY CHRONICLE—To the very few subscribers who are in arrears prior to Jan. 1, 1861, we shall send no papers after this week, unless they pay up before our next issue. Any man who wants to take a paper for only $1 a year, and not pay even that, is—well, is not the kind we want on our list.

GENERAL COURT.

Next Wednesday is the commencement of the political year in New Hampshire.—On that day Governor Berry will be declared elected, take the oath of office, and enter upon his duties as chief executive.—These duties are much more arduous than usual, in consequence of the war forced upon us by the cotton rebellion. We hope he will prove himself equal to the emergency.

On that day commences the session of the Legislature. Both branches will be speedily organized and proceed to business without more delay than the usual preparations by committies, &c. Besides the usual amount of business, there will come up the organization of the Volunteers, the expenses of their outfit, and the reorganization, or rather the revival of the militia system.

These items are urged upon us by the circumstances of the day,—and will no doubt receive proper attention and action.

Of local legislation we suppose there will be less than usual, and also of private bills.

There is to be, by request, an Election Sermon;—and the Governor's Horse Guards will parade, thus bringing back much of the former interest of election day, and making it worth while for any one to visit Concord on *that* day, rather than some other.

☞ The confederate thieves and rebels are trying hard to get up a navy. The New Orleans Delta reports that the revenue cutter Washington, stolen from the government, has been rebuilt, and only awaits armament to go into active service.—The Star of the West, also stolen, the McRae, formerly the Marquis de Habana, and the Sumter, formerly the Miramon, strong steamships, are being fitted up with great rapidity and completeness for service. Several privateers are also making ready for their piratical work.

NAVAL.—The officers and crew of the U. S. ship St. Louis, now at Key West, are about to be relieved. The St. Louis has been about twenty-nine months in commission, and her ship's company have so annoyed the government with applications for relief, or home orders, that they will probably be allowed an unconditional furlough. It is said the new hands for her will be drafted from the North Carolina at New York and the Ohio at Boston.

☞ It is rumored that Lesseps has just returned from Egypt to Paris to raise further funds for the prosecution of the Suez canal. According to some accounts, about £800,000 has already been spent without adequate result, an expensive dyke on the Mediterranean side having been washed away.

ST. LOUIS, May 29.—A regiment left this afternoon for Bird's Point. It is untrue that Gen. Harney has authorized the formation of Home Guards in the principal cities of this State.

Col. McArthur's regiment of Illinois volunteers left Carysville, yesterday, under orders to proceed Southward. Col. Blair's regiment is under marching orders and expected to move toward Virginia in a day or two.

☞ The Washington correspondent of the New Orleans Picayune speaks of "Gen. Scott's reticence, which hardly allows one hair of his head to know about the other."

STATE ITEMS.—Among a company of recruits who had arrived at Concord from the northern part of the State, on their way to this city, there was one in the ranks barebacked. A man on a pedlar's cart, with his arms full of goods, happened to see him. Quick as a flash he dropped the goods, jumped from his cart, and, taking his own cap from his head, gave it to the soldier.

The first New Hampshire Regiment was reviewed by the President on Tuesday.—They are encamped at Kaloramo, on the ground lately occupied by the N. Y. Eighth Regiment. The nurses accompanying the regiment were presented to the President on Tuesday.

John Tredick has been appointed Postmaster at Union Village, vice C. E. Swinerton; and James A. Chesley, Postmaster at Wakefield, vice Samuel H. Smith.

Col. Wingate Hayes, formerly of this State, has been appointed District Attorney of Rhode Island by President Lincoln. He is a prominent lawyer of Providence, and was formerly Speaker of the House of Representatives.

Col. Samuel Snell of Dover presented the 2d Company of Volunteers with an ancient Bugle, a relic of the old French and Revolutionary wars, previous to their departure for this city.

The next annual session of the New Hampshire Convention of Universalists will be held in Manchester on the third Wednesday and Thursday (19th and 20th) of June, 1861. The Council will meet in the Universalist Church on Lowell st., at 9 o'clock, Wednesday morning. The afternoon of Wednesday will be devoted to a consideration of the interests of the Sunday School. Each Sunday School in the State is entitled to one delegate, who will report its condition to the meeting. The Occasional Sermon, by Rev. A. J. Patterson, (Rev. T. Barron substitute,) will be given on Thursday morning.

One Albert Nay, who so recklessly discharged a toy cannon into the crowd at the time the regiment of volunteers passed through Manchester, the ball hitting Miss Bullis, has been fined $3 and costs, $3.54. Nay says he did not know that the cannon contained a ball, as he did not load it.

Barnard Page of Thornton, who shot George W. Ayers on Friday of last week, has been examined and committed to jail for further examination. He pleads self-defence for the crime.

Most of the volunteers who were left at Camp Union on account of sickness, will be in condition to join the regiment soon.

The Goodwin Rifles, of Concord, previous to their departure for this city, each and all entered into a pledge of total abstinence from intoxicating drinks.

Nathaniel White Esq., manifested his usual degree of liberality on Saturday last at the departure of our troops. When they were seated in the cars he went to shake hands with the Concord Company, and in doing so, left a two dollar bill in each man's hand. Such shaking of hands as that, must be gratifying. Many of the soldiers who were not acquainted with Mr. White were heard to say, "We do not know who that man is, but we will fire a few shots for him."

HORSE GUARDS.—Company C, Capt. M. C. Burleigh, had their first full dress parade and drill, as a separate organization, at Great Falls, on Wednesday last. About thirty members and guests sat down to a good dinner at the Great Falls Hotel.—The Great Falls Cornet Band, riding in a carriage, supplied very acceptable music—and the affair furnished quite a gala occasion for the citizens.

Besides the uniformed members, a large number of Dover and Great Falls gentlemen, mounted, "fell in" with the ranks on parade.

Rev. S. A. Collins, of the Great Falls Baptist Church, was elected Chaplain of the Company. He was one of the guests at the dinner, as was also his brother, editor of the Great Falls Advertiser, both of whom we found to be very agreeable gentlemen. Capt. Burleigh is a very efficient and popular officer, and the prospects of the third Company seem fair for its being ultimately as large as either of the older ones. The Portsmouth members drove up in carriages; and on returning, Thursday morning, pronounced it a very pleasant and satisfactory excursion.

NEW YORK, May 29.—Steamer Empire City, arrived to-day from Fortress Monroe, reports that the Harriet Lane had captured schooners Catherine, of Newburn, and Iris, of Baltimore, both laden with naval stores.

Transport steamer Alabama has arrived from Hampton Roads with prize bark Winifred, of Richmond, from Rio Janeiro, in tow.

NEW YORK, May 29.—The frigate Niagara arrived at Havana 19th, and sailed on the 23d on a cruise. The gunboat Huntsville arrived at Havana on the 22d.

CINCINNATI, May 29.—Richard Harrison, the Union candidate, is elected to Congress from the 7th Ohio District to fill Tom Corwin's vacancy.

☞ Any one desiring it, may obtain a Card Photograph of Col. Ellsworth, at J. A. Shores, Jr.'s Bookstore. Price 25 cents.

THE NEW YORK RECEPTION.

Our valued New York correspondent, "Newington," has kindly furnished us, in addition to his graphic description published Wednesday, with the following interesting list of the Sons of Portsmouth who participated in the munificent reception given to the 1st Regiment N. H. V. in that city, on Sunday last, every part of which was carried out with that spirit of hospitality which ever characterizes the New Yorkers, who deemed it an especial honor to be allowed to welcome their fellow-citizens of the Old Granite State on this occasion.

Prominent among the company was the venerable Mr. Peterson, formerly of the U. S. frigate Constitution, now nearly eighty years of age, but as hearty and vigorous as when in the prime of life.

The list is eminently worthy of preservation:

Wm. A. Walker; George E. Menlum; Charles L. Frost; William E. Hadley; Daniel D. Badger; Winslow A. Nowell; John S. Jenness, Jr.; Lawrence M. Bennett; J. D. Simes; J. Henry Bowles; Jonathan M. Tredick; Ralph C. Cutter; Ralph C. Cutter, Jr.; William P. Bennett; Thos. Bailey Aldrich; Thomas P. Salter; Alfred A. Hall; James W. Emery; William B. Johnson; Jos. C. Brodhead; William H. Thomas; Samuel J. Nowell; Archibald A. Peterson; Geo. W. Pedrazzi; J. Lorin Jones; S. Lewis Jones: Joseph Hall; J. W. Carr; Capt. Tucker; Wm. Walker; Joshua Goodrich; H. S. Bodge; W. S. Goodrich; A. G. Goodrich; Samuel Scott; Henry H. Ladd; B. Frank Badger; Eli M. Robbins; Josiah Haley; Jos. Rea; Daniel E. Paul; Thomas P. Curtis; L. Livingston Frost; Howard D. Lowd; Cyrus P. Spalding; Tunis D. Wendell; George Philbrick; ——— Wendell; Samuel G. Brewster; Henry W. Prescott; John E. Fishley; John E. Chase; George S. Phyfe; James T. Simes; William S. Chase; O. W. Salter; Benjamin Salter; Edwin A. Peterson; Charles E. Stokells; George F. Peterson; Orlando Yeaton; Charles C. Yeaton.

The following named gentlemen were appointed a Committee of Aid and Correspondence, to render assistance to the N. H. Volunteers, in any case where their services may be available, and to make the necessary preparations for the reception of the 2d Regt., in the event of its transit through the city:—Robert Colby, New London; W. M. Chamberlain, Hanover; John P. Marsh, Rochester; Charles E. Soule, Exeter; Levi P. Morton, Bristol; George E. Mendum, Portsmouth; L. L. Britton, Oxford; George H. Moore, Concord; John L. Hanson, Dover.

WASHINGTON, May 29.—Carl Schurz has been deprived of the gratification of proceeding with his brigade to Fortress Monroe. His leave of absence as Minister to Spain was to-day revoked, and he will at once enter upon the discharge of his diplomatic functions at Madrid.

The Secretary of the Treasury telegraphed to the Collector at Cincinnati an order to facilitate supplies of goods to the loyal citizens of Virginia entering at the port of Wheeling, that section being exempted from the restrictions of the blockade.

A statement by the friends of Ex-Governor Banks, that he has accepted the appointment of Brigadier General and Quartermaster-General in the army affords much satisfaction among all classes.

The general character of the correspondence here shows a better understanding in European capitals of the condition of affairs in this country.

☞ In the General Assembly of the Presbyterian Church, (Old School,) Rev. Dr. Spring offered a resolution "to promote and perpetuate so far as possible the integrity of the United States, and to strengthen, uphold and encourage the Federal Government in the exercise of all its functions under our noble Constitution."

A Rev. Mr. Baker, of Texas made a speech for silence, ending with a threat that if such measures were pursued, the 24 Southern members present "would return to their beautiful and glorious South, their fortunes linked with it, and their lives given to its defense."

The vote was then taken on the question of laying the whole subject on the table.—The Assembly refused to lay on the table, —yeas 74, nays 139. The scene during the speech of Mr. Baker and the ballot was marked and interesting. Men with tears in their eyes, provoked by the eloquence of the young Texan, voted for Dr. Spring's resolution, and the resolution alone was a test of feeling in the Assembly. Many of the Southerners left that night, and some, it is said, would make farewell speeches next day.

The yeas are supposed to represent the strength of the party which desires the Assembly to preserve silence on the loyalty question.

THE STATE OF VIRGINIA.—A Richmond correspondent of the Charleston Courier expresses the opinion that about twenty counties of Western Virginia will secede and form a new State.

Not so; they will *adhere* to the United States, and send Representatives to Congress, who will hold seats there. They may also choose a Governor, make new laws, and be really *The State of Virginia*,—the eastern counties having stultified themselves by illegal acts.

☞ On Monday morning the lightning struck a house in Newport, R. I., occupied by Daniel Coffay. The house and furniture were considerably damaged.

LATE WAR ITEMS.—*Washington, May 30.*—Roger A. Pryor, the noted Virginia Congressman, disbanded a company of sixty volunteers for voting the Union ticket at Norfolk.

Capt. Engle arrived here to-day and reports that the Sewall's Point battery is impregnable. 4000 rebels are stationed there. Gen. Butler intends to cut off their supplies and thus force them to surrender.

NEW YORK, May 30.—It is thought that the major portion of the rebels taken prisoners will be released on parole, and the leaders hung. The Cabinet is discussing the matter.

The rebels continue to retreat southward, on account of a scarcity of provisions.

There are not over 4000 troops at Harper's Ferry, and they are poorly armed and half starved.

The War Department has issued general orders granting volunteers money and the same allowance for clothing as regulars.

Major-General Fremont will have command of the Western Division on the Mississippi.

Two men, who have escaped from the rebel army, report that the troops at Richmond are poorly provided for. They were arrested at Fairfax, but a messenger from Alexandria reported that the Federal troops were within an hour's march, when the chivalry fled "helter skelter," and they escaped.

BALTIMORE, May 29.—A gentleman from Norfolk says Gen. Beauregard was expected to arrive there on Tuesday night. The whole number of troops in and about Norfolk do not exceed 7000, though large accessions are daily expected from the Gulf States.

The battery at Sewall's Point was almost destroyed by the Monticello's guns, but a large force was repairing it. It is anticipated that Gen. Ben. F. Butler will land forces at Ocean View on the Roads, 6 miles from the Point and 10 from Norfolk.

Three hundred negroes from Tennessee had been sent out to throw up entrenchments on the roads leading to Ocean View. The troops are said to be badly disciplined, though well armed.

Seventy of the eighty votes cast at Portsmouth, against secession, were by a rifle company, who were immediately disarmed and disbanded.

Gen. Huger commands at Norfolk. They have but one rifled cannon at Norfolk, which is at Sewall's Point. The farmers are plowing in their pea-vines to sow corn.

WASHINGTON, May 29.—General McDowell, commanding the new Virginia Military Geographical Department has no particular place for its headquarters. They will be movable according to circumstances.

Information has reached Washington that the rebel forces have thrown up earthworks, perhaps 200 feet square, at Manassas Gap Junction, and commanding the track for perhaps a mile. They are under the command of Gen. Bonham, of South Carolina. Col. Maguder was there in command of a battery.

It is believed Col. Kenham's South Carolina regiment has moved up the road to Centerville, Fairfax county, to strengthen the position there, in view of the possibility that the Federal troops would strike past that point to cut off communication with Harper's Ferry.

CHAMBERSBURG, PA., May 29.—The latest advices from Harper's Ferry represent that there are 10,000 troops there and at Bollivar, and about 400 on the Maryland Heights, but the latter have no field pieces.

The Hagerstown secessionists, terror stricken by the late reinforcements there, held a conclave which lasted until near daylight this morning. Emissaries from Harper's Ferry are in Hagerstown nearly every night, but the Unionists are watchful and aware of all their movements.

Additional reinforcements are expected here early to-morrow. Considering the number of soldiers in town and vicinity, comparatively good order prevails. The soldiers are all in good health and anxious for a brush with the rebels.

FRANKFORT, KY., May 29.—In the Border State Convention to-day, Messrs. Guthrie, Wickliffe, Bell, Dixon, and Dunlap were chosen a committee to prepare a general address, and Messrs. Guthrie, Bell, Dixon and Williams and Richardson were appointed a committee to prepare an address to the people of Kentucky.

In accordance with a resolution the members of the Convention were sworn to be faithful to the Constitution of the United States while holding membership.

The schooner Bloomer, of Hingham, with a crew of ten men, caught on Thursday 16th, between the hours of 10 A. M. and 2 P. M., five thousand and seven hundred mackerel with hook and line. There were other vessels in the vicinity at the same time, with scarcely any "luck."

FROM ALEXANDRIA.—*Washington, May 29.*—The 71st N. Y. regiment returned from Alexandria to-day, the 5th Pennsylvania regiment taking their place. The latter, the Michigan regiment and the Fire Zouaves are the only regiments now holding Alexandria.

☞ Hon. Walter Harriman has become editor of the Manchester Union Democrat, —the title of the paper is changed to the Weekly Union,—and the editorials are very much changed also. The paper now takes the strongest Union ground.

In his introductory leader, Mr. Harriman says:

"The Southern States have seceded from the Union, and are in open rebellion against its government. They deny its authority, and dare its power. Two powerful armies, one in the South and one in the North, are each combining and concentrating to take the deadly march to battle. On the pending issue rests the existence of the Union. And thus is the contest narrowed down to the single question of country or no country—government or no government.

I am for supporting the government. I cannot ask who administers it. It is the government of my country; it is the constitutional government."

The girl of my heart: Oyster Pattty.

☞ The Portsmouth Cornet Band is at present attached to the Second Regiment of N. H. Volunteers, and now furnishes the music for Camp Constitution in this city, to general acceptation.—Mr. Charles H. Tompson has accepted the position of leader, and is well qualified for the position by study and practice. It has been reported that both of the Manchester Bands had enlisted into the service of the government; but we are informed that Dignam's Band, which was here last week, has not done so, nor had the other when it left Concord with the First Regiment.

We regret that a slight misunderstanding of the arrangements respecting the furnishing music for this regiment, existed among the members of the Portsmouth Band, for a few days; but are pleased to learn that all supposed cause for complaint or disaffection has been shown to have no foundation, and that the mutual good feeling always heretofore existing between the Band and the officers of the State and Regiment, is fully restored—and all are in the best trim and fully up to time and the times.

☞ A large Party of ladies and gentlemen came down from Dover on Thursday in the packet, on a brief visit to camp Constitution; among them Everett O. Foss Esq, the energetic and indefatigable Editor of the Dover Daily Union.

☞ We understand that our citizens have subscribed $5000 for the relief of the families of the volunteers. This is additional to the $10,000 appropriated by the City Council.

☞ We learn that Quartermaster Frank Fuller, of the 2d Regiment, N. H. V., (Col. Marston,) has tendered his resignation, to take effect on Monday next.

☞ Rev. Mr. Hartwell will preach on Sunday at Camp Constitution at 9 o'clock A. M.; and at the Fort at half-past four P. M., should the weather prove favorable.

☞ The residence of Dr. Edward S Rundlett, on Middle street, took fire, on Thursday afternoon, from a defect in the chimney, but the flames were extinguished without a general alarm.

THE COTTON CROP.—The N. O. papers discuss the route of the new cotton crop, in case it takes any route at all, and decide peremptorily that it shall never come through the Northern States. They say that an embargo, with death and confiscation as the penalties for disregarding it, will prevent any traitors from sending out a bale of cotton by the overland route "to aid and comfort the abolitionists."

The New Orleans Crescent gives another reason for keeping the cotton at home on the plantation—the danger of fire in case it is suffered to accumulate in the commercial cities. If large fires should occur, says the Crescent, all the "insurance companies of the earth would not be able to make good the policies on so vast a property."

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, Mass., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in the most distressing cases in all cases.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

WEDNESDAY, May 29.

Arr brig F. Nelson, Marshall, Philadelphia

THURSDAY, May 30.

Cld Br sch Laleah, Parker, Hillsburgh, N. S.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen' Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our Merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

Atwood's Quinine Tonic Bitters.—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

STRONG TESTIMONY.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance.* Two articles in one. A fine *Hair Dressing;* and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir:*—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Picasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the disputed and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 60, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of the provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

No. 12 MARKET ST., ALFRED STAVERS

NEW TEAS.

25 half-chests of best qualities from the latest importations. For sale at low prices by
may11 ALFRED STAVERS.

Are you sick, broken down in constitution, languishing, depressed in spirits, nervous and easily startled, or troubled with palpitation of the heart? Do you suffer from Headache, Costiveness, Pain in the Side, Back and Limbs? Do your bowels alternate between costiveness and diarrhœa? Do you feel as if you had neglected something that should have been done long since? Do you find yourself growing yellow? Do your friends say you look jaundiced? If you do, you need a cathartic to cleanse your system and purify the fountains of the blood. Take Ayer's Pills, which are composed of the most active but mild vegetable cathartics, and which, from their extraordinary power to purify the blood and kindred fluids, and to stimulate the internal organs of the body into healthy vigorous action, rapidly rid the system of the disorders which, if neglected, lead to dangerous diseases. The same properties which make them the best purgative for all other purposes, make them the most effectual cure for those obstinate disorders which baffle the skill of the physician. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opposed by the disease within, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true to a many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cases of the most virulent character, induced by the derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of Ayer's Pills, will neglect to employ them when suffering from the disorders they cure.

Testimonials from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1858.

DR. AYER: Your Pills are the paragon of all that I great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR DOC. AYER: I cannot answer you *what* complaint I have *cured* with your Pills better than to say all *Bore-ever treat with a purgative medicine.* I place great dependence on an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Charles.*

Billious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find them unequaled as a cathartic when the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can name. I cheerfully rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., Feb. 7th, 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their prompt yet mild action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their action is mild and sure. Their prompt action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their action is mild and sure. Their prompt action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. I cheerfully rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Dyspepsia, Impurity of the Blood,

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those to whom I minister in Church. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should be as willing as I am to lend their aid to the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the parent of others that are worse. I believe our Pills act specifically on the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Short, Physician and Midwife, Boston.

I feel called on to say large doses of your Pills, taken at the proper time, are worth more than bottles of the nauseous compositions which are so widely or partially supposed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 9, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which only had its effect extended. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

PRESTON CRAWFORD, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

REAL ESTATE IN NEW CASTLE
FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to make mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskey.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *restrict* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and may all proximate druggists, grocers and town agents. A. M. BININGER & CO.,

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines for medicinal* and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

DUTIES AND RIGHTS.

One glance at the posture of things when the secessionists rushed into implacable hostility to the Union, will exhibit (says the Bath Times) the perfidy and wickedness of this rebellion, and inscribe it indelibly on the record as a diabolical plot of ambition and rage.

The most presumptuous rebel dares not affirm that Southern rights had suffered any wrong up to the hour when the Cotton States seceded, and formed a provisional government in deadly and uncompromising hostility to the Union. The dastardly firing upon the Star of the West was entirely wanton and without a shadow of palliation.

Not only had Southern rights not been assailed, but they were in no danger. Congress was in the hands of the staunch friends of the South, prepared and able to protect her from every attempted aggression. The judiciary, ordained to expound the law touching constitutional rights and powers, had adopted the Southern view, and thrown its impenetrable shield around Southern interests.

The Republicans themselves tendered an irrepealable guarantee, forever insuring to the South protection for her favorite institution within the States; and the territories were then and are now open alike to the Northern freeman and the Southern slaveholder, the Republicans having refrained, as they always will, from putting in force their campaign dogma of Congressional intervention.

Southern rights were not violated or imperilled. The administration, held in check by a conservative Congress and a Supreme Court in warm sympathy with the South, was powerless even if disposed to prejudice Southern interests, or otherwise aggress upon Southern rights. What, then, was the cause of complaint? Where is the apology for the revolution?

Shall faction triumph, and our nation be dishonored—or shall faction be subdued and the Republic stand? Democrats and Republicans have equal concern in the preservation of the Union. If it crumbles, we are all involved in its ruin.

☞ Gov. Sprague, of Rhode Island, is said to have become engaged to a daughter of Mr. Cameron, the Secretary of War, since his arrival at Washington.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for **Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.**

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEFFERS writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can commend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M.D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of our Compound cured him.—J. W. HAMMOND, 99 Mill street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a severe attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—M. L. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

STATE ITEMS.

The Manchester American states that the appointment of Colonel of the 2d Regiment was offered to Major Bowers and to Gen. Stark of Nashua, but was declined by each of those gentlemen, except on condition of an entire re-organization of the regiment, which the Governor and Council could not consistently do.

A man named Allison has been arrested at Strafford for passing counterfeit money at Dover. Sylvester E. Thompson, of Lawrence, Mass., has also been arrested as an accomplice. In Thompson's house, over $300, mostly in counterfeit halves, were found under some planks in the cellar.—Both of them have been travelling through this State and Maine, passing such coin.

The Bag Mill in Manchester has a contract for the manufacture of tent cloth, and is running night and day, with a double set of operatives.

It is probable that two more regiments will be formed in this State, one of which can be filled in ten days.

Gen. Nutt has accepted an invitation from the Amoskeag Veterans to accompany the battalion to Concord, on the inauguration of the Governor. He will be assigned a position by the side of the standard bearer, who weighs about 400 lbs. Gen. Nutt is smaller than the original Tom Thumb.

Mr. J. B. Perry, of Hanover, was standing on the top of a flag-staff, 53 feet from the ground, when by some mismovement of the machinery, he was precipitated headforemost to the ground. Fortunately he struck upon the shoulder of another individual standing on the top of a ladder, by which he was turned round, so that he came to the ground not only right side up, but safe and sound. It was a wonderful escape. In five minutes after he landed, he was again standing erect upon the top of the pole.

MAINE ITEMS.—Charles H. Hitchcock, Esq., son of Professor Hitchcock of Amherst College, has been appointed Geologist for the Scientific Survey of Maine; and Dr. Ezekiel Holmes of Winthrop, on Natural History and Agricultural and Physical Geography.

Messrs. Hinckley & Egery of Bangor, are making preparations for rifling the cannon belonging to the State of Maine, about forty in number.

At the Commencement for the year 1858, Bowdoin College conferred the degree of LL. D. upon Jefferson Davis, who at that time was spending the summer in the city of Portland, for the *ostensible* purpose of recruiting his health. The evident duty of Bowdoin College now is to strike the traitor's name from her *roll of honor*.

The 1st Maine Regiment is to start from Portland this (Saturday) morning, for Washington.

The building in Portland, occupied as the High School for Boys, was set on fire on Thursday night, in three places. By the efforts of the firemen, the flames were confined to the interior of the building.

Deputy Marshal Heald and his aids, of Portland, disguised themselves in the dress of soldiers, and thus gained admittance to the premises of a man named Cluskey, where they seized a quantity of liquors.

☞ We learn from a friend in Kentucky, that within the past week, 5000 stand of arms passed up the Kentucky Central R. R. to Paris and Lexington, for the use of the Union men of that State, already sworn to support the Constitution of the U. S.

The train passed up in the night, making no stoppages—except to wood and water. At Paris and Lexington 200 men, armed to the teeth, quietly took possession of the arms, which were sent by the President's orders. The next day the disunionists discovered the trick, but were a little late.

PEDESTRIANISM.—We hear of quite a number of instances of "tall walking" on the part of those who came to enlisting offices in this State. One individual arrived this week to visit a soldier in the 2d Regiment, having walked all the way from a town beyond Lancaster.

Two Harvard students, of Portsmouth, walked the distance from Boston to Portsmouth on Tuesday and Wednesday.

☞ Rev. Mr. Stebbins, pastor of the 1st parish in Portland, has offered to relinquish one thousand dollars of his salary the current year, in consequence of the depressed condition of affairs.

NEW YORK, May 30.—A Washington dispatch to the Commercial mentions a rumor of the resignation of Judge Taney.

☞ George C. Hersey is now on trial for the alleged poisoning of Betsy Frances Tirrel, at Weymouth, Mass., about a year ago,—the suspicion being that the murder was committed by the use of strychnine.—A little incident occurred on the second day of the trial, which is thus reported:

Previous to the noon recess of the Court, the Attorney General announced that some scientific experiments would be tried, before the Court again assembled, and invited the counsel for the defence and other scientific gentlemen in attendance upon the Court, to witness the effect of strychnine upon frogs. Mr. Foster had previously directed a young man at the Phœnix House to procure some frogs, but without stating to what use he designed putting those animals. The young man thought they must be designed for gustatory purposes, and accordingly went out and captured six of the fatest frogs to be found in the vicinity. Not supposing his whole duty to be yet accomplished, he proceeded to dress the animals, and fully prepared them for the griddle, in which condition they were presented to the astonished Attorney General.

☞ Steps have been taken in New York for the organization of a Regiment, whose special mission it shall be to commemorate by *deeds* the death of Col. Ellsworth. The Regiment will consist of men not over 27 years, unmarried, and chosen with reference to their physical powers and moral worth. Every town and ward in the State is asked to contribute one member, while the expense of equipment, &c., is to be met by dollar subscriptions.

☞ T. B. Peterson & Bros., 306 Chestnut St., Philadelphia, have published a new work of valuable information, entitled The Soldiers' Companion; for the use of volunteers, militia and officers of all grades, in the service of the United States; complete in one volume; sent free of postage to any one, on remitting twenty-five cents to the publishers.

WASHINGTON, May 30.—Wm. P. Wood of New York is appointed Commissioner of Public Buildings.

Hugh Maher of Chicago is the lowest bidder for the great beef contract for the army. He offers to deliver it here for $4.48.

It has been determined to give every man of whatever rank, serving in the army or navy, a diploma on fine parchment paper signed by President Lincoln and the heads of Departments.

Although Ex-Governor Banks had signified his willingness to accept the office of Quartermaster General in the rank of Brigadier General, it was thought best, for reasons of State policy, to confer on him that of Major General.

Eleven steamers are fitting out at this Navy Yard with ammunition, stores and guards, for some unknown destination.

Between two or three hundred barrels of flour were seized at Arlington Mills, six miles from Alexandria, this morning. The flour was intended for the use of the rebel forces.

A gentleman from Norfolk reports that Beauregard was expected there on Monday morning. Jeff Davis is sick but is expected soon. Business is prostrated everywhere, and all the stores are closed.

It is stated on good authority, that the rebel forces have fled from Grafton, Va., upon the approach of the government troops. The town is now occupied by the Federal troops. It is further stated that Gen. McClellan is in full possession of Western Virginia by this time.

ST. LOUIS, May 30.—Judge Treat yesterday decided that the return of Gen. Harney in the habeas corpus case of Capt. McDonald was insufficient, and sustained the demurrer. The counsel for the respondent then asked leave to amend the return, which was granted.

Col. Blair's regiment was yesterday sworn into the Government service for three years.

About 200 citizens of Southern Illinois left for the South, a day or two since, for the purpose of joining the Confederate army.

The Paducah Herald, Columbus Crescent and Hickman Courier, secession papers in western Kentucky, have suspended.

Four steamers with Confederate troops passed Vicksburgh on the 25th, for Fort Smith, Arkansas.

NEW YORK, May 30.—A merchant of Alexandria has received a letter from his brother in Richmond, urging him to leave immediately, as the Southern army is concentrating to drive the Federal forces away.

Ex-Governor Banks, this afternoon, received his commission as Major General. He enters immediately upon his duties.

A dispatch to the Post says the rebels are evacuating Harper's Ferry, and intend concentrating near Richmond and Norfolk.

WASHINGTON, May 30.—A gentleman who arrived this morning from the neighborhood of Centreville, Virginia, 23 miles from Alexandria, reports that he was informed that there were about 4000 rebel troops in that vicinity. He also confirms the report that prominent citizens continue to be seized and conveyed further into Virginia, there to be held as hostages for the safety of about forty rebel soldiers now in Washington.

The Garabaldi (New York) regiment has arrived.

NEW YORK, May 31.—Gen. McClellan telegraphed to the War Department that the federal troops occupied Grafton without firing a gun. The telegraph and railroad offices were taken possession of, and the road is now open to Wheeling.

A dispatch to the Herald says there are 20,000 men at Harper's Ferry, and Gen. Lee is expected there to day.

Gen. Butler was reinforced with 2000 troops yesterday.

Nearly every regiment in Washington is under marching orders.

Oh, Why should the Spirit of Mortals be Proud?

BY ABRAHAM LINCOLN, ESQ., OF ILLINOIS.

[Some years ago, the Portland, Maine, Advertiser, in speaking of Mr. Lincoln's short experience in the chair of state has considerably deepened the convictions expressed below, that no mortal, however exalted or honored, has reason to be proud.]

Oh why should the spirit of mortals be proud?
Like a swift fleeting meteor—a fast flying cloud—
A flash of the lightning—a break of the wave—
He passeth from life to his rest in the grave.

The leaves of the oak and the willow will fade;
Be scattered around, and together laid;
As the young, and the old, the low and the high,
Shall crumble to dust, and together lie.

The infant a mother attended and loved—
The mother that infant's affection proved;
The father that mother and infant who blest—
Each, all are away to their dwelling of rest.

The maid on whose brow, on whose cheek, in whose eye,
Shone beauty and pleasure—o'er triumphs are by,
And alike from the minds of the living erased,
Are the memories of mortals who loved her and praised.

The hand of the King, that the sceptre has borne,
The brow of the Priest, that the mitre has worn,
The eye of the Sage, and the heart of the brave,
Are hidden and lost in the depths of the grave.

The peasant, whose lot was to row and to reap;
The herdsman, who climbed with his goats up the steep;
The beggar, who wandered in search of his bread,
Have faded away like the grass we tread.

So the multitude goes, like the flower or the weed
That withers away to let others succeed;
So the multitude comes, even those we behold,
To repeat every tale that has often been told.

For we are the same our fathers have been;
We see the same the same sights have seen;
We drink the same stream, we see the same sun;
And run the same course our fathers have run.

The thoughts we are thinking our fathers did think;
From the death we are shrinking our fathers did shrink;
To the life we are clinging our fathers did cling,
But it speeds from us all like the bird on the wing.

They loved—but the story we cannot unfold;
They scorned—but the heart of the haughty is cold;
They grieved—but no wail from their slumbers will come;
They joyed—but the tongue of their gladness is dumb.

They died—ah! they died—we, things that are now
That walk on the turf that lies over their brow,
And make in their dwellings a transient abode,
Meet the things that they met on their pilgrimage road.

Yea, hope and despondency, pleasure and pain,
Are mingled together in sunshine and rain;
And the smile and the tears, and the song and the dirge,
Still follow each other like surge upon surge.

'Tis the wink of the eye: 'tis the draught of the breath;
From the blossom of health to the paleness of death;
From the gilded saloon to the bier and the shroud;
Oh! why should the spirit of mortal be proud?

BALTIMORE, May 30.—Last night four residents of Baltimore county, in the neighborhood of Cockeysville, named Worthington, Mathews, Scott, and one whose name is unknown, were arrested by the Federal troops, charged with being in the company that participated with Mr. Merriman in the doings for which he was arrested. They were taken to York, Pa. They are all respectable citizens.

CAIRO, Ill., May 30.—A full regiment of St. Louis volunteers, under Col. Shuttner, occupy Bird's Point. They are supplied with Minie rifles, camp equipage, and provisions for thirty days. Two batteries will be sent hence to-morrow.

SHIPMENT OF COTTON NORTH PROHIBITED.—*New Orleans, May 29.*—An act passed Congress previous to adjournment, prohibiting the shipment of cotton from the Confederate States, except through the seaports of said States.

☞ The government of Holland is about to liberate all the slaves in their foreign colonies, but subject to ten years' service to their present masters before the law takes effect.

Bullfinches are for sale in Paris, which are educated to sing as many as five different airs entire.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man makes provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 60, 65 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually,* or *annually,* at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

So reflecting man can sit at his fireside with his young family about him, and feel secure; for when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and is sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, Mass., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, con taing over 50 pills, by return mail. feb28 dawsm

THE ORATORIO OF ESTHER.

Messrs. Editors:—The very pleasing concert of Thursday evening, at the Stone Church, by a select company of home singers, has done much to relieve the lovers of good music from their apprehensions that musical talent was dying out among us. After listening to the Oratorio of Queen Esther, so well executed by home talent, we may repudiate the notion that there ever was a time, even in the palmy days of fifty years ago, when such music could have been better performed. It is an established fact that we have with us singers, of whom a City of much wider fame for its musical associations might well be proud;—talent that needs only to be encouraged and developed to enable it to execute the highest order of music, and raise the standard of popular taste to its own level.

One great beauty of the performance of last evening was the clear and distinct enunciation of the words, most of which were heard distinctly in every part of the large house.

The whole Oratorio was so well done, solos, duetts, and choruses, that a compliment is due to every member composing the choir, for the perseverance and self-denial which they have practiced to such good purpose and in such a cause; but thanks are especially due to the accomplished organist for her successful efforts in the *drill* which has resulted in so fine a *dress paradé*.

The sentiment of the chosen theme frequently touched a patriotic string in the hearts of the audience, eliciting lively applause, which the sacred nature of the place only restrained from breaking into enthusiastic cheers.

The spirited tones of Mordecai the Jew, uttering in a manner worthy of the sentiment, "To die for those we love is nobler far than wear a crown," was of this nature.

The duet of Esther and Mordecai, "Fast ye and pray for me," was exceedingly well done, as was the chorus which followed.

The beautiful passage, "Do I dream or am I waking?" by the Queen's maid of honor, was sung in a manner worthy the first maid of honor of so excellent a Queen.

The interest was well sustained to the last, and "Old Hundred" was so disguised by the accompanying chorus that many of the audience, who waited to let off their pent-up enthusiasm in chorus with such a choir for leaders, did not observe its passage; but it was made up by joining in the last song to our flag by the beautiful army of children with banners, which added so much to the charm of the occasion.

Much credit is due to the designers of this excellent and philanthropic entertainment. We hope at some future day, when our soldiers shall return with wreaths of victory, that this Oratorio will be again forthcoming for their benefit. N.

Another correspondent suggests a repetition of the Concert at this time and an invitation to the Portsmouth Volunteers to attend it.

☞ The Cheshire Light Guard were mustered into the service of the United States on Friday morning. They were previously examined and questioned by the Surgeon of the Regiment, and all the members were accepted with a single exception,—and he was rejected on account of near-sightedness. The oath of allegiance to the government was then administered to the Captain and Lieutenants, by Major Eastman, of the U. S. Army. It was then administered to the soldiers collectively, who, with uncovered heads, manifested their readiness to support the government of the United States, and to obey their superior officers.

The rules and regulations for the government of the U. S. Armies, were then read to the Company. These are contained in a small pamphlet of twenty-eight pages, and an hour was exhausted in the reading.

The Light Guard are supplied with tents, and are encamped on the hill-side, near the barracks.

☞ Mr. J. E. Roberts has recently opened, at No. 14 Congress street, (over Washington Freeman's Oyster Saloon) a most attractive and convenient Hair Dressing Saloon. All who desire his services may confidently anticipate finding there that style, neatness, comfort and dispatch which are so desirable, but not always to be attained. Mr. Roberts is well known as one of the best in his profession; and the ladies will be glad to learn, that he is fitting up a separate room especially for a ladies' hair dressing saloon.

☞ Our city was never before so well supplied with Hair Dressing Saloons as at present. In addition to that of Mr. Roberts, mentioned elsewhere, Messrs. Hartshorn & Blaisdell have recently fitted up in fine style,—rooms in the Franklin House block; and their many customers are now in some means saved from those delays which have arisen from the number of those who desired to be served at their former establishment.

Mr. S. S. Blaisdell, at the old Sol Holmes stand, is also as ready and able to suit customers, as heretofore.

☞ The Concert at the Stone Church, Thursday evening, was a treat indeed. But we shall say nothing of the performances, or of the beautiful display. Of course almost anybody could criticize, and certainly nobody could help praising too; but all who cared much about such matters, were there—so we have nothing to add to what we before said—except that we should like to have more of such entertainments here. About 400 were present, and the Volunteer fund will be increased about $75.

☞ We shall publish in the Chronicle of Monday morning, the official account of the reception of the First Regiment, N. H. V., in New York, by the sons of the Granite State.

☞ In Board of Alderman, Thursday evening, it was voted that the Mayor cause a stone watering trough to be placed near the Creek Bridge. Good.

☞ Albert H. Hoyt, Esq., has been appointed Associate Police Justice, in place of Wm. H. Rollins, Esq., resigned.

☞ A small light roan horse, having one white hind foot, and a star and small white stripe in the forehead, was stolen on Tuesday night from the barn of Moses Eaton of South Hampton.

☞ The National Guard left Newburyport Friday morning for the war. They were addressed by Caleb Cushing. His remarks were commended by all.

☞ A letter from the Secretary of War approves of Gen. Butler's course in respect to refugee negroes. He is instructed to employ such persons in the service to which they may be best adapted.

CHICAGO, May 30.—Senator Douglas has been sinking to-day, and it is feared he will not live through the night.

SUNDAY CHRONICLE.—For the accommodation of our subscribers, and the over-anxious public generally,—and *not* for our own pleasure or profit—we shall hereafter publish an Extra Chronicle on Sunday Evening, about 6 o'clock—whenever there *is* any news of interest or importance received in Boston on Sunday. The price will be 3 cents per copy—at which rate we may perhaps get back half of our expenses of publication—so those who wish to contribute to the fund which is to be raised to secure the receipt of telegraphic dispatches whenever there is anything worth sending from Boston, from the war—can do so at our counting-room. The cost to us, above receipts, for what Extras we have issued, has been say $40 or so. Who says "2 cents is too much for half a paper?"

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.
Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

STEAMER CLIPPER.
This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.
Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.
There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.
The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.
Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

L. LAIGHTON.

From the Portsmouth Journal.

FOURTH OF JULY.

The question has been asked, whether there is to be any public celebration of the anniversary of our National Independence this year? but we have seen no reply which throws any light upon the subject.

There never was a time since the Declaration was made, when the public mind was more awake to every discussion of the principles which governed the patriots of the Revolution, and more desirous to listen to true expositions of the fundamentals of our government, than the present crisis in our national affairs has produced. We hope, therefore, that there will be a celebration of the day, in a spirit which becomes the times.

Our celebrations of late years have been too much of noise and show, without one really instructive accompaniment. Our long processions should have led to the pulpit or the forum, where the young should have been told the history of their country, and the old reminded of the importance of sustaining the principles of the early patriots; but this most important part of a celebration has been too generally overlooked, and our beautifully arranged processions have marched to nowhere, — only to halt at the starting point, — with no more to imprint the lesson of the day than can gathered from the shooting rocket, which leaves no trace behind.

We hope this year to see a celebration of a different character, — one which will not call upon the city for an appropriation beyond the ringing of the bells, but in which all who wish can take part. We would have with it soul stirring local associations, which have heretofore been overlooked, — we would, therefore, have it at FORT CONSTITUTION, on the very spot where, according to the British Annals, took place the FIRST ACTION OF THE AMERICAN REBELS AGAINST BRITISH SOLDIERY, INTRODUCTORY TO THE AMERICAN REVOLUTION.

The actions of Lexington and Bunker Hill, in 1775, stand out prominent as the first and second battle grounds. They deserve their prominence, — but Dec. 15, 1774, four months before the Lexington fight, and six months before that of Bunker Hill, a band of Patriots from Portsmouth captured Fort Constitution (then called William and Mary), made its inmates prisoners, removed the British powder and guns to places of security, and afterwards brought them into use at Bunker Hill.

What more fitting time than the present for a celebration of the day within the walls of that very spot where the subdued spirit of American Independence first found vent in an open demonstration, — where the live spark was first really struck which kindled the torch of Freedom, and sent it over our whole land?

The first thing to be done (and it should be instantly attended to), is to select an orator for the day. We have good voices for some patriotic odes. The two and a half miles route to Newcastle is a pleasant one for a procession, and the sea air always cheering on a July day.

This is our programme for a truly patriotic and we think useful celebration of a day, the remembrance of which we should more fondly cherish, now that the shades of anarchy begin to obscure its long continued brightness. The friction of the times rightly applied will give it a brighter lustre.

AN OLD SHIP.

Ship Wm. Badger, 334 tons, and ship Roman, 2d, 350 tons, both having lately arrived at New Bedford, have been withdrawn from the whaling business, and sold to parties who will transfer them to the merchant service. Both were towed from New Bedford for New York, and it is stated that they are to be used as store ships at Aspinwall.

The ship William Badger was built at this port in 1828, for Messrs. L. Barnes and T. J. Harris. Being the fiftieth vessel built by Master Badger, at his yard on Badger's Island, she received the name of the venerable builder, and it has thus been perpetuated and sent over the world for thirty-one years. Master Badger used to say, that he should "come back" in a hundred years from the time of his death. Perhaps the old ship may yet be his representative till that term expires.

It is no small compliment to our Piscataqua shipbuilders, that their work can stand the storms of a third of a century, and be sound still and fit for service.

A company of Phillips Academy students who have been exercising themselves in military drill, in which they have made commendable progress, accompanied the Exeter recruits to the depot on Saturday afternoon.

In former times military exercise was one of the attractive features of this institution. Not long since one of the best Colonels who ever had command of the Portsmouth Regiment informed us that he received all his military knowledge when a student at Exeter Academy. It was here also, we suppose Hon. Gilman Marston was initiated into the taste and arts of war, in which we learn he is a good proficient.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen' Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our Merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

GARDEN TOOLS.

Rakes, Hoes, Spades, Trowels, and all kinds of small Garden Tools for Ladies. For sale low at 12 MARKET STREET. ALFRED STAVERS.

Are you sick, feeble, and languishing? Are you troubled with pain, sickness, or disorder, and your health so comfortable? These symptoms denote a disordered state of the stomach, which if not checked by some active remedy, will soon be followed by serious illness. Some are of a thickness to creeping upon you and should be avoided by a timely use of the right medicine. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the functions move in unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. The liver is put out of order, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What a saving of suffering is this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels from the system the diseases, irritations and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. Know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Sufferers from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1859.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cutteright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer your oft-asked complaint. I have cured with your Pills better than to say all that may ever treat with a purgative medicine. I place great dependence on an efficient cathartic in any daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1858.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice, proved far the more effectual for the cure of bilious complaints than any one remedy I can mention. I always require that we have at hand a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1859.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, especially they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Historically yours, ALEXR. HALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for chronic dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family, and know them to be the best of all in existence. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. YOURS, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1858.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Campbe, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If otherwise healthy they have from me the best of notices as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from this complaint, which, unless cured at once, is productive of others that are worse. I believe constipation to originate in the liver, but your Pills admit that they can cure more than one disease.

From Rev. E. Sweet, Physician and Minister, Toledo.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural movements when wholly or partially suppressed, and also very efficacious to remove the disease for which they are used. They are as much the best physic we have that I recommend to other to my patients.

From the Rev. Dr. Hendee, of the Methodist Epis. Church.

PITTSFIELD HOTEL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be unpardonable for the relief your child has brought me if I did not report my case to you. A dose of pills in my behalf brought on quite a smarting sensation pretty, which soon set in a decided cure. Notwithstanding I had the best of physicians, the most great nurse and worst result by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SUSAN CHARRON, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ None of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands is dangerous in a public pill, from the dreadful cases it shows that frequently follow its incautious use. Those contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEUPEIGH writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

STEAMER ELK CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
—OF THE—
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by thousands of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.

One of the very best Physicians in Boston has said "*has it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

REST AND MOTION.

Motion makes rest pleasant as well as possible. Thus, he who labors during the six days, faithfully, industriously, has a relish for the rest of the seventh day or Sabath, that no idler can have.

So the "sleep of the laboring man" is truly said to be "sweet, whether he eat little or much." Whereas if the waking hours are devoted to listless inaction, or to pursuits which excite the nerves without exercising the muscles,—the sleep is usually fitful, broken, dreamy, and often exhausting. But good, quiet sleep, such as tired children have, and tired laborers also, is as good a preparation for bodily, mental, spiritual action and activity,—as the most vigorous action is for rest or sleep.

Sleep is now known to be co-extensive with life, inseparable from it,—for if the man cannot sleep, or does not, he must soon die. The praises of wakefulness have been in the books, and the men who were said to sleep only a few hours in the twenty-four, were made famous examples of a wakefulness which doubtless they never practiced for many months together. "All great men have been early risers," says my newspaper,—but it don't say whether they nodded in their chairs after dinner, or not. It is well known that Napoleon Bonaparte used to get a nap on horseback, and other riders now living, have done the same thing.

A wider comparison of facts, and a better philosophy, have led to a better appreciation, and higher values of sleep and rest.

"Accordingly, he who sleeps well need not die so soon,—even as in the order of Nature he will not. He has that other and rarer half of a good memory, namely, a good forgetting. For none remembers so ill as he that remembers all. 'A great German scholar affirmed that he knew not what it was to forget.' Better have been born an idiot! An unwashed memory,—faugh! To us moderns and Americans, who need above all things to forget well,—our one imperative want being a simplification of experience,—to us, more than to all other men, is requisite, in large measure of benefit, the winnowing-fan of sleep, sleep with its choices and exclusions, if we would not need the offices of death too soon."

"The ability to rest profoundly is, of no less estimation than the ability to work powerfully. Indeed, is it not often the condition upon which great and sustained power of action depends? The medal must have two sides. 'Danton,' says Carlyle, 'was a great nature that could rest.' Were not the force and terror of his performance the obverse fact? I do not now mean, however true it would be, to say that without rest physical resources would fail, and action be enfeebled in consequence; I mean that the soul which wants the attitude of repose wants the condition of power. There is a petulant and meddlesome industry which proceeds from spiritual debility, and causes more; it is like the sleeplessness and tossing of exhausted nervous patients, which arises from weakness, and aggravate its occasion. As few things are equally wearisome, so few are equally wasteful, with a perpetual indistinct sputter of action, whereby nothing is done and nothing let alone. Half the world *breaks* out with action; its performance is cutaneous, of the nature of tetter. Hence it is that in the world, with such a noise of building, so few edifices are reared.

We require it as a pledge of the sanity of our condition, and consequent wholesomeness of our action, that we can withhold our hand, and leave the world in that its Maker. No man is quite necessary

Omnipotence; grass grew before we were born, and doubtless will continue to grow when we are dead. If we act, let it be because our soul has somewhat to bring forth, and not because our fingers itch.—We have in these days been emphatically instructed that all speech not rooted in silence, rooted, that is, in pure, vital, silent Nature, is poor and unworthy; but we should be aware that action equally requires this solemn and celestial perspective, this issue out of the never-trodden, noiseless realms of the soul. Only that which comes from a divine depth can attain a divine height."

HAY IS KING.—We are informed that sixteen car-loads of hay left Durham on Friday morning, via the B. & M. railroad, for Boston, on its way to the South. "Long live Ha-man!"

BALTIMORE, June 1.—A heavy battery is being erected near Newport News Point, just beyond the range of the rebel battery.

STATE ITEMS.

A society of ladies has been formed in Concord, for the purpose of aiding the soldiers from this State, in actual service, with clothing, hospital stores and other things necessary to their health and comfort, which are not supplied by government.

Judge Bartlett went to Plymouth one day last week, to hold one of the fixed terms of the court there; but the lawyers were so interested in national troubles that it was concluded to adjourn to the third Tuesday in August.

A gentleman in Lebanon says he has a horse, six years old, of the wild horse breed, weighing about 1000 pounds, which cleared in one bound a distance of twenty-six feet six inches, and a height of five feet. The leap was made over a stone wall three feet wide on the top. It was made on a level surface, and no down-hill jump about it.

There is said to be a person in Concord, of "property and standing," director in a bank, and who has lived all his days within reach of books and newspapers, who declared the other day that were no defalcations during the administration of Mr. Buchanan, and that the charge that there were secessionists in his Cabinet, was a Black Republican lie.

Among the patents recently issued, is one to Thomas Sanford, Esq., of Claremont, for a steam valve.

Two or three weeks since an account was published of the elopement and arrest of Prof. Barton, a musical character, who has spent a year or two at Sanbornton Bridge. It was then hoped he would deem it best ever after to remain true to his own wife, and provide for the wants of his half-dozen children; but not so thought our enamoured Prof.; and so he again eloped with his paramour, and this time has gone to parts unknown, leaving certain sponsors for his good behavior sadly in the lurch.

The report of the New Hampshire board of education for the year ending June 1, shows the number of school districts to be 2331; whole number of scholars, 94,576; average attendance, 54,023.

Mr. George A. Rollins, of Nashua, has invented and constructed a rifle cannon, of wrought iron. It loads at the breach, the charge being contained in a chamber which is placed at the termination of the bore of the gun. The cartridges are made with the ball attached. The ball is egg-shaped, the lower end of lead, hollowed. The powder is contained in a tin cannister, fitted on to the ball, through which an iron rod passes, upon which the cap is placed. By touching a thumb spring, a rod strikes against the cap, and the gun is discharged. The chambers can be as numerous as desired.—They are taken from the gun with the greatest readiness, the charge inserted in an instant, and the chamber replaced, so that the firing can be made with great rapidity. The gun is hung upon a swivel, so as to be brought to bear in any direction instantly. It carries a ball of about three pounds weight, and its range is from one and a half to two miles.

NEW YORK, June 1.—The two large columbiads from Pittsburg to Fort McHenry, were spiked in the streets of Baltimore, the fact not being discovered till they were mounted at the fort.

Sixty kegs of powder and five tons of lead were discovered today by the Zouaves, outside of Alexandria, the most of which was destroyed.

Troops in Alexandria are to hold themselves in readiness to move, but their destination is secret.

It is denied that 100,000 more troops are to be called out.

While the 12th and 13th Regiments were marching through Baltimore last night, with loaded arms and fixed bayonets, cheers were given for Jeff. Davis, and fists were shaken at the troops. Immediately after the two regiments left, the baggage was surrounded by a mob, and it is reported that they fired three shots at the soldiers.—It is thought in Washington that the mob spirit in Baltimore is on the increase.

Ex-Gov. Banks is to take command at Fortress Monroe, and Gen. Butler goes to Baltimore.

SHIP DANUBE.—The Mobile Transcript states that the ship Danube, Capt. Coster, which arrived at Mobile on the 18th ult., from Liverpool with ballast, was seized May 24th in the Bay, by a detachment of the Gulf City Guards, in command of Capt. John Curran. It was understood that Capt. Coster had a permit to pass in and out of the Bay. The Guards searched the vessel, but found nothing on board except one eight pound cannon, though it had been understood she had a quantity of arms and some ammunition, &c. They took possession of the cannon, and brought it to the city, and placed it in the Armory Hall.

The Danube is owned in this city, by Messrs. E. F. Sise, J. W. Peirce, J. P. Lyman and John Chase.

LOUISVILLE, May 30.—It is understood that the several companies now organized here will form a part of Col. Anderson's Brigade.

The Augusta (Ga.) Chronicle of the 28th says, Gen. Beauregard issued orders in Charleston relinquishing the command of the forces around Charleston to Col. R. H. Anderson, and relieving D. R. Jones, who accompanies Gen. Beauregard to Corinth, Miss.

RECEPTION OF THE 1st REGIMENT IN NEW YORK.

We have been favored with a copy of the official report of the proceedings of the Sons of the Granite State, resident in New York, incident upon the passage of the 1st N. H. Regiment, Col. Tappan, through that city.

The following letter from Charles E. Soule, Esq., Secretary of the Sons, accompanied the report.

167 Broadway, N. Y. City,
May 27, 1861.

To His Excellency, Hon. Ichabod Goodwin, Portsmouth, N. H.:

Sir:—Herewith I send you a copy of the proceedings of a meeting of the Sons of New Hampshire, held in this city, on the 26th inst., and also of the proceedings of a meeting of the Committee then appointed, held to-day.

There was not a Son of New Hampshire but felt a pride at the efficient display of the Regiment, and the thoroughness of the equipment. Very respectfully yours,

CHARLES E. SOULE.

To this letter, Albert L. Jones, Esq., of this city, in behalf of Gov. Goodwin, wrote the following reply:—

PORTSMOUTH, May 30, 1861.

Sir:—Your valued communication to His Excellency, the Governor, and the accompanying resolutions and record, were duly received, and, at the request of His Excellency, I have to acknowledge the high gratification they afforded, to thank you for the kind hospitalities extended to our First Regiment, and to assure you of the pride and pleasure which New Hampshire ever feels in seeing the interest taken by her sons, resident beyond her boundaries, in the welfare of our Granite State.

Respectfully, A. L. JONES,
Aid de Camp to His Excellency, Ichabod Goodwin, Governor of New Hampshire.

To CHARLES E. SOULE, Esq., Sec'y of the Sons of New Hampshire, 167 Broadway, New York.

OFFICIAL REPORT

At a meeting of the Sons of New Hampshire, May 26th, upon the arrival of the New Hampshire Regiment at the Norwich & Worcester R. R. depot, on motion of Mr. Charles L. Frost, Mr. Andrew A. Peterson was called to the chair, and Mr. John P. March was appointed Secretary.

Mr. Frost then addressed the meeting, stating that a desire had been manifested to form a Committee of the Sons of New Hampshire, for the general purpose of aid to our troops now in the field, and for the reception of those who may hereafter pass through New York.

Mr. Frost then introduced Dr. W. M. Chamberlain, who offered the following resolutions:

Whereas, The 1st Regiment of New Hampshire Volunteers is about to proceed to the seat of war;— and whereas, in the contingency of a general engagement or prevalent epidemic, many of our soldiers may be disabled or invalid, thereby requiring aid and comfort from all who feel an interest in them, and,

Whereas, It is not improbable that the invalid soldiers of the Regiment may be from time to time in New York, on their return homewards, therefore,

Resolved, That a Committee, to be styled a Committee of Aid and Correspondence, be appointed, whose duty it shall be, as circumstances may require and permit, to maintain communication between the officers and men of the New Hampshire regiment or regiments and their friends in New York and at home, and to do whatever may be in their power for the comfort of our troops, for the interests of humanity, and for the honor of our old Granite State.

The following gentlemen were designated ed by the Chair to constitute this Committee:—Robert Colby, New London; W. M. Chamberlain, Hanover; John P. March, Rochester; Charles E. Soule, Exeter; Levi P. Morton, Bristol; George E. Mendum, Portsmouth; L. L. Britton, Oxford; George H. Moore, Concord; John L. Hanson, Dover.

Addresses were then made by H. B. Perkins, Esq. and Hon. Judge Peabody. The Sons of New Hampshire then united in singing "America," "The Star Spangled Banner," and "Old Hundred."

On motion of Ralph C. Cutter, the Committee was instructed to devise a plan for the more permanent organization of the Sons of New Hampshire.

JOHN P. MARCH, Secretary.

At a meeting of the Committee appointed at the meeting of the Sons of New Hampshire held at the foot of Vestry street, on the 26th day of May, 1861, there were present:—Robert Colby, Wm. M. Chamberlain, John P. March, Chas. E. Soule, George E. Mendum, Lloyd L. Britton and John L. Hanson.

On motion, Robert Colby was appointed Chairman, and Charles E. Soule, secretary.

On motion of Wm. M. Chamberlain, the minutes of the meeting of the Sons of New Hampshire, held on the 26th inst., were read and adopted as the instructions of the Committee.

On motion of C. E. Soule,

Voted, That Robert Colby be the permanent Chairman of this Committee, and Wm. M. Chamberlain, Permanent Secretary, (address, 47 Wall st.)

On motion of John L. Hanson,

Voted, That John P. March be Treasurer.

On motion of Wm. M. Chamberlain,

Voted, That a Committee of Five be appointed to make preliminary arrangements for the reception of any subsequent regiments from New Hampshire.

C. E. Soule, George H. Moore, Lloyd L. Britton, John L. Hanson, and Geo. E. Mendum were appointed the Committee.

On motion of W. M. Chamberlain,

Voted, That George H. Moore be a Committee to prepare and report a plan for the organization of the Sons of New Hampshire.

On motion of C. E. Soule,

Voted, That Dr. Wm. M. Chamberlain be the medical adviser under the plan, and to carry out the purposes for which this Committee was in part formed.

Dr. Chamberlain made his report of the condition of the sick members of the Regiment.

On motion of Mr. Hanson,

Voted, That a copy of the proceedings of this meeting be signed by the Chairman and Secretary of this meeting and forwarded to the Governor of New Hampshire, and also to the Colonel of the First Regiment of N. H. Volunteers at Washington.

Voted, That No. 47 Wall street, the office of the Chairman, be the headquarters of this Committee.

Voted to adjourn, to meet again at the call of the chairman and secretary of the committee. ROBT. COLBY, Chairman.

Mr. N. G. Ordway of Concord, N. H., who accompanied the regiment to New York, was present at this meeting of the committee, and, in behalf of the officers of the Regiment, and at their request, returned thanks to the Sons of New Hampshire, for the reception and care tendered to the regiment. C. E. SOULE, Sec'ry.

HARRISBURG, PA., May 31.—A private letter dated Martinsburg, Va., 28th, states that one company of infantry was stationed there under command of Gov. Letcher's brother. They are described as having red flannel shirts, threadbare pantaloons, boots wanting heel taps and coats too small. The Union men are desirous of arms to protect themselves though largely in the minority. Those at Harper's Ferry have got the small pox violently. The diarrhœa was quite prevalent in the Berkely company.

The Wise Artillery company, which went from Martinsburg, some six weeks ago, to Harper's Ferry, with 64 men, now numbers only 24, having lost by desertion and disease. The Bunker company have all deserted. The Rockingham company laid down their arms and departed disgusted.—Almost all of the latter voted against the secession ordinance.

Martinsburg is 17 miles from Harper's Ferry.

The Oxygenated Bitters.
Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the
DYSPEPSIA!
With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.
TAUNTON, Mass., July 2, 1860.
Messrs. Seth W. Fowle & Co., Boston,
Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.
Very respectfully yours, LOVETT MORSE.

Local.

☞ The First Regiment of Maine Volunteers passed through this city about half past 11 o'clock on Saturday morning, on their route to Washington. The fine engine, "Gov. Goodwin," brought the train to this city, where it was changed for the "Nahant," under charge of Mr. James D. Akerman. This engine was beautifully decorated with flags, streamers, &c. In front was a picture of Washington and the words, "We love the land that gave us birth;" on one side were the arms of the State of Maine, and on the other a shield bearing the inscription—"On to victory!"

The train consisted of fourteen passenger cars and two baggage cars. A large number of soldiers belonging to the Second Regiment, N. H. V. had previously been marched to the depot, accompanied by the Portsmouth Cornet Band, in order to compliment their Maine brothers with a military salute. Accordingly, on the arrival of the long train, loud cheers rent the air, and were promptly returned by the Maine Regiment.

Gov. Goodwin, the officers of the First Regiment, and many other distinguished gentlemen of our own State, were at the depot, and by their presence manifested anew their zeal in the holy cause.

But unfortunately, it was not generally known that the Regiment was expected to pass through here; otherwise there would have been a far larger crowd to welcome them and to bid them a hearty God-speed on their journey.

There was but one opinion, however, among those who were there; and that was, that Maine might well feel proud of her, 1st Regiment. Such a collection of noble-looking men is not often seen, and the Dirigo State evidently is sending her best men to do the patriot's duty.

Our own papers have boasted of New Hampshire's tall man. But we yield now—we are beaten by half an inch! The "Infant of the Regiment" of Maine is six feet seven inches in height. He was very anxious to see *our* "small boy." Had he been there, he might have stretched that half inch.

The members of the Regiment seemed to be in the best of spirits, and will yet give a good account of themselves. Everything is said to be in complete order.—The men are provided with two days' cooked rations, and there will be no stops on the road. There is an excellent feeling between officers and men; and Col. Jackson feels a pardonable pride in his troops. He speaks in high terms of their general good conduct; and on the other hand, the boys have increased confidence in and respect for their commander.

☞ The funeral of Mrs. Shillaber, attended on Saturday afternoon, was an interesting solemnity, connecting the actual present with memories of the past.

Mrs. Sally S. Shillaber was born in 1775, as the American Revolution was commencing; and as she dies, in 1861, a rebellion, an insurrection, of remarkable character and portentous aspect, looms up over the country like a dark cloud.

The deceased belonged to a former generation; in which she faithfully occupied a place, humble but not mean, useful but not officious, private but not obscure.

Mrs. S. was kindness and good nature personified; as the few of her surviving old associates know;—and as some of the youngsters very well remember. Not a few of the second and third generation, however, to whom she was kind, have passed, away before her;—and now, in the fulness of her years she is gathered to her people, and closes the record of a household dissolved, and the heartstone deserted.

Appropriate services were performed at the house of her son, B. P. Shillaber, in Chelsea, where she died, by Rev. C. H. Leonard—and those in this city by Rev. Mr. Gage, pastor of the church where she had worshipped in former years.

SIGNOR BLITZ.—This celebrated and world-renowned magician and ventriloquist, with his troupe of learned canary birds, will give two entertainments at the Temple, Tuesday and Wednesday evenings, affording a first class and wonderful exhibition so pleasing to all ages. He is a well known favorite, and everybody will be ready to greet him.

SHORT TRIP.—Schooner D. P., from Philadelphia, arrived at this port on Friday, with a cargo of coal, having been absent from here only 12 days 17 hours. Beat this who can.

☞ All the packets and a yacht are coming to Portsmouth from Dover to-day to convey passengers to the Fort and to the Camp. It is really a delightful sail, and a crowd will doubtless take advantage of the opportunity.

☞ We understand that an Extra train on the C. & P. railroad will leave this city for Concord next Thursday morning, at 7 o'clock; to accommodate those who wish to attend the inaugural ceremonies at Concord on that day. Returning, leave Concord at 5 P. M.

LATEST NEWS!

BY TELEGRAPH TO THE CHRONICLE.

From the Agent of the Associated Press.

BOSTON, Sunday, 5 P. M.—On Saturday morning a company of U. S. dragoons were fired upon while reconnoitering in the neighborhood of Fairfax Count House, Va., by rebel troops and people concealed in houses. Two of them are missing and three were wounded. From ten to fifteen of the rebels were killed.

Another account says only one of the rebels was killed.

Jeff. Davis has arrived in Richmond.

The Aquia Creek affair resulted in the withdrawal of steamers Freeborn and Anacosta after a severe fight. Several were killed on both sides. The Pawnee was expected when hostilities would be resumed.

There was a slight skirmish between the Home Guard and the rebels at Williamsport on Saturday. Three rebels were wounded.

The whaling schooners John Adams, Boston, Mermaid of Provincetown, have been seized by privateers, and brought into New Orleans.

WASHINGTON, May 31.—The following information was received at the Navy Yard this afternoon.

"The Keystone State reports in passing Acquia Creek at noon, saw that the Freeboun and Anacosta were engaging the battery at Acquia Creek with success. Shall I send the Pocahontas with her 10-inch gun to assist?"

Signed by Capt. Dahlgreen, Commander at the Yard.

The Navy Department immediatly ordered two men of-war down to support Capt. Ward.

The Keystone State witnessed the fight several hours. According to the report of an officer on board of her, there are two batteries, the one on the new ground having been damaged. It was supposed by her movements that the Anacosta was struck with a ball.

There is little doubt that the N. Y. 71st regiment will proceed at midnight to Acquia Creek, arrangements having been made for their transportation thither.

Several vessels went to Fortress Monroe to-day carrying hundreds of thousands of cartridges with other war requisites. The supply in that direction is now ample.

A lady who lives near Manassas Junction, and who reached Washington this afternoon, states that the rebel forces were rapidly concentrating at the Junction.

The Confederate troops expect an immediate attack from the Federal troops some where in that vicinity. The former were busily engaged in fortifying every available position at and near the Junction.

NEW YORK, May 31.—The Tribune's Washington dispatch says that a bearer of dispatches arrived to-day at the War Depatment, from General Butler. All was quiet at Fortress Monroe. There were 350 negroes at the Fortress.

The Washington Star says nine rebels were killed at Sewall's Point during the recent conflict. Also that the rebels have stopped work on the entrenchments at Manassas.

Fifteen thousand Federal troops are concentrated in Western Virginia.

Four companies of the District of Columbia militia have crossed into Virginia with six day's rations.

In the Wheeling District, Virginia, the Union candidate for Congress has 18,000 majority; in the Parkersburg District the Union candidate has 20,000 majority.

☞ The steamer Illinois is hourly expected at this naval station, as it is reported that she started from New York on Saturday noon. She is to take on board twenty-seven nine-inch Dahlgreen guns and carriages, being a portion of the armament intended for the Franklin.

☞ We learn that Mr. John S. Godfrey, of Hampton Falls, has been appointed Quartermaster of the 2d Regiment N. H. V., now at Camp Constitution in this city, by Col. Marston—in place of Dr. Frank Fuller, resigned.

☞ Saturday evening's dispatches brought intelligence that a second steam sloop-of-war is to be built immediately at this station.

☞ Orders were issued at Washington on Saturday afternoon to the 1st N. H. Regiment, to move at 5 o'clock into Virginia.

The true Remedy for Dyspepsia and Indigestion.—It is acknowledged on all hands that the Oxygenated Bitters are the true remedy for these complaints. They are free from alcohol, and contain, judiciously combined with hygienic substances, oxygen, the chief vital element.

MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.
This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.
Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the HOUSATONIC, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.
There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.
The boat is run by Capt. Gilpatrick, a seaman of twenty *years'* experience, who will pay every attention to the comfort and convenience of his passengers.
Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

AYER'S

CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. In all sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors now coursing through your blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and attracts its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and we have directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and surely of these sorts, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and to her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are valid, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you *what* complaint I have cured with your Pills better than to say all that is *our treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 3, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Thomas Clyde.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Gross, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them excellent remedy, when given in small doses for bilious dysentery and diarrhœa. The sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in my office. To regulate the organs of digestion and purify the blood, they are the very best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am selling your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Two years cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of fellow-sufferers who suffer from that complaint, which, although not dangerous in itself, is the propender of others that are worse. I believe on Pioneer to eradicate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretions when wholly or partially suppressed, and also very efficacious to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawley, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my bowels and brought on excruciating neuralgic pains, which could not be relieved by any means. Unwilling to take

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, became prostrate, and lost my appetite. It relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character. "After using a dozen bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HURF writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M.D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgic Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Out State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinia*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, preeminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured, this is not one but any better general remedy.
One of the very best Physicians in Boston has said "*And it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint *flat* as quart bottles, in order that all may convince themselves of its superior merits.

Portsmouth, N. H.

TUESDAY, JUNE 4, 1861.

MAJ. GEN. BUTLER.—The Rev. Benjamin Butler, from Connecticut, was settled over the Congregational Church, in Nottingham, N. H., in 1758. His brother, Zephaniah, soon afterwards settled in Nottingham and married — — Cilley, daughter of Captain Joseph Cilley, and sister of Col. Joseph Cilley of the Revolutionary army. The male children of this marriage were,—Benjamin, of Deerfield, N. H.; William, of Nottingham, who died unmarried; John, who was a captain of Cavalry in the war of 1812. John married first a lady named Hilton, who died, after which he married a Miss Allison of Northfield, N. H. The children of the second marriage were—Andrew J. of California, now Aid to his brother, Maj. Gen. Butler; Charlotte; and Benjamin F., now Major General in the U. S. Army, who was born in Deerfield, N. H., Nov. 5th, 1817. His father, Capt. John Butler, sailed from Portland for the West Indies, in November or December, 1817, and died there soon afterwards. Hon. James H. Butler of Nottingham, and Gen. Henry Butler of Maine, are great-grandsons of the Rev. Benjamin Butler.

UNITED STATES INFANTRY TACTICS. Messrs. Lippincott & Co., Philadelphia, have just published the system of Infantry Tactics furnished by the War Department for the instruction of the troops when acting as Light Infantry or Riflmen. The present publication is most timely, and, containing within the limits of one small volume the School of the soldier and the School of the Battalion together with a Dictionary of Military Terms, rules for Street Firing and the Articles of War, it cannot fail to become a most valuable vade-mecum to the volunteer officers now going into the field, and should find a place in the knapsack of every soldier, who means by good conduct to win for himself a commission.

They have also published "the Handy-Book for the U. S. Soldier," being an introduction to the above, a little volume admirably adapted to answer its design.

MUNIFICENT DONATIONS.—Dr. Wm. J. Walker, of Boston, who is one of the most opulent surgeons in the country, has given property estimated to be worth $80,000, to establish Professorships in Mathematics in three of the colleges of Massachusetts.—Those institutions are Williams, Amherst and Tufts Colleges, each of which will receive $30,000 for the purpose above named. Dr. Walker is a graduate of Harvard College, and a Unitarian.

☞ The officers and men of the Schooner Sunbeam, publish a card in the Gloucester Telegraph, pledging themselves to "abstain from the use of all intoxicating liquors as a beverage while they belong to that vessel whether they are in port or at sea, on shore or on board the vessel. They also pledge themselves to avoid all profane or quarrelsome language while on board said vessel."

☞ On Thursday last, about noon, the house of Dennis Oakley, in Exeter, was burnt. Much of the furniture was placed in a barn attached to the house, which was saved.

A little past two o'clock Friday morning, the barn was burnt with a portion of its contents. Both were small buildings, and were insured for $350, in the Rockingham Farmers' Mutual office in Exeter.

☞ On Friday there were several promotions at the Brooklyn Marine Barracks. The commandant of the post, Abram A. Brevoort, is to be major from this date. He has been a captain since September, 1853. Several sergeants and corporals were promoted from the ranks.

WHAT WOULD HE?—The Boston Transcript asks "what Jeff. Davis would be likely to say if you asked him how he felt?—*Loan-some.*" That will do. But Snooks wants to know what he says when he tries to borrow money? "*Let us a-loan.*"—Snooks hasn't been quite himself since.

A Troy clergyman recently preached a severe sermon against the circulation of Sunday morning papers, but on his way home, meeting a telegraph operator, he eagerly inquired for the latest news.—What was wicked in the printed sheet was righteous enough if verbally told.

☞ Mr. Elias Howe, Jr., of New York, the sewing machine patentee, formerly a resident of Cambridge, has presented each of the field and staff officers of the Massachusetts Fifth Regiment, with a stallion, fully equipped for service.

LETTER FROM NEW YORK.

NEW YORK, May 31.

Dear Chronicle:—The plans of the government, as predicted in my Washington correspondence, appear to be rapidly approaching fulfillment. An expedition has already started for the interior of Virginia, whose entrance into Alexandria was attended with such sad results; Major Gen. McClelland, at the head of the Ohio troops, is rapidly environing Harper's Ferry; and from letters received this morning from friends at Fortress Monroe, we confidently expect that a division will move from that point inland, as soon as the necessary preparations can be completed. Indeed, it seems probable that this expedition, which we briefly referred to some days since, will be made simultaneously with that on Harper's Ferry. Should this take place, the troops at Alexandria will be enabled, in the general confusion, to advance farther into the State; and the slave power will necessarily succumb to the federal troops, who will use Virginia as their Summer camping ground.

With the glory attendant upon the capture of Alexandria, we have a severe loss. Col. Ellsworth was regarded by New Yorkers, and by many all over the country, as a brother, and they mourn deeply his loss. The funeral ceremonies were very imposing; the flags all over the city, many thousand in number, were dropped to half-mast, several military regiments and 4000 firemen participated in the services; and the stillness of the Sabbath eventide was broken by the solemn dirge.

We obtained, last week, a piece of the Confederate Flag captured by Col. Ellsworth, stained with his blood; and obtained a copy of the original letter in the Colonel's own hand-writing, addressed the eve before his death to his "dearest and ever beloved parents."

One of the finest regiments which New York has furnished, is that of Zouaves, under Col. Duryea. This gentleman is acknowledged to be the best military tactician, outside the regular army, in the United States. He was for many years the commander of the 7th Regiment, and to him they owe that discipline which has made them so famous all over the country. He some months since commenced recruiting, picking his men, and refusing many each day, on account of their not answering the requirements. With 1000 of these, selected from three times that number, and comprising some of the best athletes and gymnasts in the city, he retired to Fort Schuyler, at the entrance to the Sound, and disciplined his men so thoroughly, that when they came down Broadway last week, our amazed citizens admitted them to be the best drilled regiment which as yet has paraded. They have the complete dress of the Basoarks—red Fes cap, with blue silk tassel, blue tunic trimmed with scarlet, red bag pants, and yellow leggings, which give a fine effect to the 2000 feet stepping at the same moment.

One of the most interesting scenes of the week was the departure of the Garibaldi Regiment, 900 men, who marched down Broadway singing the "Tyrolese Hymn," and "The Life of a Soldier for me,"—a spectacle never before witnessed in this country; one which brings home to us the continental stories of troops going "singing to the wars." NEWINGTON.

THE AMERICAN BLOCKADE.—The regular correspondent of the London Times, writing from New York under date of April 30, takes this sensible view of the question of the blockade:—

"The President, by proclamation dated the 27th, orders a blockade of the ports of Virginia and North Carolina, in addition to that already directed of the ports of other seceding States. For foreigners this extension of the blockade is of little consequence, as the trade of Virginia and North Carolina is almost entirely domestic. The newspaper dispatches from Washington say that these blockades will be resisted by foreign governments, as ordered without notice. I cannot believe such will be the case, for no European government, unless false to European instincts, can array itself actively upon the side of African slavery in this contest."

SAD ACCIDENT.—On Friday morning, as the Dodge Cadets were passing down State street, Newburyport, a team ran over a little boy named Patrick Buckley, aged three years and seven months, the son of Irish parents. He was instantly cared for by Dr. Tilton, to whose house the boy was taken, and everything was promptly done that was possible, but in a few minutes the little fellow breathed his last.

☞ The latest intelligence from Tennessee and Virginia on Monday morning was "good." The first named State is so hopelessly divided on the question of secession as to be on the eve of civil war; and we have a Virginia secessionist admitting that "his party was deluded and the Union men were all right."

PERSONAL.—Prentice, of the Louisville Journal, whose efforts in behalf of the Union have been so efficient and enterprising, has an arm partially paralyzed, and is obliged to use an amanuensis altogether.

MAINE ITEMS.—A dispatch was received on Saturday from Gov. Washburn, that the Third Regiment, now in camp at Augusta, would leave that city on Wednesday, and proceed directly to Washington, via New York.

The ship John Jarvis, seized at New Orleans by the rebels, is owned by the Messrs. Jarvis of Castine. Upon the receipt of the news, the Messrs. Jarvis took measures to get possession of the ship "Castine," lying at Castine, and owned entirely in New Orleans. The two ships are of the same tonnage, rank the same at Lloyd's, and are of the same value.

Rev. Caleb Bradley of Westbrook, a man well known and beloved, died in Portland, Sunday, at the age of 90 years. Mr. Bradley was born in Dracut, Mass., graduated at Harvard College in 1795, and was ordained pastor of the church in Stroudwater, Westbrook, Oct. 9, 1799. He gave up the pastoral office many years ago.—He was a genial and somewhat eccentric man.

The oldest male citizen of Portland, the venurable Josiah Dow, Esq., father of Hon. Neal Dow, died on Saturday last, having reached the age of nearly ninety-five years. He was an exemplary member of the Society of Friends, and was highly respected.—It is said he never held a public office, save one year as Selectman.

MISS SPOFFORD, to whom Col. Ellsworth was engaged to be married, is the great great niece of Gen. Joseph Warren, who fell on Bunker Hill. She is the great grand daughter of the late Dr. John C. Warren. It is a remarkable circumstance that this young lady should be connected with the first prominent martyr of the American Revolution, and with the first commissioned officer slain in the conflict of 1861.

SOUTHERN CURRENCY.—The city of Charleston has issued a very neat style of shinplasters.—They read thus:—

"The Council of the City of Charleston, S. C. 'C. S. A.' certify that this may pass for five (5) cents."

Shop keepers and whisky sellers fight shy of this picayune currency, and charge six times as much for their goods when it is tendered in payment. It is a losing currency for the people.

☞ Business matters in New Orleans are thus portrayed in the Delta of the 22d:

"There were no movements yesterday worthy of notice. It is well known that there cannot be any stock sold at this time, unless at from thirty to fifty dollars per share below the prices ruling on the 15th of March. Therefore it is idle to be talking about the sales of stocks."

As a contrast, in the Boston stock auction, Saturday, Massachusetts 5 per cent. State stock brought 100 1-2 and 100 1-4; and of the $9,000,000 loan, the larger part awarded, has already been paid in.

HAGERSTOWN, Md., June 1.—This morning the rebel forces attempted to take possession of the ferry boat lying opposite Williamsport. The Union company at Williamsport, ordered them to desist, which they refused to do, whereupon the Union company opened fire upon them, which was returned, and a brisk fire was kept up on both sides for about an hour.

Three or four of the rebels were wounded, one seriously. There were none killed or wounded of the Union company. Upon the commencement of hostilities the boat was deserted by the rebels.

☞ An intelligent Englishman, lately from New Orleans, says that while the regular military companies from the city are in good condition for service, the troops from the parishes present a sad spectacle. They are mostly planters sons, unused to toil of any kind, reared in indolence, often dissipated and physically weak.

COLLECTION.—It is reported that a distinguished colored politician of Albany has been making collections in Vermont, New Hampshire and Massachusetts, in the name of the African Civilization Society. He is said to have closed his labors by "collecting" a white woman, in Connecticut, with whom he made tracks to parts unknown.

☞ Acquia Creek forms the terminus of the Richmond, Fredericksburg and Potomac Railroad, and is a great door-way to the capital of Virginia.

LITERARY MEN AND THE WAR.—Among the contributors to the Soldiers in Cambridge, are Prof. Charles Beck, $500; Henry W. Longfellow, $200; Jared Sparks, $100; Joseph E. Worcester, $100.

A young lady friend inquires what she can do to promote the Union cause. Can't say, unless she can get some "nice young man" to call with a clergyman, having the town clerk's certificate and a spare V in his pocket.—*Bath Times.*

☞ We are informed that the members of the Exeter company of volunteers have subscribed quite a sum of money in order to purchase a sword for Capt. William H. Smith, their commanding officer.

Rarey has undertaken to break Colt's pistols of their kicking, however fiery they may be.

BALTIMORE, June 2.—The rebel troops seized the western mail coming east, at Harper's Ferry, this morning. They entirely emptied the mail car.

NEW YORK, June 2.—A company of the Second Cavalry made a brilliant dash into the village of Fairfax Court House on Friday night and captured five rebels, having one of their own men killed and two taken prisoners. There was a considerable force of rebel troops in the village. Their loss is variously estimated.

One of the five Virginians taken was Mr. W. F. Washington, a son of the late Col. Washington. He declared that he did not desire to serve against the United States goverment, and took the oath of allegiance.

During the night word came into the camp of the New York 28th that the two dragoons missing were captured by the rebels, and were to be hung this morning.—Company B. made a dash through the village, rescued them and brought them back in triumph.

It is finally settled that Major General Banks will take the field at the head of a Division.

An inspection of Matthias Point proved the alleged battery to be a woodpile.

WASHINGTON, June 2.—From a messenger direct from Acquia Creek, the following was obtained relative to yesterday's contest:

The engagement commenced on Friday, and lasted two hours. Yesterday it was renewed and continued twice that time. The lower battery which had been damaged the day previous, was repaired by the rebels, in force, two thousand strong.

For the first two hours the fire from the shore batteries was very brisk, but it was returned with still more expedition by the Pawnee. During the engagement she fired 160 shells, one of which was seen to explode immediately over the heads of the rebels working the battery. An observer through a telescope saw a number of bodies carried away in wagons during that time.

The Freeborn lodged three shells in succession in the beach battery, which had the effect of greatly diminishing the fire.

The railroad depot and buildings on the shore at Acquia Creek are destroyed. The damage to the beach battery can soon be repaired. It is safe to say that 10 or 12 of the rebels were killed. It is not known how many were wounded.

FORTRESS MONROE, June 1.—Our troops have been transporting heavy cannon to the Rip Raps, midway between Fortress Monroe and the opposite shore. One-tenth part of the Vermont regiment are on the sick list, mostly with measles.

A gentleman who left Yorktown yesterday afternoon at 4 o'clock says there were about 4000 rebel troops there, but none were to be seen between there and Fortress Monroe, a distance of 27 miles.

THE REBEL PRISONERS.—The Virginia prisoners at Washington Navy Yard, are from the best families in Fairfax county, all young officers and men. Two of the officers were West Point Cadets. They speak well of the treatment they are receiving and while unwilling to converse upon the questions upon which the North and South are at variance, they acknowledge the weakness of their cause in Northern Virginia. They say the secession forces will, sooner, or later undertake the recapture of Alexandria and the Heights of Arlington. Jackson the murderer of Ellsworth, they describe as a bully, though intelligent and influential.

Some papers say that Jackson was a prominent actor in the John Brown tragedy.

CAIRO, Ill., May 2.—It is certain the force at this point is to be considerably increased.

☞ Parson Brownlow is an independent candidate for Governor of Tennessee.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, Mass., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston,

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Crockery, Glass and China Ware.

The largest and best selected stock of the above to be found in this State, is now offered at whole sale prices, by JOHN SISE,

may 18 No. 5 Market Sq.

Local.

☞ It affords us an untold amount of pleasure to be enabled to correct a misstatement which we inadvertently made on Monday morning, in speaking of the "Infant" of the Maine 1st regiment. We, for the time being following too closely the advice which our Democratic friends gave very freely *before* the war commenced, yielded an inch, and, naturally, yielded too much. Now, let it be understood by all our Maine brothers who feel interested, that, as the boys have it, we "take it all back and say we never said it." *Our* "infant of the Regiment" is "strong" six feet seven and a half inches in height, by actual measurement, and no stretching. Thus, we beat the Maine boy by half-an-inch.

☞ Hon. John P. Hale, Gov. Goodwin, Major Eastman, U. S. A., and other distinguished gentlemen, were present at the dress parade of the Second Regiment, on Sunday afternoon. Col. Peirce took leave of his officers with a few feeling words, stating that this would be his last appearance on parade as their commanding officer; and expressing his regret that his connection with them must be severed; circumstances beyond his control rendered it imperative. He thanked them for their soldierly bearing towards him in all their intercourse, and complimented them for their devotion to the government which had conferred so many benefits upon them, and which, he hoped, would continue to do so in the future.

☞ The extra train to Concord on Thursday morning, will leave this city at a quarter *before* seven o'clock: returning, leave Concord at 5 P. M. Full fare will be charged on this and all other trains, except to military companies in uniform, who will be carried for one-half the usual price. The interest in Election Day will be enhanced by the parade of the Horse Guards, Amoskeag Veterans, Home Guards, etc.; while the election sermon, by Rev. H. W. Parker, will be an attractive feature to many at this time.

SIGNOR BLITZ.—By reference to our columns, our readers will observe that this famous magician and ventriloquist, with his troupe of learned Canary Birds, gives an entertainment at the Temple to-night, and we bespeak for him a crowded house, as his performances are of the first class order,—and the press of the different cities that he has visited, are unanimous in awarding his entertainments the highest commendations. The Canary Birds are made to go through many truly beautiful feats, such as firing pistols, drawing wagons, riding horses, etc. Our citizens, we are confident, will not fail to witness this meritorious exhibition.

☞ A detachment of twenty marines, under Sergeant McConnell, arrived at the Charlestown Navy Yard on Saturday morning from Washington. They will proceed with others to Portsmouth, N. H., and be attached to the frigate Santee, fitting out at this station.

Lieut. McD. Reynolds has been detached from the marine barracks at the Charlestown Navy Yard, and ordered to the command of the marine guard of the Santee.

PORTLAND, SACO AND PORTSMOUTH RAILROAD.—This company held its annual meeting on Monday, at North Berwick, Me. The following gentlemen were chosen Directors:

Ichabod Goodwin, Francis Coggswell, George M. Browne, Charles E. Barrett, Nathaniel Hooper, John Howe, George Wm. Burleigh.

The two last named gentlemen succeed Messrs. Thomas West of Haverhill, and James Hayward of Boston, former members of the Board of Directors.

APPOINTMENT.—Dr. C. H. Burbank of Portland, has received the appointment of assistant Surgeon in the U. S. Navy, and ordered to the frigate Santee at this Navy Yard.

☞ We learn that William H. Hale, of New Hampshire, has been appointed to a Second Lieutenancy in the U. S. Marine Corps. Mr. Hale was recently a Major in the Liberal service in Mexico. He is a relative of Hon. John P. Hale.

BAD ACCOUNT OF BALTIMORE.—*New York, June 3.*—U. S. Marshal Bonnafort of Baltimore does his best to stop the exportation of arms, but has not sufficient force, and can't depend on the police. 40 tons of powder were lately taken to Harper's Ferry, and the rebels have about 7000 stand of arms in private houses in Baltimore, while 3000 more are buried in the 8th ward.—Arms are now making and nightly going out of the city in chests. The Union men are in a majority, but without arms. The Marshal says, should the rebels win a single battle, the scenes that would ensue in Baltimore would test the truth of his assertion that Gen. Cadwallader mistakes the feeling of the city, and trusts them too far.

WASHINGTON, June 3.—I learn that government will make an attack on Fairfax, Va., to night.

The rebels receive communications from here, via the Relay House and Harper's Ferry, and thence to Richmond.

The New Hampshire regiment marched into Virginia Sunday night.

Jeff. Davis visited Harper's Ferry on Thursday night.

DEATH OF MR. DOUGLAS.—A dispatch from Chicago, Monday, June 3, says:

"Senator Douglas died at 9 o'clock this morning."

The conspicuous part which the deceased had borne in American politics for the last few years, and especially the noble stand which he has recently made in favor of the government and against rebellion, invest his death with great importance; and the event will be widely felt at the present time as a national calamity. But we are short-sighted creatures; and what we look at as the disappointment of cherished hopes, may be overruled by the Judge of All the Earth, for the promotion of great and permanent good.

Senator Douglas leaves a widow to whom he has been married but a few years; and a family of children by a former marriage.

ITEMS.—The Common Council of Boston have voted to omit the usual Fourth of July dinner, and appropriate the amount usually expended for it ($3000) toward the support of the families of the soldiers which may need assistance. The other features of the celebration will take place as usual.

Spalding, of "Prepared Glue" notoriety, has "gone up," busted, gone to smash,—his glue not being sufficiently adhesive to "save the pieces." This has come of physic. He made $20,000 by his glue in a single year, and being giddy with fortune, he thought to mount to the rich man's heaven on a dose of pills. But an overdose has killed him.

GEN. SCOTT AND JEFF. DAVIS.—A member of the seventh regiment, in a letter to his father, writes:—"I heard a good anecdote of General Scott yesterday. He was asked what he intended to do with Jefferson Davis. In answer, he merely put up his open hand, and gradually closed his fingers, till his hand was clenched. He could not have given a more expessive answer."

One of the most momentous health-problems with which we have to deal, is to secure the proper physical advantages of civilization for American women. Without this there can be no lasting progress.

CONFESSED AT LAST—That Herrick Allen's Gold Medal Saleratus is the best article known for making nice light bread, biscuit, pies, puddings, etc. Baseless imitators are trying to palm off to the public their article, saying it is Gold Medal, or as good; therefore, all who would preserve their stomachs and health, should look and see that the name of Herrick Allen is on the wrapper, and be not put off with the spurious because the merchant tells you it is good. Have nothing but the genuine Gold Medal. Dyspeptics can use it, and it will do them good. Try it.

Have you a Cough, Cold, Pain in the Chest, or Bronchitis? In fact, have you the premonitory symptoms of the "insatiate archer," Consumption? Know that relief is at hand in *Wistar's Balsam of Wild Cherry.*

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education, or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

Are you sick, feeble, and languishing? Are you tired of life, with your system deranged, and your feelings unsettled? These and similar symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the cheerful feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous diseases. The same purgative effect expels them. Caused by similar distortions and derangements of the natural functions of the body, they are rapidly, and surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons:

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.
ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR DOC. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all that so every day sells a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.
PITTSBURG, Pa., May 1, 1853.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to relieve from a foul stomach which they cleanse at once.
Yours with great respect, ED. W. PRESBLE,
Clerk of Steamer Chariton.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, }
Washington, D. C., 7th Feb., 1856. }

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms,

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy when given in small doses, for the frequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms,

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for the frequently bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in love. To regulate the organs of digestion, purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of life.
JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, Worms,

From Dr. J. P. Vaughn, Montreal, Canada.

The much cannot be said of your Pills for the cure of cutaneous. If others of our fraternity have found them as efficacious as I have, they should do as I do, make a living by for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the origin of others that are worse. I believe they act nearest to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the severe fevers, also when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hoshor, of the Methodist Episc. Church

PLANTER HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on extraordinary neuralgic pains, which could not be dislodged by any other remedies. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 8 Feb. 1855.

DR. AYER: I have been painfully afflicted, by your Pills, of Rheumatic Gout—a painful disease that has afflicted me for years.
VINCENT SLIDELL.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilled hands, is dangerous in a public pill, from the difficulty of ignorance that frequently follow its incautious use. These pills are entirely or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention that it retains all the characteristics which distinguish it from the ordinary grades of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

PROFESSOR WOOD'S
HAIR RESTORATIVE!
SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 2 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity; at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case where a fair and reasonable trial has been given, it has proved a decided success, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of these few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for years, and are persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the hair has become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappeared under its use. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a marked improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do it me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, than it was any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I feel it to be a duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTEL.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be revitalized. He tried his own case—it most bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—*Dear Sir*,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, the last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I have used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

WEDNESDAY, JUNE 5, 1861.

THE QUESTION.

The great question to be settled by the present contest, is, whether we are a Republic. We had supposed all along, that we were; but it was assumed by Wigfall, Cobb, Mason, Wise & Co, that we were no nation and had no government, except King Cotton. Acting on this assumption, these gentlemen and their allies have plunged the part of the country where they live into rebellion, confusion and distress, without giving the people in each State anything like a fair chance to choose between the old Republic and the new Kingdom.

They aimed also at the utter destruction of the old government, and hoped, by the aid of supple tools whom they expected to find in the free States, to rule the country as the Cottonocracy of the Kingdom. And in prosecution of this purpose, they steal treasure and arms, attack forts and march armies against the Capital. The free men of the free States stand by the government, and make a wall of their own bodies to oppose the progress of the rebels. Thousands of the men who thus offer themselves on their country's altar, feel no great interest in any question of negro slavery; and they are by no means abolitionists.

Yet the Slavery Question is getting into the present rebellion very rapidly, and mixing up with the war. The fact that three hundred refugee negroes are now in the United States service as laborers, at or near Fortress Monroe, puts to flight all the sublime nonsense about their unusual attachment to their masters.

That such attachments do exist in given cases, there can be no question:—but that any human being ever did or could love slavery, is simply impossible; and in a vast majority of cases, the love of freedom would prevail over any attachment to a mere owner or master. The negro is fond of *his house*, his wife and children, and of his master and mistress, if they be good ones. And the best class of slaves feel as Paul did, when he said, "If thou art called, being a servant, care not for it,—but if thou mayest be *free*, use it rather."

These refugees probably feel somewhat so. They do not so much wish to change masters, as to be masters of themselves.—They are *contraband of war* now, but what will they be when the rebellion is crushed and the war ended? They ought to be, and we think must be, freemen.—They should be fed like our soldiers, and *paid* like other laborers.

The United States government is not, ought not to be, must not be a negro trader. The claimants of these *seceded* slaves, have cut the cord that held them in bondage, and put themselves outside the pale of the fugitive clause in the Constitution, and of the fugitive slave bill. They should never get their slaves again, nor a single copper as a compensation.

Let them, if they please, ask Congress for pay,—as long as we have asked for the old French Claim,—and in the year 1921, let their grand-children begin to think the payment doubtful!

VERMONT.—Wheelock G. Veazey, a native of Exeter, who commenced the practice of Law at Springfield, Vt., a few months since, has enlisted as fine a company of men in that neighborhood, as the world can produce, of which he is the commander. The company was first enlisted for three months, but it was not wanted. Then the Legislature passed a law authorizing the enlistment for two years, with extra pay. Not to be "counted out", they went in for two years. And then came the United States order for three years. This threw them all afloat again, and for a while it was very doubtful if they could be carried a year longer. But when the pinch came, they went in almost to a man.

Some of his New-Hampshire friends have presented Capt. Veazey with a handsome sword and belt.—*Nashua Telegraph.*

☞ The will of N. I. Bowditch, Esq., has been proved. Among the public bequests occurs the following item:—"I give to the Massachusetts General Hospital $5000, as a fund to be called the Wooden Leg Fund, the income to be applied to defraying the expenses of wooden legs for patients who have been obliged to submit to amputation. In the distribution of this income, I should desire that female patients should be preferred to males, and young patients to old ones."

☞ One of the general orders as to army nurses, issued from Washington, says they must wear the regulation dress, "no hoops being allowed in the service." Patriotic girls enlisting in this service must therefore consent to become "perfect frights" for the time being.

STEPHEN ARNOLD DOUGLAS was only 48 years old at the time of his death; as he was born April 23, 1813, at Brandon, Vt. Dependent mainly on his own resources, in his youth, as his father died when the son was two months old, Stephen worked a year or two as a cabinet maker, but his health failing under the work, he went to school, taught school, studied law, and at 22 years of age was elected Attorney General of Illinois.

He was chosen a Representative to Congress in 1838, from which date to the day of his death he was in Congress as Representative or Senator. In these capacities, as a candidate for President, and as a stump speaker, he was so conspicuous, as to make any detached notes of ours quite superfluous.

Mr. Douglas married, 1, Martha D. Martin, of Rockingham Co., N. C. by whom he had 3 children, 2 of whom are living. She died in 1853. 2, Adele Cutts, of Washington, D. C., who survives him.

He exercised a strong influence on public affairs for many years, and enjoyed a large personal popularity. Had the democratic party remained unbroken, he would probably have died at Washington, as President. But having first offended the slave power by rebelling against it on the Lecompton question, that power never forgave him. And on the other hand having *afterwards qualified* his profession of popular sovereignty by bowing down to the Dred Scott decision, and dicta, he lost free democrats and gained no republicans, thus ensuring his defeat.

The complications that have followed, made him a most conspicuous politician, and promised to keep him before the people as a man of mark. But He who seeth not as man seeth, has seen fit to remove him at once from the clash of arms and the strife of tongues, to the silent rest of the grave, "with the Kings and Counsellors of the Earth, who built desolate places for themselves;" where the weary are at rest; where the prisoners rest together, where the servant is free from his master; where the small and great are equal, and the voice of the oppressor is not heard.

A lesson is here for us all, of human frailty and mortality, of rebuke to ambition, and of exhortation to humility, and submission to the "Maker and Monarch and Savior of all."

☞ Postmaster General Blair, whose wife is a daughter of the late Levi Woodbury, of New Hampshire, sent out invitations to distinguished friends to meet Col. Tappan and other officers of the First Volunteer regiment of New Hampshire, at his residence, opposite the War Department, Washington, June 3d. The play came off, but Hamlet was not represented. Col. Tappan received orders, just before it was time to go to Mr. Blair's, to proceed with his regiment to Virginia, to attend a larger party, prepared on that side of the Potomac by Gen. McDowell. The party was a very elegant one, nevertheless, and while many regrets were expressed that Col. Tappan and the other officers of the regiment were not present, a feeling of satisfaction was expressed that their absence was occasioned only by an expressed desire on their part to be with the advancing army in Virginia.

A YOUNG RECRUIT.—While recruiting was going on at Haverhill, Mass., a boy, five or six years old, asked to be received. After some quizzing by the officers, his name was put down. Subsequently, the little hero appeared for drill with the company. He was received with great *eclat* by the soldiers, and now drills regularly. When he gets very tired, a soldier carries him. Occasionally he takes the place of the drill officer, and puts the company through their exercises. The boy is in earnest and supposes himself enlisted for the war.

AN IMPROVED CATECHISM.—A young miss of our city, whose acquirements are rather beyond her four summers, was a few days since repeating the catechism at her mother's knee. In response to the question, What did God create? she said "The earth, the sun, the moon, the stars—*and stripes.*" *Belfast Journal.*

☞ A short time ago, an elaborate article on the nationality question, in one of the British Quarterlies, began with the remark that the way to judge how England would decide on a national question, was to see where her interests would carry her.

☞ It is to be concluded, from the prices current in the Southern markets, that provisions are scarce, and there is a probability even of famine. Flour has advanced one hundred per cent. since the date of the blockade.

ALEXANDRIA, June 3.—A gentleman just from Arlington reports all quiet there up to 2 o'clock P. M.

The troops which have been quartered in this city are gradually being removed to the encampments outside, much to the gratification of the citizens.

The Zouaves are amusing themselves by putting in order the fire engines of the city.

☞ The members of the Kentucky Legislature have presented Col. Anderson with an elegant and substantial dress sword.

STATE ITEMS.

The Manchester Union Democrat notices the fact that a leading clergyman of that city recently became so engrossed in a political discussion that he forgot to attend the funeral of a member of his church.

Though the season thus far has been unusually cold, the staple crops are now giving indications of abundant harvests. Grass is thickly set and has already obtained a hardy growth, and the frequent rains now falling add to its verdure and its abundance. Grain is rapidly coming forward and the autumn sown wheat and rye has attained a luxuriant growth. A field of rye a mile below Manchester is more than two feet high, and has already begun to "head." Corn is just sending up its blades from the earth, presenting a healthy color and an evenness of growth. Potatoes are not yet all planted, but the probability is that many an extra acre will be appropriated to the culture of this crop.

The Amoskeag Manufacturing Company have a large quantity of land in and around Manchester, and are generously allowing their employees to plough and plant it during the leisure time which they are having the present season.

The town of Hancock refused by quite a large majority to assist their volunteers and their families, who have gone to the war, at a town meeting held on Tuesday. Some of their best citizens have enlisted, among them Capt. Ephraim Weston, County Commissioner.

☞ The Boston Courier of Tuesday, publishes a statement by which it appears that on the twenty-seventh of last month there were under seizure, or as prizes, in the port of New Orleans, at least twelve ships, two barks, one brig and five schooners. Among the ships is the Express, Capt. Frost, hailing from this city. The seizures made by the Confederates up to the last accounts may be thus enumerated:—

Off the different ports, 15; in port, 30; steamers captured on the Mississippi, 15; Total, 60.

The privateer Calhoun is frequently referred to in the papers, and is said to be the steamer W.H.Webb, once a New York tug-boat. She is 635 tons burthen, and is a very swift boat.

☞ The New York Tribune publishes the annexed extract from a letter from Gov. Andrew to Gen. Walbridge of New York, approving the General's policy of enlisting half a million of men for the war.—He says:

"The day of compromise with treason has irrevocably passed, and the day of absolute victory shall be made to come, if we fight for a century. There is a perfect unanimity of sentiment in Massachusetts. Party names and party creeds are utterly ignored and forgotten. The preservation of the Union, the support of the Government, and the emphatic punishment and solemn extinction of traitors, are the catholic religion of us all. And it is a religion of mercy.—We have always been impressed with the wisdom of Washington, who, when advised that five thousand men would suffice to quell the Shay's rebellion, replied, 'Then I will send fifteen thousand.' There can be no mistake about that."

A STRUGGLE IMPENDING IN EUROPE. Garibaldi has addressed the following letter to the Polish General Mierlowski. It is dated Genoa, May 1, 1861:

"My Dear Friend—The supreme struggle of oppressed nationalities approaches, but nobody can tell the precise time.

We must always be ready.

Tell your countrymen, then, what I tell the Italians. We must have the money necessary for the purchase of a million of muskets.

The brave Poles, who during the massacre of Warsaw proved that they can sacrifice their lives for their country, will sacrifice a portion of their income.

You, General, and your friends, were ready to give your lives for Italy. Well! I and mine will do as much for Poland.

G. GARIBALDI."

SPADES ARE TRUMPS.—An impromptu meeting of the Home Guard of East Medford, Mass., was held some time since, and the members, well armed with spades, hoes, rakes, seeds, &c., proceeded to the gardens of those of their neighbors now serving in the federal army. They soon prepared the soil and planted the beds in good style, much to the joy of the female relatives of the absent troops. The example is worthy of imitation.

☞ The Halifax Express says there are no less than six large American ships at present in that port, and three more are expected from Great Britain. American ships are beginning to monopolize a considerable portion of the carrying trade between Great Britain and Halifax.

☞ A letter from the steam frigate Niagara announces that she was destined for Pensacola, and not for New Orleans. Capt. Adams, of the frigate Sabine, acting flag-captain of the fleet at Pensacola, has been recalled, and Capt. McKean of the Niagara will probably take his place.

☞ The editor of a weekly paper in Maine has been publishing the evening despatches, selling the slips for five cents each. He says some of the citizens club together, five of them subscribing one cent each to purchase the slips!

NEW YORK, June 3.—The Post's Washington letter says it is considered certain that Congress will authorize a popular loan of one hundred millions. Eight or ten per cent. will be offered and notes issued of from fifty to one hundred dollars in value.

The Wheeling Intelligencer of Saturday announces the breaking up of a rebel camp of 500 or 600 men at Buffalo on Kanawha, on the approach of an Ohio regiment.

It is reported that Jeff. Davis has issued a proclamation directing the federal troops to withdraw from Virginia soil. Private advices say that Davis is really alarmed, and his anxiety is so great as to affect his health.

The Washington dispatch to the Express says by the end of the week the government expect to have 25,000 men in Virginia near Alexandria, 20,000 at Grafton, 20,000 near Harper's Ferry, 15,000 near Fortress Monroe and 10,000 around Baltimore, Annapolis and the Relay House.

It appears that the frigate Powhattan is blockading Mobile.

BLOCKADE OF NEW ORLEANS.—The N. O. Delta of May 28 contains the following dispatch, announcing the blockade of the Mississippi river:

"*Pass-a-l'Outre, May* 26.—To Colonel P. O. Herbert:—At 2 P. M., sighted steam sloop-of-war, supposed to be the Brooklyn, about twenty miles east from the Pass. Ran within three to four miles of her, set colors and fired guns. No answer made. Came in, making preconcerted signals. Bar blocked with five ships. All towboats inside.

C. A. FULLER, Lieut. Col.

P. S.—She is at anchor close to the bar, with American colors flying.

CINCINNATI, June 3.—Two columns of troops from Gen. McClellan's command, one of Virginia, and one of Indiana volunteers, left Grafton last night, and after marching 20 miles, through a drenching rain, surprised a camp of rebels, of 200 strong, at Phillippa, and routed them, killing 15 and capturing a large amount of arms, horses, ammunition and camp equipage.

The surprise was complete, and at latest advices the federal troops were in hot pursuit of the rebels. Col. Kelly was wounded, and has since died. Several others of the federal troops were slightly wounded.

☞ Mr. Russell, of the London Times, said when he was in Washington, that as soon as the railroads leading into the cotton region of the East Indies could be finished, the supply of cotton from that country would be ample; and those roads would, he said, certainly be finished within a few months.

ST. LOUIS, June 3.—Gen. Lyon has appointed Col. Blair commander of the Arsenal here. Capt. Cole in command of the battery opposite the arsenal, has resumed the examination of all passing boats.

Six regiments of Missouri volunteers were sworn in for the war on Saturday.

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters, the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

MESSRS. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

IMPORTANT RAILROAD IMPROVEMENT. We learn that a decidedly progressive step in the Eastern travel is about to be taken. The inward express train now running Mondays, Wednesdays and Fridays over the P. S. & P. and Eastern Railroads, is to be taken off, and the Daniel Webster is to reach Portland in season for her passengers to take the 3 o'clock afternoon train for Boston. On the arrival of this train, passengers can at once proceed direct to New York, arriving there the next morning; for example, leaving Bangor on Monday morning, passing through Portsmouth at half-past 5 P. M., reaching Boston at 8 P. M., and proceeding to New York at 9 P. M., they will reach the Empire City on Tuesday morning, without the delay of stopping a night in Boston. In fact, one continuous line will be opened, so that a passenger can proceed from the Eastern part of Down East, even down to secessiondom, without delay on the road—and much time will therefore be saved to passengers and mails by this arrangement.

It will also be arranged that passengers leaving New York in the morning, arrive in Boston in the afternoon, and leave by the Eastern trains at 5 1-4 P. M. for Portsmouth, Portland and Bangor. The time of departure of the train on the Eastern road will be arranged to accommodate this travel. The new arrangement will go into operation on Monday next.

This will be a very great convenience to Eastern travel and a great economy to the Eastern Railroad, in the saving of the expense of the inward express train; and the management are entitled to much credit for bringing about a change that is alike a convenience to the travelling public and an economy in the operation of the road.

☞ A quantity of Testaments and Psalms have been sent to this city by the N.H. Bible Society for the supply of the Second Regiment, and are to be distributed to the Volunteers by Rev. Mr. Medbery, our faithful City Missionary.

Many of our readers will remember that Capt. John H. Jackson in all human probability owes the preservation of his life to the fact that he carried a testament in the breast pocket of his coat, when in one of the engagements which occurred during the Mexican war. It was presented to him by a sister, just previous to his leaving home for the seat of war, and he carried it with him at all times until he returned. Col. Pierce (recently of our Second Regiment N. H. V.) was at that time a lieutenant in the same company; Capt. Jackson was also a Lieutenant, but having command of the company. Col. Peirce occupied a position near Capt. Jackson, and, observing him suddenly fall backward, supposed that he had been shot. But Capt. Jackson was soon as active as ever in the discharge of his duties. Subsequently Capt. Jackson discovered, on taking the testament from his pocket, that a bullet was buried in it,—it having passed through one cover and many of the leaves, but fortunately, no further.

The Bangor Whig, last week, related an incident which is remarkable even for its similarity to the above. It says that Geo. A. Ingalls, a private at Camp Strickland, was saved from death last week by a Testament in his breast pocket. A comrade was carelessly handling a revolver, when it was dicharged, and the ball passed through Ingalls' overcoat and uniform, and struck the Testament with great force but fortunately did not go through it. This incident produced a sensation at Camp Strickland, and had a good effect upon the soldiers.—Capt. Davereaux brought home the Testament, and will give it to the mother of the soldier.

☞ The fine steamer Illinois, at the Navy Yard on this station, is taking on board a heavy armament of great guns;—and the other operations, of repairs, fitting out, and preparing to build, sundry vessels of war, make the Navy Yard as busy as a bee-hive. It is to be presumed, not only that two of the new steamers will be built here,—but that Congress will authorized the launching of the Franklin, one of the best large ships in the Navy; and the alteration and completion of the Alabama.

☞ Signor Blitz gave a very pleasing entertainment on Tuesday evening. The Signor looks as young as ever; and while amusing his audience, takes great delight in exhibiting the truly astonishing performances of his learned Canaries, which will do almost everything except articulate words. To-night is his last in this city.

☞ The marines from the Charlestown Navy Yard, to be placed on board the Santee, arrived in this city on Monday evening.

☞ Many of the flags in this city were hung at half-mast on Tuesday, in respect to the memory of Senator Douglas.

☞ A California paper states that Rev. T. Starr King has made $12,000 by his lectures in that State during the past ten months.

WASHINGTON, June 3.—Reliable information has reached here that the rebel troops at Fairfax Court House number 300, at Centreville 1000, at Lee's or Fairfax station 300, and at Manassas Gap Junction 4000 to 5000.

It is understood that Col. Anderson will be appointed a Brigadier General.

The order to Col. Frank P. Blair, Jr., to go South, was conditional, and only to be executed when he considered Missouri safe.

At present there is quite as much ground for the apprehension of danger in that State as in Virginia.

The plan of organization for volunteer forces is so modified as to allow one surgeon and assistant to each regiment.

The Secretary of War has issued a general order, deploring the death of Senator Douglas, to be read to the whole army on Tuesday, and has ordered regimental colors to be draped in mourning.

The seven new steam sloops-of-war are to be named as follows:—

Those to be built at Portsmouth, the Kearsage and Ossipee; the two to be built at Boston, the Housatonic and the Wachusett; the one to be built at New York, the Adirondack; those to be built at Philadelphia, the Juniata and Tuscarora.

There are 15 war vesssels now in the Gulf of Mexico, 12 on the Atlantic coast, and 10 in the Chesapeake and Potomac.

NEW YORK, June 4.—U. S. Marshal Bonnafort has returned to Baltimore with power from the War Department to arrest all suspicious persons, seize all the arms and ammunition in their possession, and appoint a sufficient force of deputies to guard all the highways leading to the city.

Gen. McLellaud is instructed to furnish arms and accoutrements to the Kentucky Brigade, which has been ordered to report at Col. Anderson's headquarters, Louisville, forthwith.

Col. Anderson was quite ill when Capt. Cahill left Kentucky.

The capture of John B. Washington at Fairfax Court House was "a pleasant affair." As an infantry captain of the rebel force, he was prominent in the resistance to our cavalry, until a trooper rode up, caught him by the hair, lifted him bodily upon the pommel of his saddle, and, holding him in this position, charged twice through the town. Capt. Washington complained bitterly, but, after having been lectured by Gen. Scott, he concluded to take the oath of allegiance, and was released.

☞ A correspondent, for whose communication we have no room to-day, suggests and recommends a notice of Senator Douglas's decease, by the City Government.—We will try to find room for the article to-morrow.

☞ The extra train to Concord on Thursday morning, will leave this city at a quarter *before* seven o'clock: returning, leave Concord at 5 P. M. Full fare will be charged on this and all other trains, except to military companies in uniform, who will be carried for one-half the usual price. The interest in Election Day will be enhanced by the parade of the Horse Guards, Amoskeag Veterans, Home Guards, etc.; while the election sermon, by Rev. H. W. Parker, will be an attractive feature to many at this time.

CONFESSED AT LAST—That Herrick Allen's Gold Medal Saleratus is the best article known for making nice light bread, biscuit, pies, puddings, etc. Baseless imitators are trying to palm off to the public their article, saying it is Gold Medal, or as good; therefore, all who would preserve their stomachs and health, should look and see that the name of Herrick Allen is on the wrapper, and be not put off with the spurious because the merchant tells you it is good. Have nothing but the genuine Gold Medal. Dyspeptics can use it, and it will do them good. Try it.

Have you a Cough, Cold, Pain in the Chest, or Bronchitis? In fact, have you the premonitory symptoms of the "insatiate archer," Consumption? Know that relief is at hand in *Wistar's Balsam of Wild Cherry.*

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want consequent upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflection that can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Cal., 3rd June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous constitution, I have suffered from it in various ways for years. Sometimes it would burst out in ulcers on my hands and arms; sometimes it would show itself in my neck and breast, and the stomach. Two years ago it broke out on my head and covered my scalp with sores with one sore, which was painful and loathsome beyond all description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to the nearest druggist for it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful twice a month, and used almost three bottles. New and healthy skin was begun to form under the scab, which after a while fell off. My skin is now clear, and I have by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the benefactors of the age, and remain ever gratefully,

Yours,

ALFRED R. TAILEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says his curse the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a very large mass swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Disease.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured more intractable cases of Leucorrhœa by it, and more where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing seems to my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients had Syphilitic sores in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another had Syphilitic secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disease would soon reach his brain and kill him. It yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, and of course without some disposition to his force. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become sensitive to the weather that no a damp day elsewhere, and excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, and tried in vain the skill of physicians, and took to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FIRAM.

John T. Gotshall, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed until I tried your Sarsaparilla. Its effects have been so decided and lasting in my case, that I feel it my duty to make my cure known to the public, that others may be benefited by your Sarsaparilla, because I believe it to be the best of any thing you make as a worthy thing. By the blessing of God it has cured me, and has so purified my blood as to give me a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit large. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these afflictions have been made by the alterative power of this medicine. It stimulates the torpid functions into healthy action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the profession of the public, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other in the cure of throat and lung complaints, that it is hardly necessary to publish evidence of its virtues. It is recommended as excellent for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few public communities, or even families, among them are now without some personal experience of its effects—some having relied on it in their sickness and in the recovery of their children from dangerous disorders of the throat and lungs. And how few there are, the dreadful fatality of these disorders, and as they know too, the effects of this remedy, we need not do more than to assure them that it has now all the virtue that it did when making the cures which have won so strongly upon the confidence of mankind.

REAL ESTATE IN NEW CASTLE

FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The position of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a house," a handsome remuneration for a very small outlay.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and offered by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Morning Chronicle.

☞ Mr. C. M. Clay, the American Minister to Russia, has written to the London Times on the subject of American affairs, in brief and decisive terms. He says the revolted States can be subdued; that it is not proposed to subjugate them, but simply to put down rebel citizens; that it is for the interest of England to stand by the Union; asks if England is so secure in the future against home revolution and foreign ambition as to sow the seeds of revenge; and concludes by saying that England is the natural ally of the United States.

☞ A strange spectacle was witnessed on the Illinois river a few days ago. In tow of steamer Resolute, going north, was a barge, on which reposed a two-story frame house. This house was the property of a man who lived in it in St. Louis. Becoming alarmed at the late commotion, he had his house moved as stated and taken to a free State. His family went along with him. While going up the river, the man's dog sat in the door, the cat reclined lazily at a window, and the good wife carried on the household work as usual.

☞ The anniversary of the time honored "Ancient and Honorable Artillery Company" was celebrated in Boston with spirit, on Monday. The weather was wet of course,—it always rains on the anniversary day of this venerable and gallant corps,—but the ranks were full and patriotism was overflowing.

☞ Samuel W. Mason, who is well known in this city, and has been for some time past connected with the Boston Journal, has gone into the employment of the Boston Herald, probably at a liberal advance in salary. Mr. Mason is an excellent reporter and always faithful to the interests of the employers.

"If we were asked what we considered a sign of true greatness, we should point to those who, instead of waiting for some opportunity to do something noble, avail themselves of every day occasions, and carefully improve the most ordinary opportunities of doing good. These, are the truly great, for No occasion is too insignificant for them to dignify it by improvement.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Bloomtville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. R. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk Street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I feel bound to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the Stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said *"that it is the best pr paration of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JUNE 5, 1861.

FACT,—AND LAW.—Judge Taney, in his late opinion on a habeas corpus case, dwells upon the circumstances which, in his opinion, aggravate the military interference in this case, such as the *good order in Maryland*, the presence of all the judicial officers, and the facilities for a prompt and just disposal of the case. He thinks, therefore, that the prisoner has been arbitrarily deprived of rights which cannot be too sacredly guarded. He concludes as follows:—

"In such a case my duty was too plain to be mistaken. I have exercised all the power which the constitution and laws confer on me, but that power has been resisted by a force too strong for me to overcome," &c., &c.

Every body that knows about the *good order* in Maryland, can appreciate Judge Taney's knowledge of facts and his regard for the truth,—as in this case he either does not read the papers, or else he lies terribly

On one of these horns he must hang,—for the whole country knows he states an absolute falsehood.

Under these circumstances, while his legal decisions may have some power, his legal opinions become tainted with the prejudice and falsehood with which he surrounds the case.

☞ A theological student, who reached Washington on Monday from Richmond, says that there are 100,000 rebel troops in Virginia; but the sensation newspaper reports discredit his statement. The story may not be far from truth. It will be recollected that, after the John Brown invasion, the State expended large sums on military matters; and, what with the volunteers from other seceded States, there is no reason to doubt that the force in Virginia at this moment is very large.

Hon. E. K. Smart, of Maine, has declined a re-nomination as Democratic candidate for Governor, and favors a suspension of all party conflicts. In his letter he says:—

"In this great crisis I wish to do what I can to strengthen the hands of the patriotic men who are struggling to save our beloved country, and to act with those who, without respect to the differences of the past, are ready to disregard mere party organization, and to stand solely upon the issue of the union of all the States."

☞ Jefferson Davis has issued a proclamation directing the federal troops to withdraw from Virginia soil. Patrick Macfingan with a wheelbarrow, ran a race with a locomotive. As the latter went out of sight, Mac observed "Aff wid ye, ye rearin-blaggard, or I'll be afther runnin' into yvce."

☞ The Concord Patriot says it is understood that another Regiment of troops is to be at once enlisted in this State. Already there is one company of sixty men in camp near that city, all Irishmen from Nashua, designed for that Regiment.

☞ Secretary Cameron is now receiving beef for the army for less than five dollars a hundred, which is just as good as that for which he has hitherto been paying eight dollars.

TUFTS COLLEGE.—Rev. A. A. Miner, of Boston, is prominently mentioned as likely to succeed the late Dr. Ballou in the presidency of this college.

☞ Capt. G. V. Fox has been appointed chief clerk in the Navy Department. He was formerly of Nashua. His wife is a daughter of Hon. Levi Woodbury.

The most surprising "movement" in the North took place on the 27th of May.—The waters of Lake Michigan rose thirty-one inches above their ordinary level, and in half an hour again receded. Nobody knows what occasioned the phenomenon.

NOT NECESSARY.—A man whom Dr. Johnson once reproved for following a useless, and demoralizing business, said:

"You know doctor, that I must live."

The brave old hater of everything mean and hateful, coolly replied that he did not "see the last necessity for that."

Prentice, of the Louisville Journal, says: "Our Kentucky disunionists think that they are fighting against abolitionists in the North, whilst *they are really fighting for abolitionism in their own State.*"

A celebrated character who was surrounded by enemies, used to remark,—"They are sparks, which, if you do not blow, will go out themselves."

"Friend, the Bible tells thee to swear not at all." "Oh, well, I don't swear at all; I swear only at those I am mad at."

A little girl, hearing it remarked that all people had once been children, artlessly inquired, "Who took care of the babies?"

It may sound like a paradox, yet the breaking of both an army's wings is pretty sure to make it fly.

For the Chronicle.

THE DEATH OF HON. STEPHEN A. DOUGLAS.—The death of this distinguished and truly eminent man,—cut off in the prime of his years and strength and usefulness, has caused a deep and universal sadness among the friends of the American Union. Sprung from the people, of humble origin, unaided by wealth or family influence, he early, and by the matchless vigor of his own powers, took a leading stand among the growing and influential men of the West; so that at the age of thirty-five years he had held more important trusts, from the people and the General Government, and occupied a more prominent position among the public men of that day, than has fallen to the lot, or met the ambition, of any American, except it be the single instance of Alexander Hamilton.

Bold, intrepid, honest, and yet ambitious of the good opinion of his countrymen, he was, from the first, a strong partisan, and for years the idol of his party;—yet, probably more than any equally prominent statesman, he held to his public political views with singular tenacity and consistency, in spite of the opposition of his political antagonists, the temporary opprobrium of the vast mass of his fellow citizens, as well as the treachery and personal rivalry of many of his own party.

Since the present troubles began, his course has been eminently noble and patriotic. Among the first to close the book of political and party differences, to cast to one side all personal prejudices, he rushed to the support of the Government, not caring who administered it for the time being, nor whether he and they had been parties to a more intense political controversy than has been witnessed in America since the beginning of its constitutional history. His act, in this respect, and the high and patriotic addresses delivered by him on his return to Chicago from Washington, during the last few weeks, did more to unite the whole North and West, and to sink the insignificant questions of the day to their proper level, than the acts and words of any other man. He sacrificed his life in his efforts to unite the people of his adopted State in a prompt and cordial championship of the constitution, the union and the laws, against rebellion, anarchy, and black-hearted treason.

Well may we cast a mantle over his faults,—the faults that oftenest accompany strong powers and strong passions,—the faults, too, of a generous nature,—and mourn the loss, seemingly to us untimely, of this statesman and patriot. It is proper that the American people should mourn the loss of their great men. Their virtues and their vices are the best guides, among earthly influences, vouchsafed to our youth.

We trust, therefore, that the authorities of this city will, as in times past on similar occasions, take suitable notice of this great national loss.

SOUTHERN CLIMATE AND NORTHERN SOLDIERS.—The Southern rebels count strongly upon the effect of the hot weather upon our Northern troops. In this they will find themselves mistaken. Mr. Russell their great friend and historian, in one of his letters from India, stated that its climate was best endured by the Europeans for several years after their arrival; and other authorities have stated the same thing. Our own experience during the Revolutionary War shows that the New England troops operated in the South during the summer heats of 1780 and '81 without difficulty.—Many glorious battles were fought by them during the hottest months, and no one heard of their relaxing in courage or conduct during July, August and September of those years.—*N. Y. Post.*

An article in the *London Times* of the 22d, on Jeff. Davis' message says: "Mr. Davis, while making a studious display of moderation, and endeavoring to conciliate the good will of European nations, is perfectly aware that his theories depend for acceptance on the rifles of his fellow citizens. The tribunal which decides questions of international law is usually a stern one. If the North prevails, it will prove that the Union was a nationality; if the South makes good its independence it will prove that the Union was a partnership during pleasure. This is what is to be decided, and we must await the event."

CHICAGO, June 4.—Mrs. Douglas, at the urgent desire of the people of Illinois, has consented that the remains of her deceased husband should be interred in that State. They will be interred in Cottage Grove, near the Lake shore. The funeral will probably take place on Friday.

☞ Southern papers are unanimous in pronouncing the crops of wheat, rice and corn abundant. But they also state the the quantity of land sowed with cotton is very small. This looks like plenty of food, but little money.

CHRISTIAN CONFERENCE.

RYE, June 4, 1861.

Messrs. Editors:—The N. E. General Conference of the Christian denomination assembled in business session to-day, at 10 o'clock. The Convention was called to order by John Haley, and C. P. Smith officiated as Secretary.

On motion, the Chair appointed Rev. Mr. Burbank, Smith, and Goodwin, as a committee to nominate officers for the ensuing year.

A business committee, consisting of Wm. Miller, J. F. Waterhouse and C. D. Goodwin, was then chosen by the Convention, after which addresses were made by Rev. Messrs. Piper, Chesley, Sleeper, Nason, How, and others. Adjourned until 2 o'clock P. M.

The afternoon session was mainly devoted to addresses to the Sabbath School department. The schools of the Congregational and Methodist societies were present, by invitation. Appropriate speeches were made by Rev. Moses How, of New Bedford, Rev. A. G. Morton, of Salisbury Point, Rev. Mr. Smith, of Vermont, and Rev. J. F. Waterhouse, of Providence, R. I. The members were seated in the body of the house, and made a very creditable appearance. This evening, Rev. Wm. Miller delivers an address upon "Sabbath Schools and Sabbath Instruction."

In Rockland, last week, there was great excitement in consequence of the brutal beating of Ingraham Duncan, a man more than 70 years old, by a young man named Capt. John Merrill. Merrill was fined $10 and costs.

As the steamer Sanford was leaving the wharf at Camden on Saturday, a coach with three women inside backed off the wharf into the water. The women were with great difficulty saved, the horses also. The coach was badly smashed.

WASHINGTON, June 3.—A gentleman who was employed by government to visit Harper's Ferry, and the surrounding country, has made his report to government, bringing with him also a map of the country. He was arrested immediately on arriving at the Point of Rocks, and was held as a prisoner for about thirty hours, but played the secession dodge upon them.

At the Point of Rocks three twelve pound batteries are erected on the Virginia side; on the Maryland side there were one hundred and fifty men stationed as a picket guard. They were just erecting batteries on the Maryland side. At Harper's Ferry, he ascertained, through several of the soldiers who were in the guard house for various offences, the number and names of the regiments. There are *fourteen full regiments* at Harper's Ferry and the Point of Rocks.

After he was released he saw several companies arrive without arms. There seemed to be plenty of arms; for he saw them open boxes and at once arm those that had just arrived.

At Harper's Ferry they had a large number of heavy batteries planted on all sides, and were busily engaged in constructing others.

WASHINGTON, June 4.—General McClellan is instructed to furnish arms and accoutrements to the Kentucky Brigade, which has been ordered to report at Anderson's Headquarters, Louisville, forthwith. Captain Cahill said this order would test the potency of Governor Magoffin's proclamation, and a collision might ensue between the brigade and the rebels of Louisville.

General Scott said, "you shall be sustained, sir; we can send you 20,000 men in three days."

Col. Anderson was quite ill when Capt. Cahill left Kentucky.

CINCINNATI, June 4.—Col. Kelly is not dead, as was reported from Phillippa. He was severely wounded in the breast, but the ball has been extracted and there are hopes of his recovery.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it restored me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

The Oxygenated Bitters.

Nature, in her great laboratory, has stored some remedy for every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflicting dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice Now, under the influence of these Bitters the rule is to *cure*—the rare exception, failure to cure.

From LOVETT MORSE, Esq., President of the Taunton Bank.

TAUNTON, MASS., July 2, 1860.

Messrs. Seth W. Fowle & Co., Boston.

Gents:—After suffering much with DYSPEPSIA and its attendant evils for more than seven years, employing the best medical skill that could be procured, I was induced, by advice of a friend who was a physician, to try the OXYGENATED BITTERS. Having tried so many advertised specifics, which seemed only to aggravate the disease, I began the use of the Bitters with no faith whatever in their pretensions. A thorough trial satisfied me of their excellent virtues as a remedial agent, and I commend them with confidence to the dyspeptic sufferer, as a medicine of real merit and character. And that this simple statement, which I send in token of my appreciation of your valuable remedy, may induce others to give it a fair trial, is my sole object in so doing.

Very respectfully yours, LOVETT MORSE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

☞ The Board of Aldermen met in special session on Wednesday morning and the following communication from Gov. Goodwin to the Mayor was read:

PORTSMOUTH, June 4.

HON. WILLIAM SIMES, Mayor of Portsmouth—*Dear Sir:*—I would suggest the propriety of your ordering the Flags of the City to be displayed at half-mast, in consideration of the death of Hon. Stephen A. Douglas, a man of a high order of talent, and one who showed a true patriot's devotion to his country in its hour of peril and trial. I am, with great respect,

Your obedient servant,
ICHABOD GOODWIN.

Whereupon it was unanimously

Voted, that 48 minute guns be fired at noon on Friday next; that the bells be tolled one hour, commencing at noon; and that the Mayor be directed to request that the several flags in this city be displayed at half-mast during the day, as a token of respect to the memory of Hon. Stephen A. Douglas and an acknowledgement of his eminent services to his country.

☞ Orders from Washington were received in this city on Tuesday afternoon, directing the Second Regiment to be in readiness to start for the Capital at the earliest possible moment.

A dispatch from the War Department was received by Gov. Goodwin, on Wednesday, directing him to appoint a commission to examine the gentlemen already selected for the post of Surgeon and Assistant Surgeon to the Second Regiment. Drs. Hubbard and Greeley, who are at present acting as Surgeon and Assistant, will doubtless receive the commissions, and be attached permanently to the Regiment.

It is understood that the Second Regiment is to be conveyed from this city to the seat of war by water, and that the steamer Iroquois is to be ordered to this naval station to receive the troops, some time next week.

☞ The ladies of this city on Monday afternoon, completed the supply of Havelocks for the volunteers composing the Second Regiment. They have made 1047, and it has required no small amount of patience and perseverance on the part of the patriotic ladies, as they are "awful fussy" work. But the Havelocks are needed. Miss Dix has sent word to the ladies of New York, requesting that more be made and sent on to Washington. The beating sun causes serious illness among the men, and these simple articles are of great service.

☞ The extra train to Concord this Thursday morning, will leave this city at a quarter *before* seven o'clock: returning, leave Concord at 5 P. M. Full fare will be charged on this and all other trains, except to military companies in uniform, who will be carried for one-half the usual price. The interest in Election Day will be enhanced by the parade of the Horse Guards, Amoskeag Veterans, Home Guards, etc.; while the election sermon, by Rev. H. W. Parker, will be an attractive feature to many at this time.

THE AFFAIR AT PHILLIPPI.—The engagement at Phillippi commenced at 5 o'clock Monday morning. The plan was well laid for a surprise, but the impetuosity of a few troops gave the rebels warning.—They fled in haste, leaving their baggage, 40 horses and four wagons loaded with provisions, and 500 muskets. Col. Kelley, while charging in advance of his men, was shot by a rebel. The rebels numbered 1500, well armed and equipped.

NEW YORK, June 5.—Advices from Fort Monroe report that a scouting party of Col. Allen's Troy regiment were taken prisoners at Fox Hill, near Hampton. Gen. Butler doubted the report, but ordered Col. Duryea's Zouaves to pursue all rebels and rescue Col. Allen's men.

The new Collector at Louisville will enforce the prohibition of the shipment of goods South.

A dispatch to the World says the government is reconnoitering down the Potomac for the purpose of establishing a camp near Port Tobacco, Md., to overawe the secessionists in that region, who continue to furnish supplies to the rebels in Virginia.

Letters from Alexandria state that on the wharves grass has commenced to grow, and the stores in the old town present a gloomy appearance. The inhabitants are awe-stricken at the Government force, and they find its presence a source of annoyance. One old lady convulsed those present at head quarters by stating that the *Michiganders* were robbing her of her *geese*.

☞ Marshal Kane of Baltimore, it is said, boasts that the government is afraid to arrest him. His friends threaten to rise if he is touched.

HALIFAX, June 5.—An explosion at the Albion coal mines killed three men and sixteen horses.

What must always be calculated upon when we paint our house? A brush with the painter.

"If a rich man wishes to live in health," wrote Sir W. Temple, "he must live like a poor man."

Arms for S. C. Privateers—Yard-arms.

GENERAL COURT.—We learn from Concord that the Legislature was duly organized on Wednesday, by choosing Eli Wentworth of Milton President of the Senate, and E. A. Rollins of Somersworth Speaker of the House. Preparations are made for a grand celebration to-day, consisting of a parade of the Governor's Horse Guards and other military, election sermon by Rev. Mr. Parker, &c.

From the Traveller Extra.

WASHINGTON, June 5.—A large force moved from here in the direction of Manassas Junction last night.

Four steamers left here last night with troops and cavalry on secret service.

From five to seven thousand soldiers crossed over from Washington into Virginia last night.

A battle at the Gap Junction is expected to take place soon, unless the rebels continue to retreat.

☞ Hon. Frederick Smyth, who accompanied the New Hampshire regiment to Washington, has returned home, having visited all our camps at Washington and on the Virginia side opposite, also Fort Monroe and the encampments in the vicinity; was on the Potomac off Aquia Creek on Friday and witnessed the whole of that engagement. Mr. Smyth says that on Thursday there were 19,000 federal troops encamped on the Virginia side of the Potomac, nearly all of which are actively engaged in erecting fortifications at Arlington Heights, head of Long Bridge and back of Alexandria. At Aquia Creek, the guns of the rebel battery being of longer range our vessels were obliged to retire after a sharp engagement, without silencing them. Mr. Smyth left the N. H. Regiment on Thursday, who were in good spirits and condition. It was the universal expression, that this regiment was the best equipped of any sent to the seat of war. Gen. Butler expressed a desire to Mr. Smyth to have the next N. H. Regiment sent to Fort Monroe, and regretted that the 1st had not been sent there, as it was just such a Regiment as he needed. This Regiment has more horses and baggage wagons than Gen. Butler now has at his command.—*Manchester American.*

WASHINGTON, June 4.—No movement was made on Fairfax last night. All is quiet at Alexandria and along the river.—The Pawnee lies off Acquia Creek, and will prevent the erection of any more batteries.

NEW YORK, June 4.—The result of yesterday's election in Washington was a triumph of the unconditional Union ticket.

Lieutenant Colonel Farnham has been appointed Colonel of the Fire Zouaves, in place of the late Col. Ellsworth.

FRANKFORT, KY., June 4.—The Border State Convention, yesterday, adjourned *sine die*, after adopting a National and State address.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Have you a Cough, Cold, Pain in the Chest, or Bronchitis? In fact, have you the premonitory symptoms of the "insatiate archer," Consumption? Know that relief is at hand in *Wistar's Balsam of Wild Cherry.*

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 55 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

Morning Chronicle.

☞ A Grey Doyenne pear tree in New London, Conn., without roots, and which does not even touch the ground, is now in full bloom, says the New London Chronicle. Owing to some injury received, it rotted off near the ground. The owner, Jonathan D. Douglas, set up the fallen tree, lashed it to a pole, set out a vigorous young pear tree near it, and grafted the sound twigs into the body of its weak neighbor, and the young tree furnishes vitality for both.

☞ The New Orleans Picayune has reduced its size one-half. Not a few of the southern papers have reduced their size altogether,—while others are reduced to sighs for the want of ink and paper.

☞ The first trial by jury ever allowed the citizens of Naples took place in April last. Everything was conducted with the greatest decorum, and the judge's charge was eminently dignified, calm and practical. This change is due to the Italian revolution.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and you feel miserable and uncomfortable? These symptoms are often the precursors of serious illness. A little fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, reach out themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how speedily they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Cannot by similar chemical, direct and demonstrative means, the morbid matter of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when they find the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1855.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Carterright, New Orleans.

Your Pills are the prince of purgs. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills affect us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER: Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, }
Washington, D. C., 7th Feb., 1854. }

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have found a case of liver disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I look them in season as one of the best aperients I have ever found. Their alterative effect upon the liver and the bowels, and their consequent remedy, when given in small doses for *bilious dysentery and diarrhea.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among others, for liver and stomach disorders. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to all my friends. Yours, J. V. HIMES.

WEBSTER, Wyoming Co., N. Y., Oct. 24, 1853.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountain of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Dyspepsia, Jaundice, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Temple, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe on them to originate in the liver, but your Pills affect that organ and cure the disease.

From Wm. H. Ranyl, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and regulate the bowels. They are worth the best physic we have had I recommend everyone to try patiently.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PLEASANT HOME, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. I had suffered in my bowels and brought on excruciating neuralgic pains, which ended in confirmed piles. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the blessing of God I used your excellent agent in Baltimore, Dr. Mackenzie. I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now perfectly well.

SUGAR CHAMBER, Baton Rouge, La., 5 Jan. 1854.

DR. AYER: I have been entirely cured by your Pills of Chronic Gout—a painful disease that has baffled all the Physicians. VINCENT SLOCOLL.

☞ Most of the Pills in market contain *Mercury* which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the great care required in adjusting the dose to the temperament. These contain no mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

REAL ESTATE IN NEW CASTLE
FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling reasonable rates, a brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in plat and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and wine merchants.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for **Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.**
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES R. LEFEEBRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1859, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1859.
The Rheumatic and Neuralgia Compound has been taken to hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not one be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JUNE 7, 1861.

UNDER WHICH KING.

However slow some minds may be to perceive the fact, every man will be compelled in this great emergency to support either the government at Washington or the government at Montgomery. No other alternative remains. We cannot stand a moment on neutral ground. Nor can in difference to this vital matter exist in the heart of any individual who has a clear apprehension of the mighty results which hang suspended upon the issue before the country.

He that is not for us is against us, and the question presses with great force—"whom will ye serve?"

Thus forcibly and truly speaks the new editor of the Manchester Union, who then goes on to say, more in detail,—

The government at Washington is the government of the people,—the legal government. It is legitimately there. We say nothing here of the principles of the party which put the men in power who are now administering that government. That has nothing to do with the question. Parties are temporary, while the government is perpetual, and the government would remain though every party should sink to oblivion. The only questions to be settled are—is the government legitimate? is it constitutional? If it is, (and no man will deny it,) then it is our government, and we are in honor bound to defend it. Democrats no less than Republicans are bound to defend it.

We stood by the South while they stood in the Union, but we never promised to follow them out of the Union. We never bargained to go with them to Montgomery, nor to cry *hawoc* when they let loose their dogs of war!

One president at a time is enough; one government enough, and no true man can for a moment hesitate to which of the two governments his allegiance is due. He who would plead the cause of the Montgomery plunderers, would in the far distant future, find the taint of treason clinging to him.

BALTIMORE, June 5.—A steamer from Fortress Monroe reports all quiet there.

The barque General Green, for Baltimore, and owned by a merchant of Charleston, with a cargo of sugar and molasses, has been captured by the Quaker City.

The United States Marshal took possession of the gun factory of Messrs. Merrill & Thomas, in this city, and seized all the breech-loading muskets. Intimation has been given that ample employment will soon be given to the establishment in manufacturing arms for the government.

A committee of citizens have returned from Washington, and received assurances from government that Baltimore shall have her share in building gunboats, and furnishing army supplies. Also, that government will soon have opened, and keep free for trade and travel, the entire line of the Baltimore and Ohio Railroad, now effectually obstructed by the rebels at Harper's Ferry.

It is announced by telegraph that Col. Benjamin F. Kelley, of the First Regiment of Virginia Volunteers, was severely wounded at the gallant and successful onset by the forces under his command, on the camp of the rebels at Phillippi, Barbour county, Virginia. Colonel Kelley is a native of New Hampton, N. H., but after residing a year or two in Boston, emigrated to Wheeling, Va., some thirty years since. He there married for his second wife the daughter of the late John Gosborn, and having acquired a fortune, removed a few years since to Philadelphia, his *beau ideal* of a residence, to spend the evening of his days in retirement. But no sooner was it proposed to raise the First Regiment than the unanimous voice of his old friends and neighbors of Wheeling pointed him out as the man to take command. He promptly obeyed the summons, and nobly has he borne himself. We trust that it may please Providence to restore to him his wonted vigor; but whatever fate befalls him, it is but sheer justice to say that no State has contributed to the ranks of the defenders of the Constitution a more gallant or a more estimable man.—*Post.*

☞ The 3d Maine Regiment, Colonel Howard, passed over the B. & M. R. R. on Wednesday, en route for Washington. A dinner was furnished them by the citizens of Exeter. The Quartermaster of the Regiment, Wm. D. Haley of Bath, though quite a young man, is energetic and reliable, and will make an efficient officer.

COUNTY TEMPERANCE SOCIETY.—The Rockingham Temperance Society will hold an adjourned meeting at Exeter, on Tuesday and Wednesday next, June 11th and 12th, (the time and place of the County Conference,)—agreeably to a vote at the annual meeting in Hampton.

T. H. MILLER, Sec.

Henry A. Weeks was arrested in Exeter on Monday last by officer Keyes for insulting a lady on the street, and fined $2 and costs—$8.50—for the want of which he was committed to jail.

ELECTION DAY.

Thursday was a gala day in Concord—or would have been, but for the rain, which was "never weary" of soaking the just and the unjust, of both which classes there were thousands in the streets. An old citizen told us that for fifty years there had been no such extensive and complete arrangements "proposed" for a fine display. But these were all summarily "disposed" of by the storm, which dampened the ardor of everybody but the hackmen and umbrella dealers. Nevertheless the people had as good a time as they could.

The usual ceremonies of reception and escort of the State Officers, outgoing and incoming, were gone through with, in unusually good style. The escort was done by the Horse Guards, under command of Gen. Stark, and the Veterans,—the latter being guests of the Guards at dinner,—of all which more hereafter.

We have only time this morning, to give the Addresses made by Governor Goodwin and Governor Berry.

CLOSING MESSAGE.

Gentlemen of the Senate and House of Representatives:—

Since the last session of the General Court, a revolution against the progress of civilization and the liberties of the people has been attempted in our country. This revolution has been for years in preparation, and derives its principal strength from the efforts and influence of men holding place under the General Government, who have conspired to overthrow that Constitution which it was their solemn and imperative duty to uphold. This gigantic conspiracy against liberty and law, developed during the past winter a formidable organization for the destruction of the best government which good men ever formed; against which bad men ever conspired: and that our government, controlled as it has been to a great extent by its enemies, has not been entirely overthrown, is to be attributed to the self-adjusting power of free institutions and the virtues and energies of a free people.

While it was yet uncertain how far this rebellion would extend, and with an earnest desire that nothing which honorable men could either ask or grant, should be left untried to preserve a Union consecrated by so many hallowed memories, and hitherto attended by such unexampled prosperity, I, in compliance with the unanimous recommendation of our delegation in Congress, and in accordance with my own views of duty, requested the Hon. Amos Tuck, the Hon. Levi Chamberlain, and the Hon. Asa Fowler to attend, as Commissioners for this State, the Convention which assembled at Washington on the 4th of February last, upon the recommendation of the State of Virginia.

I herewith transmit the report made to me by our Commissioners, and recommend that the Legislature make them suitable compensation.

On the 15th of April last I received by telegraph, through the War Department, a requisition from the President of the United States, calling for one regiment from this State for three months' service, to be employed in suppressing the rebellion against the laws of the General Government.

This requisition was followed by an intimation that another regiment might soon be required. The state of our militia organization was such that I could not, by a military order, fulfill the constitutional obligations of the State. Upon reflection, I came to the conclusion that I could meet this call with less delay and less expense by a voluntary enlistment, than by any other method, and this course was adopted. The prompt and liberal manner in which our banks and citizens placed a large amount of money at my disposal, rendered the necessity of convening a special session of the Legislature.

The first Regiment was promptly enlisted, well equipped and appointed in every particular, and placed under the command of Col. Mason W. Tappan.

This Regiment was mustered into the United States service on the seventh of May, at which time the Secretary of War was notified that it awaited his orders. I would here remark, that soon after this Regiment was called for, I was notified by the Secretary of War that it would not be required before the twentieth of May; on which day Lieut. Gen. Scott requested me to send it to Washington. On the twenty-fifth of May it left Concord, for Washington, at which place it arrived safely on the twenty-seventh, and I trust it will reflect credit upon the State, and perform efficient service in upholding our Constitution and Laws.

So unanimous was our whole population in resisting this attempt to overthrow the Constitution and Liberties of the people, that the second regiment was filled as readily as the first. While the second regiment was organizing, and after the appointment of Col. T. P. Pierce, of Manchester, to its command, I received information from the War Department that it was the desire of the government that all future enlistments should be made for "three years, or during the war," and that men enlisted for three months, refusing to enlist for the war, be discharged. In accordance with this suggestion I changed the term of enlistment, and over five hundred of those who had enlisted for three months re-enlisted for three years, and the entire regiment of one thousand and forty-six men was promptly made up.

Col. Pierce, whom I esteem a valuable officer, in consequence of the change in the term of service, having resigned his command, the Hon. Gilman Marston has been appointed to his place. The regiment has also been mustered into the service of the United States by Major Eastman of the United States army, and is under drill at Portsmouth. It will leave in a few days for Washington. So generously have our patriotic citizens responded to the call of the country, that many of the three months men, left at Fort Constitution, and others who have enlisted for three years but are not required to complete the second regiment, will form a nucleus for a third regiment, the enrollment of which can be readily accomplished if required; otherwise they will serve to give efficiency to the reorganization of the State militia. A portion of the three months' recruits have been placed by Maj. Gen. Wool, at my suggestion, in Fort Constitution, for the defense of the harbor of Portsmouth, and by authority of Gen. Wool and the Secretary of the Navy, I have put that fort in a condition of defense.

I hoped to lay before you at this time the entire expense of the requisition upon the State for troops and defense of the harbor of Portsmouth, but I find it impossible. A very considerable portion of this will be repaid by the General Government.

Some time since, in conjunction with Gov. Andrew of Massachusetts, who sent an agent to Europe for the purpose, I issued an order for two thousand stand of arms for the use of this State. I have recently been informed that the order has not been executed. As your session was so near at hand I declined to renew it, and will refer to the Legislature to determine what action, if any, shall be taken on the subject.

The experience of the past few weeks has brought to my mind the necessity for some more efficient and available military organization than now exists in this State. With a view to facilitate your action upon this subject, which must necessarily be before you, I have requested the Hon. Ira Perley, Gen. Geo. Stark and Col. Paul R. George to prepare a bill upon this subject for your consideration.

A rifle company, composed principally of Concord young men, of high character and sobriety, under command of Capt. Griffin of Concord, were desirous of being armed with Sharp's rifles, to fit them as skirmishers to the Second Regiment. The citizens of Concord, together with many members of the company, subscribed an amount sufficient to p y for these rifles, provided the State would not assume the expense, and the arms have been furnished with the above understanding. I am assured that the United States will ultimately pay for them.

It is for you to decide whether the State will accept the responsibility for the present, or whether it will rest with the patriotic subscribers.

I communicate herewith a circular from the Hon. Simon Cameron, Secretary of War, requesting that the several States will keep regiments enlisted and under drill, in their respective States, and prepared for service upon call, and that when called into the service of the United States, their places may be supplied by new enlistments.

I avail myself of this occasion, while closing my services as Chief Executive Magistrate of the State, to return to the people of New Hampshire my grateful thanks for the generous support which they have uniformly accorded to me. In surrendering the power which I have held in trust for the people, I am gratified to know that it passes into the hands of one who will serve the State with ability and fidelity.

COUNCIL CHAMBER, June 4th, 1861.

CHAMBERSBURG, Pa., June 5.—Perfect plans of all the cross and main country roads of Virginia and Maryland are in the possession of Gen. Patterson.

A scout reports this morning that the rebels succeeded in passing a wagon load of powder through the Home Guard at Sharpsburg, and got it safe into Harper's Ferry.

A scout who has returned from the Maryland heights, overlooking Harper's Ferry, reports fewer troops upon the heights than were there a week ago, and says positively that there were only two guns in the battery. They could be stormed with little loss of life, and the guns turned on the Ferry.

They explored three routes by which troops can approach within 300 yards of the battery, and with their bayonets capture the guns.

Great disorder caused by drunkenness prevails among the regiment, recently, arrived here, owing to permission to leave being granted too freely.

WASHINGTON, June 5.—Various offers of regiments have been made to the War Department, in anticipation of the new levy to be called for, but it is certainly ascertained that no such levy is now contemplated.

The Secretary of State has ordered the release of the prize vessels Octavia, Wm. Henry, and H. Hall.

Col. Hawkins' regiment of Zouaves have sailed for Fortress Monroe.

Advices from Fortress Monroe say that Gen. Hinger had 10,000 men at Norfolk, and 7000 more at Portsmouth and along the shores of Nansemond river.

Six Dahlgreen bronze 12-pounders have been fished up by the rebels near the Navy Yard. Eight tons of gunpowder are said to have been taken from the magazine of the steamer Merrimac perfectly dry. The ships Merrimac, Dolphin and Germantown, it is said, can be put in sea-going order in two weeks.

Current report and the newspapers sent a fleet down the Potomac last night, but it is news to the Navy Department.

"The Life of the Flesh is in the Blood," was said by inspiration long before Harvey's discovery of its circulation had brought to light its purposes and uses. Now we know not only that "life is in the blood," but that disease inhabits it also. Many of the disorders that pervade the human frame, have their home in it, thrive and grow in it. The celebrated Dr. J. C. Ayer, of Lowell, has had regard to this important fact in making a remedy to cure these disorders. His Extract of Sarsaparilla purges out the impurities of the blood, and induces a healthy action in it that expels disease. This looks reasonable, and it is true, as we know by our own experience. Seldom as we take any medicine, we have nevertheless several times been under obligations to the skill of Dr. Ayer for the relief which his remedies never fail to afford us when we are obliged to have recourse to them.—*Catholic Halifax, N. S.*

☞ The Rockingham Conference of Presbyterian and Congregational Churches will meet at Exeter, next Tuesday, and continue two days.

GOV. BERRY'S INAUGURAL.

Gentlemen of the Senate and House of Representatives:

By the free suffrages of the intelligent and sovereign people of this State, and by appointment of the Constitution, we are here assembled, clothed with high and honorable executive and legislative powers. Having taken upon ourselves the solemn oaths prescribed by the Constitution, we enter upon the duties before us.

Under ordinary circumstances but little thought is given to the formal sanction of the oaths of office and allegiance, required to be taken prior to entering on the performance of official duties; the feeling of loyalty and allegiance spring up so spontaneously in the hearts of the people, as usually to render all other obligations immaterial. But a change has come over large sections of our country. New views have been promulgated as to our several relations to the State and National Governments, and the common rights and liberties under the great charter of our union are alleged to be holden at the mere mercy and sufferance of any single State that, through whim, willfulness or crime, sees fit to break down the heritage won for us by the toil and blood of our fathers.

It may be well for us, then, as we enter upon the discharge of our several duties as legislators, to call to mind our true position in these respects.

We have all sworn to bear faith and true allegiance to the State of New-Hampshire, and to support to the Constitution thereof.

What obligations have we thus imposed upon ourselves?—clearly to maintain, intact and inviolate, all the rights and immunities secured to us by our Constitution as a free and independent State. No power on earth can claim to interfere, or will be allowed to interfere, with the local concerns or legislation of our own State; and what we claim for ourselves, we cheerfully render to others.

But the people of each State, by a solemn compact with each other, have entered into a common government, one and indivisible, with regard to great national objects and purposes, the powers of which they have expressly delegated to the "United States of America in Congress assembled."

The class of duties to be rendered in either case are well defined and distinct. Each government is sovereign within its own limits, and the assertion of a paramount claim of a State over its citizens to retract, abridge or sunder their bonds of loyalty and duty to the general government, is destitute of any foundation to sustain it. We have each of us duties to discharge to our towns, our counties, our State and the United States, but they all harmonize; and duty or allegiance to one in no manner justifies a violation of our obligations to the other. We place our State's rights above or beyond the Union. To us our country is first, because it is our country; and our State is next, and second, because she is a part of our country, and our State. Our oath of allegiance to our country, and our oath of allegiance to our State are interwoven harmoniously and never come in conflict. He who does his duty to the Union, does his duty to the State, does his duty to the Union, "one and inseparable, now and forever."

While each State is sovereign and independent within its own jurisdiction, for its own local purposes, they have such granted like powers of exclusive jurisdiction to the general government of the United States over the District of Columbia, and over all places purchased "in any State by consent of the Legislature," for the erection of forts, magazines, arsenals, dock-yards, and other needful buildings.

Each State has, also, under the provisions of the general Constitution, expressly prohibited itself from "laying any imports or duties on imposts or exports; from keeping troops or ships of war in time of peace, without the consent of Congress; from entering into any alliance, confederation, or compact with any other State, or with a foreign power; from granting letters of marque or reprisal, and from any act impairing the obligation of contracts."

We who have taken upon ourselves the oath of allegiance to the United States, can do all these acts,—but in so doing we should violate our oaths, and the highest obligation we owe to society, as men and as citizens. There is no law or right of secession to justify such acts.

The seizure of forts, arsenals, mints, and public property of the Union, and attacks on its flag, and the usurpation of powers of the general government which we have recently witnessed, are high handed acts of treason, without any justification, and based on the most groundless and frivolous pretences. No allegation of excuse has been given, or can be given, to justify the enormity of the offences committed. On this ground our people stand as one man.

The masses of the citizens of the different States may not be holden responsible for these acts of treason and rebellion, but their leaders *must* and will be so holden by the true men of this country and the indignant sentiment of the civilized world. The crimes committed are those of a band of traitors, against the memory and labors of our fathers, and the common and best interests of humanity, we cannot excuse or tolerate.

We unite in the sentiments of Washington, of Webster, and of Jackson, as to the infinite moment of our National Union to the collective and individual happiness of the American people, — "That we can have but one country, one Constitution, and one destiny;" and that, by every hazard and by every sacrifice, the "Union must be preserved."

With the country divided into separate governments, having long lines of border communications, we should be subject to continued strife; we could not live in peace as independent adjoining communities. The way of our fathers under the Constitution, rigidly adhered to by all sections, in its true force and spirit, is the only sure way of national prosperity.

The position taken by our government in the recent correspondence with the French Minister, is the only ground upon which we can stand: "That there is not now, nor has there been, nor will there be, any, the least idea existing in this government of suffering a dissolution of this Union to take place in any way whatever."

Under this enunciation of principles, the open, deadly, flagrant war which is now waged against the government of the United States, to compel acquiescence in the dismemberment of the Union, will cease and come to an end, when the Constitution is maintained and enforced, as under the better days of the Republic, under Washington and Adams, Jefferson and Jackson, *and not till then.* But in this view of our condition, we have a high and important duty to discharge.

Most of the loyal States of this Union have already holden special sessions of their Legislatures, to act on the immediate necessities of the crisis. The regular session of our Legislature was so near at hand, that a special session was not deemed essential with us; especially, considering the prompt and efficient measures taken by my predecessor. The Legislature being now assembled, there is a pressing necessity for immediate attention to those measures that shall aid the General Government in redating the rebellion now waged against our institutions.

No Northern State has placed less than a million of dollars at the command of the General Government, in view of the present emergency of the country. And I trust New Hampshire will not be behind her sister States in this respect, and that whatever we may do may be done with perfect unanimity.

In connection with this subject, I would call your attention to the admonition of the founders of our government, that "A well regulated militia is the proper, natural and sure defence of a State." A large force of militia is not necessarily the most effective, and is not essential to our position, but we should have at all times a number of regiments at least equal to that of our original counties, well appointed and fitted for any sudden emergency. I would urge upon your early attention to this subject, as vitally connected with the best interests of the State.

My predecessor has submitted to you the measures taken by him in complying with the requisitions made upon this State's troops in aid of the General Government.

The amount thus far expended has not been definitely ascertained, but measures will be taken to ascertain the amount, and have the same accredited to the State as soon as may be.

The ordinary finances of the State are in a satisfactory condition. I refer you to the report of the State Treasurer for the details of receipts and disbursements. The books of the Treasurer show that the State debt above assets, June 1, 1860, was $50,087 15. The indebtedness has been reduced the past year $19,418.22, leaving the debt of the State, June 1, 1861, $31,668.93.

The full and intelligent report of the Bank Commissioners, which will be before you, shows that our banks are generally in a sound condition, and are fulfilling the objects for which they were chartered. In view of the general depression of business, there will probably be no necessity for increase of banking capital at present.

The report of the Board of Trustees and the Superintendent of the Asylum for the Insane, will be duly presented, and I have no doubt that this highly efficient and well managed institution will continue to receive the patronage and encouragement of the State.

It is with pleasure that I call your attention to the management of the House of Reformation. I view this institution next in importance to the Asylum for the Insane, and believe that it has thus far been managed with great care, prudence and economy, by Mr. Shattuck as superintendent, and his wife as matron, aided by the very faithful efforts of the Officers and Trustees. It promises more than fulfil the expectations of its most ardent friends. There have been admitted the past year, 33 boys, 8 girls; discharged, 6 boys, 1 girl; remaining, 53 boys, 8 girls. The most of those discharged gave evidence of great improvement in education, morals and habits. If this institution could be wholly sustained by the State, or by liberal endowments by individuals, it would more fully accomplish the great and benevolent objects for which it was instituted. The tax on towns, of one dollar per week, as now provided by law, for each individual committed by them, causes many of our girls who are tempted yearly to be denied the benefits expressly designed for them by this institution. The report of the trustees, giving a full statement of the condition of the institution, will be before you. They ask an appropriation to cancel the present indebtedness, and to promote the interests of the institution. I trust you will give the subject a favorable consideration.

The report of the Warden of the State Prison shows a full statement of its affairs. It is self sustaining, and can be maintained so, ordinarily, with due care and economy. It is, however, an institution which always requires a strict supervision.

No department of our government is more important than the Judiciary. It is essential to the preservation of the rights of every individual, his life, liberty and prosperity.—There should be both good laws and an impartial administration of them, by just and competent men. Stability in this department of the State is to be desired. Its present system will remain as now established until necessity for change, if any such occurs, shall be most clearly apparent.

The department of education, and the inculcation of sound sentiments of piety, morality and virtue, is never to be lost sight of under a government that rests on the enlightened intelligence and virtue of the people for its maintenance and prosperity. There can not be too great an interest manifested by our citizens and the public on this subject.

In many of our States complaints are made of external mercenary efforts exerted in matters of legislation. This should be everywhere guarded against, and especially the corrupting influence of men habitually frequenting the sessions of our Legislature, tendering the brokerage assistance in the disposal of offices, and directing in matters of government. The tolerance in any way of such men or such influence of legislation, is a subject to be certain to be productive only of injury and mischief.

In the present condition of our country, it is desirable that the public attention be directed to the one great question of the preservation of our government, and that there be as little general legislation as possible; the action of the Legislature being mainly directed to meeting the exigencies that have arisen in our national affairs. Party spirit, for the time, seems to be merged in a spirit of patriotism and love of country, and the best efforts of all our citizens are imperatively demanded in united action for the public good. Let the unanimity which now happily prevails be disturbed as little as possible.

The strictest care and economy in the management of public affairs are required more than ever before; and a short session, directed promptly to meet the public necessities, will best manifest this disposition.

In conclusion, permit me to recur to the great struggle with treason and rebellion, in which our country is now engaged. It is a rebellion against the most beneficent government ever established upon earth. It threatens with extinguishment our Republic, which has been, and under God will continue to be, the light of nations. In open defiance of the great principle that the final supremacy of the will of the majority, constitutionally expressed, upon which the stability of republican governments depend, this flagrant rebellion has been commenced. It is evidently the purpose of the rebel leaders to substitute, for the rule of majority, the rule of the minority, with the natural result of anarchy.

The deep and holy enthusiasm with which the people of the loyal States have responded to the call of the government for military aid to put down the rebellion, and crush out treason, can leave no doubt of the final result of the struggle. Never in the history of the world was there witnessed a prouder spectacle than the loyal patriotism which was aroused in the land by the guns of Sumter. Party spirit was hushed, and twenty millions of freemen, with one accord, joined hands in solemn pledge that the Union, Constitution and Government shall be maintained.

The result of the conflict will be the convincing of the world that a republican government can and *will* be sustained. It may be that our country must be shaken from centre to circumference by the mighty struggle; that *liberty* must be again baptized in blood; but the principles upon which the Republic was founded will be vindicated and made permanent; the Constitution will be sustained; the constitutional rights of all American citizens, in all the States, will receive new guarantee; the freedom of speech and of the press everywhere in our land will be effectually secured, and the government will come forth purified and strengthened.

We acknowledge the dependence of all rulers and States on Him by whom all government is ordained. We can not believe that he who was the God of our fathers, and under whose protecting care our country has arisen from feebleness to strength, will permit the great experiment of free government to fail, or come short of the ultimate, complete security of our greatness and happiness as a united people.

NATHANIEL S. BERRY.

ORGANIZATION OF THE LEGISLATURE. The Legislature was duly organized on Wednesday, the 5th inst. Herman Foster, of Manchester, was elected President of the Senate. He is a gentleman of ability, and was in the Senate last year. William A. Preston of New Ipswich, was elected Clerk, and Charles H. Bartlett, of Wentworth, Assistant Clerk—Charles H. Roberts, of Farmington, Doorkeeper.

Edward A. Rollins, of Somersworth, was elected Speaker of the House. The Clerk, Edward Sawyer, of Dover—the Assistant-Clerk, Samuel D. Lord, of Manchester—the Doorkeepers, Uriel L. Comings, of Cornish, and Edmund Brown, of Lancaster, all occupied the same places last year.

Rev. E. E. Cummings, D. D., of Concord, was invited to officiate as Chaplain during the session.

THE MESSAGE.—Gov. Berry's Inaugural Address, which occupies our columns today, is a plain State paper, mild and loyal in its tone,—recommending fidelity to the Union, economy in the State, the reorganization of the militia, provision for our expenses, and a short session, with as little legislation as may be, for local purposes.

SWORD FOR COL. MARSTON.—The Ballot learns that a subscription of $100, to which no one has been allowed to contribute more than one dollar, has been taken up in Exeter, to procure a sword for Hon. Gilman Marston, the newly appointed Col. of the second regiment of New Hampshire, as a testimonial of the respect and confidence of his fellow townsmen.

☞ Jonathan T. Walker, Esq., has been appointed Postmaster at Rye, in place of Thomas J. Parsons, and has entered upon his duties.

WASHINGTON, June 6.—Dispatches received at the State Department announce that the Austrian Government refuse to receive Mr. Burlingame, because of his efforts while in Congress to obtain the recognition of Sardinia.

CONVENTION OF THE PROTESTANT EPISCOPAL CHURCH OF NEW HAMPSHIRE.—The sixty-first annual Convention of the Protestant Episcopal Church of the Diocese of New Hampshire, was held in St. Paul's Church, Concord, Wednesday, May 29th. On Tuesday evening, the annual Missionary Sermon was preached by Rev. Francis Chase.

On Wednesday morning, the usual business meeting was held; and at half past ten adjourned, to attend divine service.

In the afternoon the Bishop read his annual address. During the last conventional year the corner-stone of one church has been laid, and one church has been consecrated. One parish has been received into Union with the Convention. Two clergymen have removed from the Diocese, and three have been received into it. There are three candidates for holy orders. The number of candidates for confirmation has been unusually small, only fifty-five having been confirmed.

At the close of his address, the Bishop alluded to the present unhappy condition of the country, expressing his ardent sympathies for it, and his fervent prayers that peace and union might be restored.

Rev. Dr. Burroughs, after a speech of some length, offered a resolution to the effect that this Convention should show their sympathy with the government and their co-operation with the doings of the administration, by the passage of resolutions. This movement was seconded by Rev. Dr. Hubbard and Rev. E. A. Renouf, and opposed by Rev. Messrs. Eames, Herrick and Potter, Judge Harvey, and Messrs. Davis and Wheeler, on the simple ground that a meeting of a religious body like this Convention was not the place for the passage of such resolutions. It was accordingly voted to indefinitely postpone the whole matter, there being but two dissenting voices. The Congregational Journal says there were less than twenty voting members present.

Subsequently, Rev. Dr. Burroughs was elected Chairman of the Standing Committee for the present Conventional year, and also a Deputy to the General Convention. Rev. William A. Hitchcock was chosen preacher of the Missionary Sermon.

The next Convention will be held in Grace Church, Manchester, the fourth Tuesday in May, 1862, at 9 o'clock A. M.

GREAT WHEELBARROW FEAT.—Mr. J. N. Lathrop arrived in this city one day last week, from Amesbury, Mass., from which place he had wheeled a wheelbarrow, containing all his earthly effects. He was on the way to Presque Isle, where he intends to locate. He had heard of Aroostook county and was determined to reach it and take up a farm. He dined at the Central House and then jogged along. Such men are just the kind wanted to make Aroostook county blossom like the rose.—*Bangor Times.*

DEATH FROM HYDROPHOBIA IN SAUGUS.—Julia Fitzpatrick, aged 10 years, daughter of Mr. John Fitzpatrick, was slightly bitten by a dog about six weeks ago. The animal was supposed to be mad and was killed. As there was only a trifling mark upon the child's lip, it was believed that it might have been caused by the dog running against her thus making her bite her own lip. Last Saturday, she was taken ill, and so rapid was the disease developed that after intense suffering, in which during her spasms she imitated the bark and howl of a dog, she died Sunday noon. During her lucid intervals she begged those about her not to drown her.—*Boston Atlas.*

NEW YORK, June 5.—A dispatch to the Post says that several members of the Maryland Legislature visited Richmond and Harper's Ferry; doubtless for the purpose of conferring with the rebel leaders.

Some of the federal troops encamped on the other side of the Potomac are suffering severely in consequence of the heavy rains of last night and to-day.

Private Foley, late of the U. S. Artillery, will be hung on Friday.

A dispatch to the Commercial says that the Secretary of War has ordered an armament for the Naval Brigade.

It is understood that Gen. Scott don't approve of landing a force at Acquia Creek, as he regards that post as of no great strategic importance.

CINCINNATI, June 6.—A special Grafton dispatch to the Gazette says the American flag is flying along the whole route to Wheeling. The Ohio troops are guarding the road.

A large number of secessionists arrested here have taken the oath of allegiance. They say they expected a war of devastation and have been deceived by their leaders. The best feeling is prevailing between the troops and the Virginians. Volunteers are being raised for the Government at Martinsburg and through this section.

Col. Kelley is much better, but not out of danger. He was brought over yesterday from Philippa. There are twenty companies of infantry and several of artillery there as a garrison. The Union feeling is now largely predominating.

7000 troops are at Crafton and Philippa.

☞ We publish elsewhere a communication from the Mayor, requesting that all flags in the city be displayed at half-mast to-day, as a token of respect to the memory of Senator Douglas. Of course the request will be complied with, generally.

Mr. Motley's elaborate article in the London Times on the American war, attracted considerable attention. He casts the whole responsibility upon the South.

☞ The Albany Evening Journal says: H. B. Ayer, formerly of Manchester, N. H., but more recently of Houston, Texas, arrived here Sunday morning, from Sunny South. He is a recent graduate of the Medical College of Louisiana. Refusing to accept a commission in the Southern army, he was denounced as an "Abolitionist," and delivered over to the fury of the mob. Fortunately a brother of Major Anderson interfered in his behalf and saved his life. He saw two men—natives of New Hampshire—tarred and feathered, rode on a rail, and afterwards hung.

He arrived at New Orleans on the 18th. He uttered some unguarded words, was taken to the Vigilance Committee and ordered to be shipped to Montgomery, there to be disposed of by the Rebel Government. Through the interference of Senator Fitzpatrick, whose son was a classmate of his, he succeeded in averting his fate.—He was put aboard the cars, handcuffed and closely guarded, and so travelled until they reached Nashville, Tenn., when he was finally discharged from custody.

The Manchester Mirror says, many of the refugees from the South take great latitude in telling 'cock and bull' stories, as did Horace Ayer a few days since in several Boston papers.

☞ A carefully prepared statement of the force now in the vicinity of Washington, says the New York World, shows that there are now on both sides of the Potomac, 34,015 men, including the volunteers for three months and for three years, as well as detachments of the regular army. Of this number 20,866 are in Washington and Georgetown, and 13,149 in Virginia. In addition to the above, there are about 9000 of the District militia, who are not liable to be ordered out of the District.

ANOTHEL NAVAL SKIRMISH. — *Fortress Monroe, June 5.*—This morning, the Hasriet Lane exchanged about 50 shots with the Rig Point Battery, nearly opposite Newport News, on the James river. She received two shots, wounding five men, one severely. She was about three-fourths of a mile from the battery, the seven embrasures of which disclosed heavy pieces.

LOUISVILLE, June 6.—A dispatch to the N. Orleans Delta from Knoxville, Tenn., 31st ult., says the Union Convention, in session there, passed a resolution recommending resistance if 70,000 votes were cast against secession; if less, submission.

MARRIED,

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually,* or *annually,* at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and vexatious attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Tetter, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in ulcers on my hands that would scarcely heal, then would break forward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was advised to try and in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you put out must be good. I went to Bloomingdale and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. A few days after I took it the skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is eradicated from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours, ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Erysipelas.

Dr. Robert H. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas*, which threatened to terminate fatally, by the powerful use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 29th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

LEXINGTON, Fentiss Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted for a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. S. HEALY.

John T. Gatchell, of St. Louis, writes: "I have been afflicted for years with an affection of the *Liver*, which *Indicrously* my health. I tried everything, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. J. Spencer, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Scirrhus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

Among the variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but such instances have not sufficient weight with the public to induce us to publish them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It invigorates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been wanted by the physicians of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is unnecessary to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the habitable parts of this earth. You may ask the community, or even families, among them you may have for some personal experience of its effects—some living trophy to their belief of its victory over the most alarming and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues it did here when making the cures which have made it so strongly esteemed by the confidence of mankind.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the proper demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rate, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in case containing two dozen pints and one dozen quarts, and is solds by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

NEW HAMPSHIRE ITEMS.

A postmaster in the 2d Congressional District, enclosed ten dollars in a letter to a gentleman in Concord, and says:—"I wish it appropriated for the benefit of any soldiers in the 2d Regiment of Volunteers who may be in need of assistance. I have forwarded a similar sum to Col. Tappan of the 1st Regiment, but being unacquainted with the officers of the 2d Regiment, I have taken the liberty to ask you to forward the same, feeling that even so small a sum would be acceptable. I am aware that too much cannot be done for those soldiers who have enlisted for the defense and maintenance of our Union, and I shall forward from time to time the most of the income of the post office in this town." Such post masters are worth having.

The youngest daughter of Weare Shaw, of Kensington, two years and six months old, died recently. The sickness that resulted in her death, was caused by eating the ends of some friction matches, a week previous.

Among the new features in the bill to be introduced at the coming session of the Legislature, in regard to the New Hampshire militia, is one that all members of military companies shall hold themselves in readiness for three months' service whenever called upon by the Governor. This manner of enlistment will be with the understanding that companies shall serve for the general government as well as in New Hampshire.

Tuesday night a large jam of logs broke up at Hooksett, starting an immense quantity of lumber down the river. Word was immediately sent to Manchester, and the "red shirts" were ready to receive them, so that about two million feet of lumber ran over the dam during the night. This is the greatest "run," both of luck and of logs, ever known on Amoskeag falls.

Rev. A. Marden was ordained pastor of the Congregational Church in Piermont, May 30, 1861. Sermon, by Rev. E. Tenney, of Lyme.

The Union states that Patrick Rowan and —— Woodman, confined in Laconia jail for the murder of a child, escaped on Monday. The jailor was waiting on the two convicts in their cells, giving them the inside track to the door. They slipped out and fastened the door. He remained in his confinement some time, until his wife came out, and heard her husband shouting for help. Both prisoners were found Tuesday only a few miles away, but in different directions, glad enough to return, as they had had nothing to eat since they escaped, and had suffered from the heavy rain of Monday, from the wet ground, the cold, and sore feet.

It is reported that all the cotton mills in Manchester will stop running about two months during the summer—the operatives preferring such a course to running on short time a longer period.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
DR. JAMES P. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—WM. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering for twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which proved a great relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1859.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*And it is the best or quintion of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 8, 1861.

☞ In the Old School Assembly of the Presbyterian Church, in the U. S., the resolutions of Dr. Spring on the state of the country, were adopted, after a long and exciting debate, by a vote of 154 to 66.—They were strong for the Government and the Union.

The effect of this action of the Assembly will be to divide the church and place it in company with other religious denominations that have been rent asunder by the slavery question. The Southern members will doubtless secede. They will not tolerate any expression of loyalty to the Government, nor hold Christian fellowship with any denomination of Northern patriotism.

PHILLIPPA (not Phillippi) is a little town on the Monongahela river, 20 miles from Grafton. It is the county seat of Bourbon county, and, although in the limits of "New Virginia," it is strongly tinctured with secession sentiment.

There were 1600 rebel soldiers there, and after a very short action they fled before Col. Kelley's three regiments. After the secessionists fled, and Col. Kelley was marching into town at the head of his command, he was approached by a desperado named Mart Johnson, of Pruntytown, who shot him with a revolver, the ball taking effect in his breast. Johnson was immediately seized, and would have been instantly pinned to the earth by a hundred bayonets, but that the magnanimous Colonel ordered the men to spare him.

☞ There was a grand distribution of doughnuts on Saturday afternoon of last week, to the soldiers of the Third Regiment at Augusta, by the ladies of that place. There was a regular doughnut procession by hundreds of ladies, bearing that delectable Yankee fruit in every shape, and in innumerable baskets. About fifty bushels were distributed—the procession of ladies, headed by music, passing between double lines of troops, who presented arms, and were afterwards drawn up in hollow square to receive the welcome doughnutions.

DR. WALKER'S SERMON.—The Spirit proper to the Times: a Sermon preached in King's Chapel, Boston, Sunday, May 12, 1861,—by James Walker, D. D. Printed at the request of the Wardens of the Society. The Sermon is by the late President of Harvard College, who is one of the best preachers of the day; and it has these points of excellence, viz.: 1, It is short. 2, It is plain and simple. 3, It is comprehensive. 4, It is mild and courteous, tho' firm and strong.

☞ Official letters dated May 20, state that great preparations had been made for an attack on Fort Pickens, which was at that time hourly expected, and the Wyandotte had been sent to Key West for troops, and afterwards placed in a position where she would render the most aid. Previous to that time General Bragg was notified that the port was strongly blockaded, and vessels would be dealt with according to the laws against violating blockades. To this Gen. Bragg replied, but received no answer.

AQUIA CREEK.—Aquia Creek flows through Stafford county, Virginia, and empties into the Potomac, fifty-five miles below Washington, which point is the terminus of the Fredericksburg and Potomac Railroad. This road communicates directly with Richmond, which is seventy-five miles distant from the Aquia Creek depot. The rebel batteries are on the side of the creek, and are too far from the channel of the Potomac to interfere with the navigation of the river. It is the connection of these fortifications with Richmond that has called the attention of our men-of-war to them.

SENATOR DOUGLAS' SUCCESSOR.—The Chicago Tribune, one of the most radical Republican presses in the West, recommends the placing of a Douglas Democrat in the Senatorial chair vacated by the untimely death of Senator Douglas. It says that the 160,000 Illinoisans who cast their votes for Mr. Douglas last fall, and who are now nearly unanimous in their zeal for the maintenance of the Union and the support of the government, are justly entitled to a representative in the Senate of the United States. The Legislature, upon which will devolve the choice of a United States Senator, is Republican.

The peasants in Russian-Poland will be finally relieved from compulsory labor on the first of October.

NEW YORK MILITARY.

NEW YORK, June 5.

Dear Chronicle:—Among the departures for the seat of war, this week, are the Maine Regiment, the Scott Life Guard, and the 79th Highland Regiment, N. Y. troops. The first made but a short stay in our city, tho' long enough to partake of a choice collation, prepared by the New York representatives of the Dirigo State, who tendered them a grand reception, and a beautiful silk flag. Like their brother regiment, which was detained some time in our harbor, by sickness, they are a fine body of soldiers, and remarks highly complimentary, on their different manœuvres, were repeatedly iterated.

McChesney Zouaves were to have gone yesterday, but some dissatisfaction having arisen in the ranks, their departure was postponed till to-day. They have been in camp at Sandy Hook for four weeks, and it appears, were promised a furlough of two days, before their departure. Yesterday they sailed from their encampment to 20th St., N. R., and then disembarking marched through several of our up-town streets, and finally down Broadway to Canal St., and thence to the river. Arriving at the foot of the street two companies refused to go on board the steamship, and the Major riding up, demanded the cause of the revolt, swearing he would shoot the first man who dared disobey the orders.—Instantly about one hundred and fifty privates stepped from the ranks, exclaiming that a furlough had been promised them, and that they would never go on board the ship till the conditions of the agreement had been complied with.

The officer, cocking his revolver, (which however didn't prove a resolver in this case) demanded of the man nearest to him, if he would obey, which demand was indignantly replied to in the negative, whereupon the guard were ordered to seize him. By this time bayonets had been unsheathed and fixed, and the guard were repulsed. At this moment, a tall, athletic fellow, who would do credit to Vermont, and about the size of your New Hampshire *infant*, seized the colors, saying that "them flags was given to this regiment, and were going on board if he got his head knocked off;" and drawing his revolver he placed his finger on the trigger, and called to the others to "clear the way." They cast one look at the determined expression of his countenance, and one at the death dealing instrument levelled at them, and then the *way cleared*, while the red, white and blue, unsullied, was carried on board the ship amid a perfect frenzy of applause. A few others followed the example of their fellow-soldier; but over a hundred remained insubordinate, and a furlough was finally granted till this afternoon.

Much as we deprecate this spirit among our troops, we think the officers should have fulfilled their agreement, which they could have done without material delay, and at the same time have gratified the desire of the men to see their friends before embarking.

In addition to the list given above, we have to day sent the Hawkins Zouaves, 900 men, making in all 22 Regiments, of about 900 men each, which New York city alone has dispatched to the seat of war.—We have about 12,000 more troops encamped in our immediate vicinity ready to start at a day's notice; making a grand total of 30,000 men. A good story is told of Wilson's rough and ready Zouaves, which, though somewhat profane, aptly illustrates the war spirit among our volunteers.

In the course of the regular service on Sunday, the name of the Commander-in-Chief was mentioned and immediately greeted with "Three cheers for Scott!"—The name of the President was next mentioned, and the thousand men gave "Three cheers for Old Abe!" At this the chaplain opened his eyes, but continued his prayer, telling them as a mild rebuke that the wicked would go to H-ll. Scarcely had the words been uttered, when one called out, "Three cheers for H-ll!" and three vociferous cheers followed. The astonished parson turned to the Col. and demanded an explanation, which Wilson gave as follows: "You see my men have got an *idee* that H-ll is somewhere between Montgomery and Richmond, and they want to get down there *powerfully bad!*"

SOUTHERN TREASON-MONGERS IN TROUBLE.—The New York Commercial learns that the Bee and Delta of New Orleans, will shortly be obliged to suspend publication on account of the scarcity of printing paper, they having been heretofore dependent on Northern mills.

☞ Mrs. J. N. Granger, the only sister of Judge Douglas, while on her way to the depot at Clifton Springs, Ontario county, N. Y., to take the train for Chicago, on Saturday last, was thrown from her carriage, and barely escaped with her life.

☞ Hon. Theophilus Parsons has accepted the invitation of the Committee of the City of Boston, to deliver the oration before the municipal authorities of that city, on the next Anniversary of American Independence.

STATE ITEMS.

William B. Hill, alias "Bill Banks," was arrested in Manchester on Wednesday, on a charge of passing two counterfeit fives, one at Hillsboro' on the Beverly (Mass.) bank, and one at Henniker on the Bradford (Vt.) bank.

The body of Mr. Daniel Wright of Nashua, whose mysterious disappearance from his home was announced several days ago, was found on Wednesday in the Merrimack river, near the old canal.

Col. Ellsworth, it is stated, was a native of Walpole, this State, from which place his father removed, when his son was two years old, to New York.

The announcement in the Cheshire Republican, that ten members of the Keene Brass Band have enlisted for three years, and are to be attached to the Second Regiment at Portsmouth, is incorrect, although it is probable that a large portion of the members will go to the war with this or some other regiment.

In the Supreme Judicial Court, in session at Manchester, on motion of Hon. Ira Perley, Ai B. Thompson, Esq., of Holderness, was admitted to practice in all the courts of this State, as attorney and counsellor at law. Mr. Thompson is a lieutenant in one of the companies of the Second N. H. Regiment, having enlisted for three years. We wish him a well earned success, either in the army of his country or in the more peaceful pursuit of the law, as his future lot may place him.—*Manchester American.*

Those sending letters to their friends in the military service from this State, should superscribe in addition to the name of the person written to, the words, "First Regiment N. H. Volunteers, Washington, D.C." On the arrival of the letters at Washington, the War Department will forward them to their destination.

WASHINGTON, June 6.—The Postmaster General to-day discontinued the post office at Memphis, Tenn., in consequence of the Postmaster there refusing to distribute the mail matter. All matter directed to that office hereafter will be sent to the dead letter office. The Navy Department to-day received notification of the resignation of Captain Hollins and Lieut. Barney, who have just returned from the Mediterranean.

The Post Office Department has received the circular of one Reagan, instructing southern Postmasters to retain for the benefit of the rebels all mail bags, locks, keys, marking and rating stamps, and all other property belonging to or connected with the Postal service.

They are also required to report their journal or ledger accounts with the United States for the service of the Post Office Department up to and including the 31st of May, exhibiting a final balance in their possession.

Military matters to-day were conducted with more than usual caution.

NEW YORK, June 6.—A special dispatch to the Post says that two brass guns belonging to the 7th N. Y. Regiment were found to-day, on board a schooner at Alexandria The captain of the schooner refused to hoist the federal flag, when a member of the 9th New York regiment shot him in the head.

Two prize vessels, the General Knox and Georgiana, owned in Maine, have been released by the District Court.

Secretary Seward remarked this morning, that he expected to hear very soon of sharp work at Harper's Ferry.

Measures will be taken immediately to ascertain how many of the three months men are willing to remain for the war. The result will decide the Administration in relation to calling out a new levy.

There seems to be no doubt that Beauregard is preparing to advance on Alexandria. Our troops are anxious to meet the rebels.

ALEXANDRIA, June 6.—Capt. Ball, has received a pass outside of the line in order to bring his family to Washington, and it is thought his account of good treatment while a prisoner will have some influence on the rebels. His oath is not merely of parole but of allegiance. All thirty-five of his men, took the same oath in Washington this morning.

There was an apprehension in some quarters last night of an attack, but everything was quiet. Every precaution was taken.

SPAIN AND ST. DOMINGO.—*Madrid, May* 20.—The Queen has signed the decree for the annexation of St. Domingo to Spain.

An official declaration has been made that Spain will not re-establish slavery at St. Domingo.

Accounts from St. Domingo to the 21st ult. say General Santana had left the capital for the frontier of the Spol, and had confided the government to the Council of Ministers. The Spanish troops had occupied the principal strategical points in the territory and on the frontiers.

WASHINGTON, June 6.—The Cavalry company captured at Alexandria took the oath of allegiance to the government today and were released.

The steamer Anacosta left here to-day, with dispatches for Gen. Butler.

The Montecello is nearly ready for sea. All the other steamers here have steam up and are ready to depart at a moment's notice.

ST. LOUIS, June 6.—A battalion of U.S. soldiers from Carlisle barracks, destined for New Mexico, yesterday proceeded to Hannibal, by the St. Joseph railroad.

The Republican learns that Capt. McDonald would be produced before the U. S. District Court at Springfield, Ill., this morning, under the habeas corpus writ issued by the Judges of that court on Monday.

CHAMBERSBURG, June 6.—All news concerning the proposed advance is prohibited by the commanding General. The troops are eager to advance.

WHISKEY VS. BULLETS.—An old soldier offers the following excellent advice to volunteers:—

"My boys! If any among you have been in the habit of drinking much whiskey, quit it! If you continue to drink hard you are dished—your more sober comrades will bury you. In the service you have to undergo, whiskey will kill you with more certainty than the ball or shell. If you are exhausted after a long march, a jorum of strong tea and a chunk of stale bread will do more good than all the whiskey that was ever concocted. The boatmen of Canada will all tell you that. Coffee is not good; but a jorum of strong tea will check a tendency to dysentery and bowel complaint. Soup is good. Much meat is bad in hot weather; the less meat the less blood, the less load to carry—bone and sinew make the soldier, not blood. A light diet may go hard on men of strong appetite, but he that lives soberly and lightly will recover of his wounds quicker and reach the hospital less than the man that drinks hard and gorges himself incessantly."

THE FIRST CHURCH BELL.—The first church bell in Lawrence, was swung in the belfry of the Church of the Immaculate Conception (second Catholic,) corner of Chestnut and White streets, on Monday last. It was cast in the City of Dublin, especially for this Church, and arrived sometime last winter, and weighs twenty-six hundred pounds. After being hung, it was rung at intervals, for a while, and proves to be of a very sweet sounding tone.—*Lawrence Journal.*

MARKET VALUE OF CONFEDERATE BONDS.—Fifty thousand dollars of the bonds of the Southern Confederacy, belonging to parties in New Orleans who were forced to sell them, were disposed of a fortnight ago, at the rate of ten cents on a dollar. Only five thousand dollars could be obtained in that market for the entire lot, which within a few months cost $50,000.—*Boston Courier.*

POLITICAL.—Vice President Breckinridge, in the Ashland Congressional District, has taken public ground for the secession (State) candidates for the Legislature.

The Italian government has rejected the conditions on which France consented to evacuate Rome, and matters will consequently remain in statu quo, but France will recognize the new kingdom before the end of June.

☞ The English squadron which is to be sent to the American coast will have over four hundred guns, and between five and six thousand men.

The United States might, for all the world knew, have had wooden guns, wooden balls, wooden swords and paper ramparts for a century to come. *Not a nation in the world would have attacked her at home.—London Times.*

☞ A young man eighteen years of age, named Joseph Hood, was accidentally drowned in Bottomly's Pond, Worcester, on Saturday week, while intoxicated, as is supposed.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been sworn by numberless trials of advertised nostrums; *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ Nearly all the companies composing the Second Regiment have been mustered into the service of the United States, and a dispatch was sent to Concord on Friday afternoon for seventy-five more men, to fill vacancies. A Nashua company is stationed at Camp Union, and it is probable that selections will be made from its ranks. It is deemed desirable that this regiment should be filled up immediately, and the mustering of the companies will probably be completed to-day.

The soldiers of the regiment are now nearly all provided with uniforms and equipments, with the exception of cartridge boxes and bayonet scabbards, which are not yet ready for delivery.

STEAMSHIP ILLINOIS. — Twenty-seven 9-inch Dahlgreen guns, with carriages and appurtenances, and 1800 9-inch shell, have been put on board the steamer Illinois, now lying at the Navy Yard.

The shell were shipped from Boston, arriving on Thursday. Where these guns are to be transported to is unknown, as the ship will sail under sealed orders.

☞ We learn that the Secretary of War has directed that wagons, similar to those provided for the N. H. First Regiment, be supplied for the Second; and that the order was given on Friday morning, to the Messrs. Downing of Concord. They are to be delivered within ten days from the time the order was given.

☞ One of the volunteers at Camp Constitution, in a letter to the Keene Sentinel, says that "though Col. Marston has not taken command yet, he has done one good thing in ordering the uniforms of the whole Regiment sewed over again.——There are fourteen captains here to be made into ten. None too much material if it could be conveniently worked over. Twenty lieutenants are to be appointed from an indefinite number of anxious applicants. Log rolling is not all confined to newly settled countries."

THEATRE.—W. B. English's great Dramatic Company and the Star Sisters—the celebrated "Star Sisters," Misses Lucille and Helen Western, known all over the country as actresses of extraordinary talent—appear at the Temple on Monday and Tuesday evenings, en route for Boston. These young ladies have achieved great triumphs lately in the Canadas, and are pronounced by the press artistes of merit, beautiful in person and possessing extraordinary versatility. They will present the celebrated moral drama of the "Hot Corn Girl," in which Miss Helen sings two of her popular songs. Mr. English's company comprises nineteen ladies and gentlemen of first class talent, and we have no doubt they will meet with a handsome reception from the public of Portsmouth.

EX-GOV. GOODWIN.—Our citizens will most cordially endorse the following, from the Concord Statesman.

The term of Gov. Goodwin closed on Thursday, and he then ceased the exercise of his official functions as Chief Magistrate of New Hampshire. A better one never filled the chair of State, and his occupancy of it is a circumstance to which the people of New Hampshire will long recur with satisfaction. He has honored the office, and retires, followed by the best wishes of *all* the people. It would be a sad circumstance were he going from us. But it is not so, Long may he live, to exercise that usefulness as an enterprising and liberal citizen, which has been the accompaniment of his life.

☞ We regret to learn that Mr. J. P. Robinson, of Hampton, was injured severely on Thursday last. He, and a son of Mr. John Lamprey, were engaged in shingling a house, when the staging upon which they stood, suddenly gave way. Mr. Lamprey saved himself from falling by catching hold of one of the upright timbers, which did not fail; but Mr. Robinson was precipitated to the ground, and, striking against a stone step, fractured his arm.

☞ The regular monthly meeting of the Historic Genealogical Society was held on Wednesday afternoon. The proceedings were of the usual interest, and Rev. Elias Nason, of Exeter, N. H., read a paper on "Patriotic National Music," giving some account of the origin of "Yankee Doodle," "God Save the King," "Star Spangled Banner," Hail Columbia," Red, White and Blue," &c.

☞ Mr. James R. Hill, the celebrated harness-manufacturer of Concord, of whose establishment we spoke the other day, is now engaged in making two hundred coach harnesses for the Overland Mail Route to California. This is another evidence of the excellence of New Hampshire manufactures.

☞ The ladies would do well to consider the bargains in millinery at Hahn's "Ladies' Exchange," 13 Market street. See advertisement. The rush he is continually having would be no wonder if he gave the goods away.

NEWS ITEMS,

By Friday evening's mails.

Mr. Harvey, the lately appointed minister to Portugal, was the person who notified the rebels of a coming fleet for the reinforcement of Fort Sumter. He will be recalled.

Ten of the enemy were killed at the late fight at Fairfax Court House, and twenty at Aquia Creek. The steam flotilla at Aquia Creek was reinforced with troops, Tuesday.

Advices from Harper's Ferry state that the artillery has been removed from the Maryland Heights, but 500 Kentuckians are still there. There are from 12,000 to 15,000 troops at and near Harper's Ferry, only 8000 of whom are capable of taking the field. The small pox is raging, provision is scarce, and men are deserting by hundreds. It is thought Gen. Johnston will retreat to Winchester. They are ready to move at a moment's warning.

The force at Frederick is 4000 strong.—They will attempt to dislodge the rebels from Point of Rocks.

A gentleman says Jeff. Davis would be at Harper's Ferry Wednesday, to inspect the batteries and troops.

The man arrested at the Relay House, instead of $50,000 to pay rebel troops, had engraved notes for Southern banks, not signed, and worthless.

France, Russia and Belgium have given orders that no arms or supplies will be sold to the Confederate States.

Troops are arriving at Richmond from the South at the rate of 1500 a day, and are moved to Norfolk or Manassas Junction. Beauregard is at the latter place, with 15,000 men.

NEW YORK, June 6.—A Washington special dispatch to the Post says that Marshal Bonifant of Baltimore, yesterday seized a large quantity of powder and other contraband articles and a considerable amount of specie intended for the rebels. The government approved his acts.

The Post Office Department has received many replies to its circulars sent to Southern Postmasters, notifying them of the intended suspension of the mails. A large number express loyalty to the Government.

Several three-months regiments of the Federal troops will be withdrawn from Virginia, and three year's men will take their places.

A citizen of Baltimore from Richmond states that he conversed with Beauregard at Manassas Junction on Sunday night. It is understood that the rebels sent secret agents to Brazil to try and form an alliance with that power.

The Washington rifles have just crossed the river for ten days' service.

LIFE INSURANCE.
"IN THE MIDST OF LIFE WE ARE IN DEATH."
The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to sudden death.
THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.
This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.
Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing much outside.
There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.
The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.
Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

—BECAUSE—

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS

ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skilfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a cure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOW SPIRITS, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. You should be always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it adds the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skilfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and should be introduced with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities from the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating effects. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

REAL ESTATE IN NEW CASTLE

FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains twenty-nine rooms, and is well adapted for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunity for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth Harbor, the contemplated improvement of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay. Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

Portsmouth, N. H., May 18, 1861.

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CURTIS FARM" consisting of about 125 acres of mowing, tillage orchard and pasture land, with a two-story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 200 grafted fruit trees. The situation is very pleasant, on the road from York to Portsmouth, about three miles from the latter place,—and would furnish to the purchaser not only an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further information, call on the subscriber, on the premises.

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and invalids, that it should be procured of undoubted purity and efficiency.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and sold by all respectable druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.
Dr. JAMES L. LEFEBRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"
The established popularity of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.
Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a strictly pure stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.
As a curative agent it has a tendency to recreate and strengthen; while age having contributed its genial charm, and ripened it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.
Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO., (Established 1778.)

—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 39 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I feel bound to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by thousands of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonic and stomachic s, and cannot fail to meet the wants of the debilitated.
It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "that it is the best preparation of Bitters that has ever been offered to the public."
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

MONDAY, JUNE 10, 1861.

INAUGURATION AT CONCORD.

The Statesman pronounces the procession which escorted Gov. Berry, on Election Day, "the most beautiful military and civic display ever seen in Concord." It comprised the Governor's Horse Guards, Col. George Stark, Commander—in full ranks, upwards of an hundred—and in all the beauty of bright apparel, excellent appointments, and with the exhilarating music of the Fisherville Cornet Band, 22 pieces,"—which was mounted for the first time on this occasion, and won general approbation even when compared with Hall's Band.

The Amoskeag Veterans, Col. Rundlett, 90 guns, with the Manchester Cornet Band.

The Fisherville Home Guard, accompanied by a drum and fife band of ten pieces.

The Concord Home Guards had the Concord Serenade Band.

The Gubernatorial party rode in an elegant carriage, drawn by six fine gray horses, driven by Messrs. Nathaniel White and Curtis Clark, with superior skill. The carriage was a new and splendid open one, with three seats, from the manufactory of Messrs. Abbott, of Concord, and attracted great attention, being unique in style and of elegant finish. The reportorial corps occupied a barouche.

Having received the Governor elect at the depot, the procession marched through various streets to the State House, took up the members of the House and Senate, and escorted them to the South Congregational Church. Here a sermon was preached by Rev. Henry E. Parker, the pastor. Then the procession returned to the State House with the official dignitaries, where Mr. Berry was formally inaugurated as Governor for the ensuing year.

While the sermon was being delivered, the Veterans and Horse Guards partook of a lunch at the latter's armory; and the Concord Home Guards entertained those of Fisherville and West Concord with a handsome collation at the City Hall.

"He's a Nut," sure.—The Amoskeag Veterans were attended during their Election Day parade at Concord, by a lad attired in the complete uniform of the corps. He is said to be about 14 years of age, but is a pigmy in stature, being less than three feet in height, and on the march afforded a pleasing contrast with the stalwart men of the Veterans.

He bears the title and name of Gen. George Washington Nutt. At the dinner given by the Horse Guards, he sang several National airs in good style, and was voted a member of the Guards. It was also voted that the corps defray his membership fees, uniform him, and provide him a suitable pony, for the next parade.

As he walked about the hall with one of the largest Veterans, Gen. Nutt's head was about even with the other's boot-top. His parents live in Manchester, and are both above medium size, but have two other children not much "larger of their age" than *this* nut.

Death of Judge Douglas.—A meeting of the Democratic members of the N. H. Legislature was held in Concord, on Wednesday evening, A. Q. Wendell, Esq., of this city, being Secretary. Hon. William Burns presented a series of resolutions, expressive of their sorrow at the loss which the party and the country have experienced in the death of Hon. Stephen A. Douglas,—"especially at this crisis, when his patriotic spirit was ready to make any sacrifice, consistent with honor and the constitution, for a peaceful settlement of our national difficulties." The resolutions were unanimously adopted.

☞ The corner stone of the South Congregational Church to be erected for Rev. E. E. Hale's congregation on Union Park street, (near Washington, Boston,) was laid Friday afternoon, with appropriate ceremonies, in the presence of a large audience. The exercises were opened with prayer by Rev. Dr. Barrett, who also offered prayer at the laying of the corner stone of the present church.

☞ The Jackson Mississippian calls upon the people of the South to bring out the money they have laid up for a rainy day, and leave their children poor, but free, rather than that the vigor of operations should be paralyzed.

The Portland Argus says, "Abolitionism and Secessionism are the North and South Siamese twins—let them die together and be buried in the same ignominious grave."

STATE ITEMS.

The large woollen factory, a saw mill, grist mill and two dwelling houses, owned by the Ashuelot manufacturing company, and the oil mill of David Ball, were destroyed by fire at Winchester, on Friday evening of last week. The loss to the Ashuelot company is $75,000; insurance $30,000. Mr. Ball's loss is $3000. The factory had recently been running night and day in the manufacture of army blankets, and was filling an order for a lot of blankets for Major Anderson's Kentucky brigade. About 150 operatives were employed, all of whom are thus thrown out of business.

The real inventor of the now world-famous Colt pistol is Otis W. Whittier, a New England mechanic. It was in 1837, while living in Enfield, N. H., that he made the original invention, and got his patent. He immediately commenced the manufacture of the arm, but at the end of two years a fire destroyed all his stock and machinery. In 1851, he procured a renewal of his patent, and in the same year sold it for $2000 to Henry B. Beach and Samuel Woodruff of Hartford, who in turn sold it to Samual Colt.

The returns of votes for Governor were read in the Legislature on Friday, as follows:—

The News.—Saturday morning's mails, showed that the United States troops, in good numbers, are approaching Harper's Ferry by way of Chambersburg and Hagerstown. A large number of troops are already at the former place and more are on their way. From all accounts the advancing government troops constitute a heavy force. We have diverse stories as to the condition of the rebels at Harper's Ferry. A dispatch from Frederick states that troops are constantly arriving there, that provisions are abundant and the men cheerful and that there are 17,000 troops at that place at the present time; also, that Jeff. Davis is expected there to-day. On the other hand we have two dispatches to the effect that the rebels are in a poor condition and that desertions are frequent.—A Cairo dispatch to a New York paper says Southern troops are coming up the river and that an attack is momentarily expected.

☞ The funeral of Senator Douglas, in Chicago, on Friday, was the occasion of general mourning. A procession of upwards of ten thousand persons of all professions, and about two miles long, followed his remains. Business was generally suspended throughout the State, and the day was observed in a fitting manner. His death was noticed appropriately throughout that portion of the country from which we have any intelligence. The American heart had opened towards him, and thousands mourn his death who once regarded him as a dangerous man. No reproaches are uttered against him now.

Kearsarge.—Kearsarge was suggested to the Navy Department as a name for one of the new steam sloops-of-war by one of the publishers of the Concord (N. H.) Statesman. He wrote that as the Merrimac was burnt at Norfolk, it would be gratifying to New Hampshire folks to be again remembered in this matter of names of national vessels; and in presenting Kearsarge he said it was an isolated and imposing eminence, in the centre of the State, in the midst of a loyal people, and that young Ladd, who fell at Baltimore, crying, "All hail to the stars and stripes," was buried almost within its shadow at Alexandria.

☞ A letter from the correspondent of the Boston Advertiser, at Fortress Monroe, points out the great inconvenience which the Massachusetts Fourth Regiment suffer at Newport Point, for want of suitable camp equipage. In agreeable contrast to this, we think of the comfortable and ample camp equipage of the First New Hampshire Regiment—and are well content with the little delay needful to get the same convenience for the Second Regiment.

Trenton, June 7.—The three new regiments are encamped three miles from this city, at Camp Olden, awaiting the arrival of proper arms and equipments, prior to moving to the seat of war. Three thousand flint lock muskets have been contracted to be altered to percussion. No troops will be allowed to leave until fully equipped.

Baltimore, June 7.—The Williamsport correspondent of the American, deemed reliable, writes this morning: A number of Virginia companies at Harper's Ferry have been disbanded, and most of the soldiers from Berkeley county have returned home. A deserter, who has this moment arrived here, states that desertions have reduced some of the companies to about half of their original number.

☞ A gentlemen residing in Indianapolis, Ind, writes as follows to the Boston Atlas under date of June 4:

About three weeks ago a person calling himself Dr. H. B. Ayer spent some days in our city. He represented himself as a native of Manchester, N. H.; had lived five or six years in New Orleans; had been a dentist in the latter place; also clerk in the District Court; was obliged to flee because he was a Northern man. Now I see he is telling an entirely different story at the East, confirming the opinion of all who met him here, that he is an impostor.

He left our city *forgetting* to pay several bills. I'm convinced that he is an impostor and write to prevent if possible the people of New England from wasting their sympathies and means on an unworthy object.

Dr. Ayer was in this city a few days since, and endeavored to borrow "money to get to Manchester," of several different gentlemen, whose names he ascertained from the directory. He was advised to call on some of the Manchester gentlemen who are in the city at present, but "did n't know them!"

Washington, June 7.—Five companies of regular infantry, with a band and eleven heavily laden wagons, left their barracks in the 1st Ward at 4 o'clock this afternoon, and marched to the railroad station; where they took passage, so the men said, for Chambersburg. This movement, in connection with the concentration of troops at that point, is regarded as indicative of immediate designs by the government on Harper's Ferry.

A company of regular artillery left the arsenal this afternoon for the Carlisle Barracks. Their place at the arsenal is supplied by an artillery corps lately from North Carolina.

The works beyond Arlington House, near Hoover's place, opposite Georgetown, are being rapidly and effectually strengthened by the United States forces there.

Thirty-six guns have been mounted on the embankment. An attack is expected there soon by the rebels from Manassas Junction.

Alexandria, June 7.—Steamer Reliance arrived off the harbor at noon to day, and transferred the Lieutenant commanding to steamer Washington. She brings news from Fort Washington that 4 slaves sought refuge there from Virginia. They state that the rebels at Acquia Creek have some rifled field pieces, which they have used at various points, changing them according to the fire of vessels.

They have not used their battery of four 32 pounders which are masked behind an old fish house outside of the range of vessels' guns. The yawl boat which has been used for carrying letters between Maryland and Virginia has been captured: the escaped negroes have been engaged in throwing up the parapet.

The Provost Marshal has recalled his prohibition of the proposed newspaper publication. The first number will appear on Monday.

It is reported that the Union and rebel pickets on the Fairfax road are gradually approaching each other.

New York, June 8.—Letters from Gen. Fremont, dated London, state that he has purchased 10,000 Enfield rifles and several batteries of rifled cannon for the U. S. government, which he will bring with him, when completed. He says the rebel commissioners have succeeded in buying two steamers for $350,000, which are to sail for a Southern port under the British flag and registered as the property of British owners, and probably in ballast.

The District volunteers, the New Hampshire regiment and the Rhode Island battery, the whole under command of Col. Stone,—4000 troops—are expected to leave immediately for Harper's Ferry.

It is said the Wheeling Convention will establish a Provisional Government and declare Eastern Virginia in rebellion against the General Government, and call on the loyal citizens to sustain the Union. The Legislature chosen on the 23d of May will be declared legally elected and will choose Senators.

☞ The New York Commercial's Washington dispatch says additional troops have been ordered to Chambersburg. Members of Congress are arriving in Washington by every train. The government has decided not to accept any more contributions of money from States, but hereafter to obtain all the money necessary through the regular channels. The 71st Regiment was engaged on scouting duty to prevent the rebels from seizing provisions in Maryland.—Advices from Illinois represent that the whole State is draped in mourning for Mr. Douglas.

Cairo, Illinois, June 6.—Gen. Prentiss having learned that some Kentucky rebels had established a camp at Elliot's Mills, Ky., ten miles hence, sent two companies there. The enemy had fled.

Col. Wyckliffe, who represents Kentucky in a semi-official character, visited Gen. Prentiss to-day and protested against the invasion of Kentucky soil.

Gen. Prentiss has received several letters from Western Kentucky asking protection from ruffianism. He has declared his intention to send troops in whatever direction and upon such soil as his government has ordered.

Israel Blanchard, a secession sympathizer living near Carbondale, has been arrested and sent to Springfield for trial for treason.

☞ The twelfth volume of the New American Cyclopedia, just issued, contains a notice of Rev. Andrews Norton, by Dr. A. P. Peabody, of Cambridge.

☞ There are as many arrivals at the Spencer House, Cincinnati, from the South, as usual at this season of the year. The tide also sets East. The summer hotels may take courage from this fact.

Lifting the Skirts.—But look a little lower down. Look at her limbs swathed in forty yards of dry-goods, layer upon layer, to catch the winds, and fetter and confine every motion. (Don't exclaim that it is extravagant—stop and count up.) I have seen many a lady with seventy-five yards of cloth hanging around her. A few times I have counted it up into higher figures. And with all this weight of sail she must scud before life's fiercest gales, and bear her own share of its burdens.

Put a man into trailing skirts, and ask him to be a merchant, bank director, railroad conductor, even a cook in a hotel or steamer, or porter, or errand boy, or waiter—let him try it a day, and my word for it, he would "pitch in" to any "Young America" on the corner for the first insult offered to the lady who dared to fit her dress to her own business.

To-day it rains, and the mud will compel one thousand (maybap ten) white skirts to the wash tub in Chicago. How many there are in this independent government of ours, that hang on France for her styles as a babe hangs on its mother, no one can estimate. How many ruined dresses, how many bad colds, how many bad coughs, how many doctor's bills, lost days, let those who dare, attempt to number.

Man splashes through all this with his appropriate clothing, his thick boots and rubbers, unscathed. Why may not women, at least those who have to labor for their bread?

Now, sisters of Illinois, shall these things always be? I see that the feet have made their plea for better usage, and that thick soles, high heels, and substantial uppers, stamp along the streets under the patronage of crinoline, silk and satin. Can't we make a long pull, a strong pull, and pull altogether, and lift our skirts four inches out of the mud?

Such a measure would pay off the national debt in time, provided we gave all the savings to that work. If we can't adopt Br. Austin's costume, can't we at least resolve not to wear at any given time over *thirty-six yards of dry goods?*

Will it pay to squander the wealth, health, happiness, energy, usefulness and talent of women? I say—*Illinois can't afford it.—By Mrs. Francis D. Gage.*

New York, June 7.—The Herald has the following dispatch from Cairo, dated today:—Scouting parties from Gen. Pillow's army were reported at Number One Island, four miles below here, to-day. Southern troops are coming up on both sides of the river, and an attack on Cairo is momentarily expected. We are ready.

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs,* as well as that most dreaded of all diseases, *Consumption,* which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

Andover, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry,* and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make a trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ Lieut. Brown, late of the United States steam frigate Niagara, who resigned his commission on her arrival at Boston, has been to Montgomery and offered his services to the rebel Secretary of War free of expense. Brown is the man who was so outraged in being detained an hour or two in Boston.

SANTEE.—The Journal states that this noble ship, whose keel was laid forty years ago, and whose model has been amended with the progress of naval architecture, until she is as near perfection as any vessel afloat, will, probably ere a week elapses, be for the first time on the Atlantic. Most of her officers are now here. The Marine Guard, about 50, under command of Lieut. Ed. McD. Reynolds, (son of Maj. J. G. Reynolds, who was recently on this station) are now here. We have not the names of all the officers, but among them are:—

Captain—Henry Engle;
1st Lieut.—A. D. Harrell;
Paymaster—L. Warrington;
Midshipmen — George M. Brown, F. Rogers, Symmes M. Hunt, J. W. Philip.
Gunner—William Carter;
Sailmaker—S. H. Boutwell.
Boatswain—William Black.

The destination of the Santee is not made public, but will probably be for the South Carolina blockade. When the name of *Santee* was given forty years ago, it was little thought that her first cruise would be to blockade the rivers of the State whence that name was derived.

The steamer State of Maine left New York on Friday, with about 500 men for the Santee, and arrived at this Naval Station on Saturday evening.

THEATRE.—Mr. W. B. English's popular theatrical troupe appear at the Temple this evening, and a good opportunity is afforded those fond of such entertainments to attend one. Mr. English has had much experience in the theatrical business, and is widely known as one from whom it is safe to expect the performance of all that he promises. We feel assured that with his present company, many members of which are well known as pleasing and accomplished actors and actresses, he will not fail to satisfy all reasonable expectations. He has a larger number of performers than our city is often favored with, and this is enabled to offer greater attractions than usual.

The beautiful Star Sisters have for two or three years been the cynosure for all eyes in the theatrical world. Miss Helen Western appears to-night as the "Hot Corn Girl," a piece written expressly for her, in which she sings a touching song. The rest of the entertainment appears to be unusually attractive. We doubt not they will be greeted by a full house.

NAVY YARD.—The number of names now on the roll is 952. Work has been commenced on the new steam sloop. She is to be 220 feet on the rail, 335 feet over all, 16 feet 5 inches depth of hold, 38 feet beam, 14 feet draft. She will carry two 8-inch shell guns and four Dahlgreen 32 pounders. She will be ready for launching about the first of October.

PERSONAL.—The Boston papers state that Col. Gilman Marston was in Boston on Friday, on business connected with the equipment of the Second Regiment.

☞ We could get no telegraphic dispatches on Sunday afternoon, owing to an interruption in the wires between this city and Boston.

FREDERICK, Md., June 7.—A gentleman just from Harper's Ferry reports that Jeff. Davis was expected there to-morrow. They are fully prepared for an attack. He represents that indications do not at all favor the rumored evacuation. New troops are constantly arriving; 1500 reached there last night from the interior of Virginia. Provisions were abundant, and the men cheerful. The strictest discipline was maintained. Our informant was not allowed to speak to the soldiers, except in the presence of officers. Six or eight deserters from Chambersburg reached there to-day, and several yesterday. He states that there are 17,000 troops there.

KING COTTON.—R. S. F., (R. S. Fay, we presume,) in a communication to the Boston Courier, recommends the colonization of the human "contraband of war" taken by our troops. He asks:—

"What is there then to prevent the United States Government commencing at once a plan, the result of which would be to colonize with liberated slaves the Central American States, who, in gratitude for their liberation, would transfer the throne of the Cotton King to a neighboring State, more accessible to the merchant and manufacturer than Texas or Louisiana?"

R. D. Shepherd, living on his beautiful farm near Shepherdstown, Va., has directed his agent in New Orleans to pay over to the treasurer of the Confederate States a large sum of money, including, it is said, his whole annual income from rents in that city—the largest income enjoyed by any property holder—to be applied to the defence of the rights and the support of the independence of the South.

☞ A Norfolk dispatch to an Atlanta (Ga.) paper says the Merrimac has been raised. Her machinery is uninjured, and she will be ready for sea by Friday.

☞ The steamer Peerless, recently purchased on Lake Ontario, has been seized and taken possession of by the Canadian Government, at the request of our Consul General, Mr. Giddings, on suspicion that she was purchased by Southern parties to act as a privateer. She is detained at Quebec.

The New Orleans Delta questions the authorities whether shipments of grain from that port to Cuba, "should be allowed, in view of the probable scarcity and great demand for these articles, to support our troops and prevent a scarcity until harvest." Why does not the New York Journal of Commerce inform the Delta that there is no danger of a scarcity?

☞ Army stockings are being prepared in New York with woolen feet and cotton legs. It is confidently predicted that this will be a great improvement over any other similar article.

☞ It is said that Henry A. Wise is in a rapid decline.—A letter from Cairo says that General Prentiss is impatient to march down the river.

☞ Over 100 fugitive slaves from Virginia crossed the Potomac into Maryland on Sunday and Monday nights of last week.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters*. For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1861. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *restore* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO., (Established 1778,) Sole Proprietors, No. 19 Broad St., N. Y.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LIFE INSURANCE.

'IN THE MIDST OF LIFE WE ARE IN DEATH.'

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man makes provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years' experience* of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form and at its price within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act as perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it adds the vigor of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and should be sought for with joy by all sympathetic, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating influence. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is without doubt the first article in the market for purifying the blood and invigorating the system. We have no hesitation in recommending its use to all.—*New Yorker.*

REAL ESTATE IN NEW CASTLE

FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, boating, bathing, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

15 Greatest Medical Circular Ever Published! 15

sent free to all who send letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 102, Sycamore St., Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

The Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, same letter pages, for 6 cts. in stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most novel, valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau will be found in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, free of charge, for ordinarily necessary to effect a cure. Patients do not see each other. The most ample guaranties of secrecy and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 455. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

A VOICE FROM THE WEST!
FROM THE CLEVELAND, PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.
Dr. JAMES L. LEPERE writes from Navarre, Stark Co., O.: "The Bitters are prabed by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio (a section where fever and ague prevails), that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 59 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—W. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonic and stomachics, and cannot fail to meet the wants of the debilitated.
It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "that it is the best preparation of Bitters that has ever been offered to the public."
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.
